Cautionary Note Regarding Forward-Looking Statements

Certain information included in this report and in our other materials we have filed or will file with the Securities and Exchange Commission (“SEC”), as well as information included in oral statements or other written statements made or to be made by us, contains or may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (the “PSLRA”). Those statements provide our future expectations or forecasts and can be identified by our use of words such as “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “believe,” “outlook,” and other words or phrases of similar meaning in connection with any discussion of future operating or financial performance or the outcome of contingencies such as liabilities or legal proceedings.

Forward-looking statements, by their nature, address matters that are uncertain and involve risks (such as those referenced in Part II, Item 1A, Risk Factors of this report) because they relate to events and depend on circumstances that may or may not occur in the future. The risks and uncertainties identified in the forward-looking statements contained in this report, together with those previously disclosed in our SEC filings, or those that are presently unforeseen, could result in significant adverse effects on our financial condition, results of operations and cash flows, and cause our actual results to differ materially from our expectations and from those expressed in our forward-looking statements.

We try to reduce the likelihood that these and other risks will significantly affect our businesses, as well as their potential impact. However, no matter how accurate our foresight, how well we evaluate risks, and how effective we are at mitigating them, one or more of these risks could have serious consequences for us, and could cause a material adverse effect on our business. See the related discussions in this document and our other SEC filings and other public documents for more details relating to the risks and uncertainties impacting our businesses. Forward-looking statements speak only as of the date they are made. We undertake no obligation to update any forward-looking statements beyond what is required under applicable securities law.

This discussion is provided as permitted by the PSLRA, and all of our forward-looking statements are expressly qualified in their entirety by the cautionary statements contained or referenced in this section.

Armstrong World Industries, Inc., and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Unaudited)
(dollar amounts in millions)

NOTE 1. BUSINESS AND BASIS OF PRESENTATION

Armstrong World Industries, Inc. (“AWI”) is a Pennsylvania corporation incorporated in 1891. When we refer to “we,” “our” and “us” in these notes, we are referring to AWI and its subsidiaries. We use the term “AWI” when we are referring solely to Armstrong World Industries, Inc.

In December 2000, AWI filed a voluntary petition for relief (the “Filing”) under Chapter 11 of the U.S. Bankruptcy Code (the “Bankruptcy Code”) in the United States Bankruptcy Court for the District of Delaware (the “Bankruptcy Court”) in order to use the court-supervised reorganization process to achieve a resolution of AWI’s asbestos-related liability. On October 2, 2006, AWI’s court-approved plan of reorganization (“POR”) became effective and AWI emerged from Chapter 11. All claims in AWI’s Chapter 11 case have been resolved and closed.

On October 2, 2006, the Armstrong World Industries, Inc. Asbestos Personal Injury Settlement Trust (“Asbestos PI Trust”) was created to address AWI’s personal injury (including wrongful death) asbestos-related liability. All present and future asbestos-related personal injury claims against AWI, including contribution claims of co-defendants but excluding certain foreign claims against subsidiaries, arising directly or indirectly out of AWI’s pre-Filing use of, or other activities involving, asbestos are channeled to the Asbestos PI Trust.

In August 2009, Armor TPG Holdings LLC (“TPG”) and the Asbestos PI Trust entered into agreements whereby TPG purchased 7,000,000 shares of AWI common stock from the Asbestos PI Trust and acquired an economic interest in an additional 1,039,777 shares from the Asbestos PI Trust. The Asbestos PI Trust and TPG together hold more than 60% of AWI’s outstanding shares and have entered into a shareholders’ agreement, pursuant to which the Asbestos PI Trust and TPG have agreed to vote their shares together on certain matters.

The accounting policies used in preparing the Condensed Consolidated Financial Statements in this Form 10-Q are the same as those used in preparing the Consolidated Financial Statements for the year ended December 31, 2011. These statements should therefore be read in conjunction with the Consolidated Financial Statements and notes that are included in the Form 10-K for the fiscal year ended December 31, 2011. In the opinion of management, all adjustments of a normal recurring nature have been included to provide a fair statement of the results for the reporting periods presented. Quarterly results are not necessarily indicative of annual earnings, primarily due to the different level of sales in each quarter of the year and the possibility of changes in general economic conditions.

