NanoString to Webcast Presentation at the 2017 Morgan Stanley Global Healthcare Conference

SEATTLE, Sept. 07, 2017 (GLOBE NEWSWIRE) -- NanoString Technologies, Inc. (NASDAQ:NSTG), a provider of life science tools for translational research and molecular diagnostic products, today announced that it will webcast the company's presentation at the 2017 Morgan Stanley Global Healthcare Conference in New York City, on Tuesday, September 12, 2017.

The webcast is scheduled to begin at 3:30pm ET and will feature a company overview by Brad Gray, president and chief executive officer of NanoString. Interested parties can access the live webcast from the investor section of the company's website at www.nanostring.com. The webcast replay will be available one hour after the conclusion of the live presentation and archived for 90 days.

About NanoString Technologies, Inc.

NanoString Technologies provides life science tools for translational research and molecular diagnostic products. The company's nCounter® Analysis System has been employed in life sciences research since it was first introduced in 2008 and has been cited in more than 1,650 peer-reviewed publications. The nCounter Analysis System offers a cost-effective way to easily profile the expression of hundreds of genes, proteins, miRNAs, or copy number variations, simultaneously with high sensitivity and precision, facilitating a wide variety of basic research and translational medicine applications, including biomarker discovery and validation. The company's technology is also being used in diagnostics. The Prosigna® Breast Cancer Prognostic Gene Signature Assay together with the nCounter Dx Analysis System is FDA 510(k) cleared for use as a prognostic indicator for distant recurrence of breast cancer. In addition, the company is collaborating with multiple biopharmaceutical companies in the development of companion diagnostic tests for various cancer therapies, helping to realize the promise of precision oncology.
