## News Release

### MoneyGram International Reports Third Quarter 2017 Financial Results

DALLAS ( November 2, 2017 ) -- MoneyGram (NASDAQ:MGI) today reported financial results for its third quarter ended September 30, 2017 .

#### Third Quarter Financial Results

- Total revenue of \$397.8 million declined 4% on a reported and 5% on a constant currency basis compared to third quarter 2016.
  - Third quarter money transfer revenue was \$356.8 million , representing a decrease of 3% on a reported basis and a decrease of 5% on a constant currency basis as compared to prior year. Money transfer revenue results were impacted by softness in the U.S. to U.S. market and macroeconomic issues in Africa , partially offset by the translation impact of the strengthened euro.
  - Moneygram.com grew 23% fueled by new customer acquisitions. Total Digital money transfer revenue grew 6% over the prior year as strong moneygram.com growth was partially offset by additional compliance requirements and global economic trends. Digital represented 15% of total money transfer revenue.
  - Investment revenue increased \$3.1 million versus last year due to higher yields earned on investment balances.
- Operating income was \$23.3 million , a decrease of 11% .
- Net income was \$7.7 million , a decrease of \$2.4 million as compared to third quarter 2016. EBITDA was \$54.9 million , a decrease of 5% as compared to the year-ago period. Both Net income and EBITDA were impacted by \$2.2 million of merger-related costs and an increase in direct monitor costs.
- Adjusted EBITDA was \$67.9 million , a 1% decrease on a reported basis and a 2% decrease on a constant currency basis. Adjusted EBITDA margin was 17.1% as compared to 16.6% last year.
- Adjusted Free Cash Flow was \$25.2 million for the quarter and \$79.4 million year-to-date.
- Income tax expense was \$4.0 million , representing a 34% tax rate.
- Diluted earnings per share was \$0.12 compared to \$0.15 last year. Adjusted diluted earnings per share was \$0.24 compared to \$0.25 last year.

"Year-to-date top-line results reflect a changing macroeconomic environment including softness in previously strong markets and corridors, central bank intervention of capital flows, and a volatile immigration environment, all impacting the money transfer business. The complexity of global compliance requirements is also affecting revenue as we implement enhanced solutions to comply with increasingly stringent AML and consumer fraud measures to protect our customers and the integrity of our network," said Alex Holmes, MoneyGram's chief executive officer.

“At the same time, our team is improving the efficiency and productivity of our operations resulting in Adjusted EBITDA margin expansion for both the third quarter and year-to-date. In the third quarter our Digital business reached our previously stated goal of 15% of total money transfer revenue and moneygram.com grew 23% from last year. We continue to build on this momentum and align our business with growing technology trends,” Mr. Holmes concluded.

Regarding MoneyGram's pending transaction with Ant Financial; MoneyGram and Ant Financial continue to work with the Committee on Foreign Investment in the United States (CFIUS) and various other regulatory agencies, and remain focused on closing the transaction within the time periods permitted by the Merger Agreement.

## Non-GAAP Measures

In addition to results presented in accordance with GAAP, this news release and related tables include certain non-GAAP financial measures, including a presentation of EBITDA (earnings before interest, taxes, depreciation and amortization, including agent signing bonus amortization), Adjusted EBITDA (EBITDA adjusted for certain significant items), Adjusted EBITDA margin, Adjusted Free Cash Flow (Adjusted EBITDA less cash interest, cash taxes, cash payments related to an IRS tax matter, and cash payments for capital expenditures and agent signing bonuses), constant currency measures (which assume that amounts denominated in foreign currencies are translated to the U.S. dollar at rates consistent with those in the prior year), adjusted diluted earnings per share and adjusted net income. In addition, we present adjusted operating income and adjusted operating margin for our two reporting segments. The following tables include a full reconciliation of non-GAAP financial measures to the related GAAP financial measures.

We believe that these non-GAAP financial measures provide useful information to investors because they are an indicator of the strength and performance of ongoing business operations. These calculations are commonly used as a basis for investors, analysts and other interested parties to evaluate and compare the operating performance and value of companies within our industry. Finally, EBITDA, Adjusted EBITDA, Adjusted EBITDA margin, Adjusted Free Cash Flow, constant currency, adjusted diluted earnings per share and adjusted net income figures are financial and performance measures used by management in reviewing results of operations, forecasting, allocating resources or establishing employee incentive programs. Although MoneyGram believes the above non-GAAP financial measures enhance investors' understanding of its business and performance, these non-GAAP financial measures should not be considered in isolation or as substitutes for the accompanying GAAP financial measures.