Certain amounts in the prior year’s Condensed Consolidated Financial Statements have been recast to conform to the 2012 presentation.

These Condensed Consolidated Financial Statements are prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”). The statements include management estimates and judgments, where appropriate. Management utilizes estimates to record many items including certain asset values, allowances for bad debts, inventory obsolescence and lower of cost or market charges, warranty, workers’ compensation, general liability and environmental claims and income taxes. When preparing an estimate, management determines the amount based upon the consideration of relevant information. Management may confer with outside parties, including outside counsel. Actual results may differ from these estimates.

In June 2011, the Financial Accounting Standards Board (“FASB”) issued new guidance that is now part of ASC 220: “*Presentation of Comprehensive Income*”. The guidance requires companies to present the components of net income and other comprehensive income either as one continuous statement or as two consecutive statements. It eliminates the option to present components of other comprehensive income as part of the statement of changes in stockholder’s equity. The standard does not change the items which must be reported in other comprehensive income. These provisions are to be applied retrospectively and were effective for us as of January 1, 2012. There was no impact on our financial condition, results of operations or cash flows as a result of this presentation.

Table of Contents

Armstrong World Industries, Inc., and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Unaudited)
(dollar amounts in millions)

Operating results for the second quarter and first six months of 2012 and the corresponding periods of 2011 included in this report are unaudited. However, these Condensed Consolidated Financial Statements have been reviewed by an independent registered public accounting firm in accordance with standards of the Public Company Accounting Oversight Board (United States) for a limited review of interim financial information.

Table of Contents

Armstrong World Industries, Inc., and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Unaudited)
(dollar amounts in millions)

Impairment testing of our tangible assets occurs whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. During the second quarter of 2012 we performed an impairment test of our Cabinets business due to losses incurred during the first six months of 2012. The carrying amount of the tangible assets was determined to be recoverable as the projected undiscounted cash flows exceeded the carrying value.

In March 2012, we made the decision to permanently close a previously idled ceiling tile plant in Mobile, AL. As a result, during the first quarter we recorded accelerated depreciation of \$9.3 million for machinery and equipment and a \$4.6 million impairment charge for buildings in cost of goods sold. The preliminary fair values were determined by management estimates and an independent valuation based on information available at that time (considered Level 2 inputs in the fair value hierarchy).

During the first quarter of 2011, we announced the idling of our Statesville, NC engineered wood production facility. As a result, we evaluated the impairment implications of this decision and determined no impairment charge was necessary.

NOTE 3. ACCOUNTS AND NOTES RECEIVABLE

	June 30, 2012	December 31, 2011
Customer receivables	\$311.8	\$ 263.3
Customer notes	2.2	1.7
Miscellaneous receivables	7.0	7.9
Less allowance for warranties, discounts and losses	(39.7)	(40.4)
Accounts and notes receivable, net	<u>\$281.3</u>	<u>\$ 232.5</u>

Generally, we sell our products to select, pre-approved customers whose businesses are affected by changes in economic and market conditions. We consider these factors and the financial condition of each customer when establishing our allowance for losses from doubtful accounts.

NOTE 4. INVENTORIES

	June 30, 2012	December 31, 2011
Finished goods	\$292.6	\$ 271.5
Goods in process	28.3	25.7
Raw materials and supplies	118.1	118.1
Less LIFO and other reserves	(35.6)	(26.4)
Total inventories, net	<u>\$403.4</u>	<u>\$ 388.9</u>

Notes to Condensed Consolidated Financial Statements (Unaudited)
(dollar amounts in millions)

NOTE 8. SEVERANCES AND RELATED COSTS

See Note 9 to the Condensed Consolidated Financial Statements for a discussion of severance charges associated with restructuring actions.

In the second quarter of 2012, we recorded \$3.4 million for severance and related costs in selling, general, and administrative (“SG&A”) expense (\$3.2M) and cost of goods sold (\$0.2M) to reflect approximately 35 position eliminations in our European Building Products business, primarily as a result of streamlining SG&A functions.

In the first quarter of 2011, we recorded \$3.0 million in cost of goods sold for severance and related costs to reflect position eliminations in our European Resilient Flooring business as a result of improved manufacturing productivity. In addition, we recorded \$0.5 million in SG&A expense for severance and related costs to reflect the separation costs for our former Senior Vice President, General Counsel and Secretary.

NOTE 9. RESTRUCTURING ACTIONS

During the third quarter of 2010, management made several significant decisions to address our cost structure. Given the materiality to our financial statements and impact to our operations, we decided to classify charges related to these actions as restructuring charges. The following table summarizes the restructuring charges recorded in the second quarters and first six months of 2012 and 2011:

Action Title	Three Months Ended June 30,		Six Months Ended June 30,		Segment
	2012	2011	2012	2011	
Floor Products Europe	—	\$ 2.2	\$ 0.2	\$ 5.3	Resilient Flooring
Beaver Falls plant	—	(0.3)	—	1.3	Building Products
North America SG&A	—	0.5	—	0.9	Unallocated Corporate, Resilient Flooring, Building Products
Other initiatives	—	—	—	(0.2)	Wood Flooring
Total	—	\$ 2.4	\$ 0.2	\$ 7.3	

Floor Products Europe : In the third quarter of 2010, we announced our intent to focus our European flooring strategy on products and regions in which we believe we can be a market leader, and to streamline our product range and sales organization accordingly. During the fourth quarter of 2010, we withdrew from the residential market and, as a result, we sold our Teesside, UK manufacturing facility. In addition, during the second quarter of 2011, we ceased production at our heterogeneous vinyl flooring plant in Holmsund, Sweden.

In addition to the restructuring costs reflected in the above table, we also recorded \$2.7 million in the second quarter and \$4.8 million in the first six months of 2011 of other related costs in cost of goods sold (\$2.4 million in the second quarter and \$4.1 million in the first six months) and SG&A expense (\$0.3 million in the second quarter and \$0.7 million in the first six months). These costs are primarily related to inventory obsolescence, accelerated depreciation and plant closure costs.

Through June 30, 2012, we have incurred expenses of \$30.1 million related to this initiative. We do not expect to incur further material restructuring costs related to this initiative.

Beaver Falls Plant : Production at the Beaver Falls, PA facility ended March 31, 2011, and production requirements have been transitioned to other facilities. The decision to close the plant was driven by the location and layout of the plant, technology limitations and the continued limited demand for the products we made at the plant.

Table of Contents

Armstrong World Industries, Inc., and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Unaudited)
(dollar amounts in millions)

In addition to the restructuring costs reflected in the table above, we also recorded \$1.8 million in the second quarter and \$6.5 million in the first six months of 2011 of accelerated depreciation and \$2.8 million of closure-related costs in cost of goods sold in the second quarter and first six months of 2011.

Through June 30, 2012, we have incurred expense of \$25.1 million related to this initiative. We do not expect to incur additional costs in the future as the plant was sold in 2011. The sale resulted in a net gain of \$0.7 million which was recorded in SG&A in the third quarter of 2011.

North America SG&A: We are committed to augmenting margin expansion through the aggressive adoption of projects to standardize, simplify or eliminate SG&A activities. As a result, in the third quarter of 2010, we began to restructure our North American SG&A operations. The first six months of 2011 restructuring expense related to this initiative was recorded in the Unallocated Corporate (\$0.6 million) and Resilient Flooring (\$0.2 million) and Building Products (\$0.1 million) segments.

Through June 30, 2012, we have incurred restructuring expense of \$7.2 million related to this initiative. In total, we expect to incur restructuring expenses of up to \$8 million related to this initiative through 2012 as we further streamline North American SG&A functions.

The following table summarizes activity in the restructuring accruals.

	Severance and Related Costs			
	Floor Products	North America	Beaver Falls	Total
	Europe	SG&A	Plant	
December 31, 2011	\$ 3.2	\$ 0.5	\$ 0.1	\$ 3.8
Net charges	0.2	—	—	0.2
Cash payments	(2.2)	(0.4)	—	(2.6)
June 30, 2012	<u>\$ 1.2</u>	<u>\$ 0.1</u>	<u>\$ 0.1</u>	<u>\$ 1.4</u>

Most of the accrual balance as of June 30, 2012 is expected to be paid by March 31, 2013.

NOTE 10. INCOME TAX EXPENSE

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2012	2011	2012	2011
Earnings before income taxes	\$ 62.9	\$ 61.2	\$94.1	\$98.8
Income tax expense	21.1	23.3	34.1	47.4
Effective tax rate	33.5%	38.1%	36.2%	48.0%

The effective tax rate for the second quarter of 2012 was lower than the comparable period in 2011, primarily due to the favorable tax impact from our mix of income from international operations.

The effective tax rate for the first six months of 2012 was lower than the first six months of 2011 primarily due to the favorable tax impact from our mix of income from international operations. Additionally, the effective tax rate was lower in the first six months of 2012 due to a decrease in the valuation allowance for foreign tax credits based on our projected ability to utilize these credits to offset future taxable income.

We do not expect to record any material changes during 2012 to unrecognized tax benefits that were claimed on tax returns covering tax years ending on or before December 31, 2011.

Table of Contents

Armstrong World Industries, Inc., and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Unaudited)
(dollar amounts in millions)

As of June 30, 2012 we consider foreign unremitted earnings to be permanently reinvested.

NOTE 11. DEBT

On March 22, 2012, we amended our \$1.05 billion senior credit facility arranged by Merrill Lynch, Pierce, Fenner & Smith, Inc., J.P. Morgan Securities, Inc. and Barclays Capital. We added \$250 million to our existing Term Loan B facility. The amended \$1.3 billion facility is made up of a \$250 million revolving credit facility (with a \$150 million sublimit for letters of credit), a \$250 million Term Loan A and an \$800 million Term Loan B. The facility is secured by U.S. personal property, the capital stock of material U.S. subsidiaries, and a pledge of 65% of the stock of our material first tier foreign subsidiaries. The only significant change to existing terms, conditions and covenants related to the consolidated leverage ratio covenant. Under the revised covenant, threshold ratios are as follow: 4.5 to 1.0 through December 31, 2013, 4.0 to 1.0 through March 31, 2015, and 3.75 to 1.0 thereafter. During the first six months of 2012, we were in compliance with all covenants of the previous and amended credit agreements.

In connection with the additional \$250 million Term Loan B borrowings, we paid \$8.1 million for bank, legal and other fees. This amount was capitalized and is being amortized into interest expense over the life of the loan.

NOTE 12. PENSIONS AND OTHER BENEFIT PROGRAMS

Following are the components of net periodic benefit costs (credits):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
U.S. defined-benefit plans:				
Pension benefits				
Service cost of benefits earned during the period	\$ 4.0	\$ 3.9	\$ 7.9	\$ 7.8
Interest cost on projected benefit obligation	22.6	23.1	45.3	46.1
Expected return on plan assets	(35.0)	(38.1)	(70.0)	(76.2)
Amortization of prior service cost	0.4	0.4	0.9	0.9
Amortization of net actuarial loss	5.9	4.8	11.7	9.6
Net periodic pension (credit)	<u>(\$ 2.1)</u>	<u>(\$ 5.9)</u>	<u>(\$ 4.2)</u>	<u>(\$ 11.8)</u>
Retiree health and life insurance benefits				
Service cost of benefits earned during the period	\$ 0.3	\$ 0.6	\$ 0.6	\$ 1.2
Interest cost on projected benefit obligation	3.1	3.6	5.5	7.2
Amortization of prior service cost	(0.2)	—	(0.3)	—
Amortization of net actuarial gain	(1.3)	(0.7)	(4.3)	(1.4)
Net periodic postretirement benefit cost	<u>\$ 1.9</u>	<u>\$ 3.5</u>	<u>\$ 1.5</u>	<u>\$ 7.0</u>
Non-U.S. defined-benefit pension plans				
Service cost of benefits earned during the period	\$ 0.5	\$ 1.0	\$ 1.0	\$ 1.8
Interest cost on projected benefit obligation	3.9	4.5	7.8	8.9
Expected return on plan assets	(2.6)	(3.3)	(5.1)	(6.6)
Amortization of net actuarial loss	0.4	—	0.7	0.1
Net periodic pension cost	<u>\$ 2.2</u>	<u>\$ 2.2</u>	<u>\$ 4.4</u>	<u>\$ 4.2</u>

We currently estimate that the 2012 net periodic postretirement benefit cost for our U.S. retiree health and life insurance plans will total approximately \$5 million.

Table of Contents

Armstrong World Industries, Inc., and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Unaudited)
(dollar amounts in millions)

NOTE 13. FINANCIAL INSTRUMENTS

We do not hold or issue financial instruments for trading purposes. The estimated fair values of our financial instruments are as follows:

	June 30, 2012		December 31, 2011	
	Carrying amount	Estimated fair value	Carrying amount	Estimated fair value
Assets/(Liabilities), net:				
Total debt, including current portion	(\$1,095.6)	(\$1,089.3)	(\$843.0)	(\$835.2)
Foreign currency contract obligations	1.8	1.8	1.1	1.1
Natural gas contracts	(7.1)	(7.1)	(9.3)	(9.3)
Interest rate swap contracts	(24.2)	(24.2)	(14.0)	(14.0)

The carrying amounts of cash and cash equivalents of \$217.3 million at June 30, 2012 (made up of bank deposits), receivables, accounts payable and accrued expenses, short-term debt and current installments of long-term debt approximate fair value because of the short-term maturity of these instruments. The fair value estimates of long-term debt were based upon quotes from a major financial institution of recently observed trading levels of our Term Loan B debt. The fair value estimates of foreign currency contract obligations are estimated from market quotes provided by a well recognized national market data provider. The fair value estimates of natural gas contracts are estimated using internal valuation models with verification by obtaining quotes from major financial institutions. For natural gas swap transactions, fair value is calculated using NYMEX market quotes provided by a well recognized national market data provider. For natural gas option based strategies, fair value is calculated using an industry standard Black-Scholes model with market based inputs, including but not limited to, underlying asset price, strike price, implied volatility, discounted risk free rate and time to expiration, provided by a well recognized national market data provider. The fair value estimates for interest rate swap contracts are estimated by obtaining quotes from major financial institutions with verification by internal valuation models.

As of June 30, 2012 we had no restricted cash on our balance sheet. As of December 31, 2011, we had \$1.5 million of restricted cash held by a trustee related to the construction of our Millwood, WV mineral wool plant. These funds were released during the first six months of 2012.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. U.S. GAAP establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. The three levels of inputs used to measure fair value are as follows:

Level 1 — Quoted prices in active markets for identical assets or liabilities.

Level 2 — Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

Table of Contents

Armstrong World Industries, Inc., and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Unaudited)
(dollar amounts in millions)

Assets and liabilities are summarized below:

	June 30, 2012		December 31, 2011	
	Fair value based on		Fair value based on	
	Quoted, active markets	Other observable inputs	Quoted, active markets	Other observable inputs
	Level 1	Level 2	Level 1	Level 2
Assets/(Liabilities), net:				
Total debt, including current portion	(\$787.5)	(\$ 301.8)	(\$545.9)	(\$ 289.3)
Foreign currency contract obligations	1.8	—	1.1	—
Natural gas contracts	—	(7.1)	—	(9.3)
Interest rate swap contracts	—	(24.2)	—	(14.0)

We do not have any financial assets or liabilities that are valued using Level 3 (unobservable) inputs.

NOTE 14. DERIVATIVE FINANCIAL INSTRUMENTS

We are exposed to market risk from changes in foreign exchange rates, interest rates and commodity prices that could impact our results of operations and financial condition. We use forward swaps and option contracts to hedge certain of these exposures. Exposure to individual counterparties is controlled and derivative financial instruments are entered into with a diversified group of major financial institutions. Forward swaps and option contracts are entered into for periods consistent with underlying exposure and do not constitute positions independent of those exposures. At inception, hedges that we designate as hedging instruments are formally documented as either (1) a hedge of a forecasted transaction or “cash flow” hedge, or (2) a hedge of the fair value of a recognized liability or asset or “fair value” hedge. We also formally assess both at inception and at least quarterly thereafter, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in either the fair value or cash flows of the hedged item. If it is determined that a derivative ceases to be a highly effective hedge, or if the anticipated transaction is no longer probable of occurring, we discontinue hedge accounting, and any future mark to market adjustments are recognized in earnings. We use derivative financial instruments as risk management tools and not for speculative trading purposes.

Counterparty Risk

We only enter into derivative transactions with established counterparties having a credit rating of BBB or better. We monitor counterparty credit default swap levels and credit ratings on a regular basis. All of our derivative transactions with counterparties are governed by master International Swap and Derivatives Association agreements (“ISDAs”) with netting arrangements. These agreements can limit our exposure in situations where we have gain and loss positions outstanding with a single counterparty. We generally do not post nor do we receive cash collateral with any counterparty for our derivative transactions. As of June 30, 2012, we had no cash collateral posted or received for any of our derivative transactions. These ISDAs do not have any credit contingent features; however, a default under our bank credit facility would trigger a default under these agreements. Exposure to individual counterparties is controlled, and thus we consider the risk of counterparty default to be negligible.

Commodity Price Risk

We purchase natural gas for use in the manufacture of ceiling tiles and other products, and to heat many of our facilities. As a result, we are exposed to fluctuations in the price of natural gas. We have a policy to reduce cost volatility for North American natural gas purchases by purchasing natural gas forward contracts and swaps, purchased call options, and zero-cost collars up to 24 months forward to reduce our overall exposure to natural gas price movements. There is a high correlation between the hedged item and the hedged instrument. The gains and losses on these transactions offset gains and losses on the transactions being hedged. These instruments are designated as cash flow hedges. At June 30, 2012 and December 31, 2011, the notional

Table of Contents

Armstrong World Industries, Inc., and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Unaudited)
(dollar amounts in millions)

amount of these hedges was \$36.6 million and \$47.2 million, respectively. The mark-to-market gain or loss on qualifying hedges is included in other comprehensive income to the extent effective, and reclassified into cost of goods sold in the period during which the underlying gas is consumed. The mark-to-market gains or losses on ineffective portions of hedges are recognized in cost of goods sold immediately. The earnings impact of the ineffective portion of these hedges was not material for the second quarter or first six months of 2012 or 2011. The contracts are based on forecasted usage of natural gas measured in mmBtu's.

Currency Rate Risk – Sales and Purchases

We manufacture and sell our products in a number of countries throughout the world and, as a result, we are exposed to movements in foreign currency exchange rates. To a large extent, our global manufacturing and sales provide a natural hedge of foreign currency exchange rate movement, as foreign currency expenses generally offset foreign currency revenues. We manage our cash flow exposures on a net basis and use derivatives to hedge the majority of our unmatched foreign currency cash inflows and outflows. As of June 30, 2012, our major foreign currency exposures are to the Canadian dollar, the Australian dollar, and the Euro.

We use foreign currency forward exchange contracts to reduce our exposure to the risk that the eventual net cash inflows and outflows resulting from the sale of products to foreign customers and purchases from foreign suppliers will be adversely affected by changes in exchange rates. These derivative instruments are used for forecasted transactions and are classified as cash flow hedges. Cash flow hedges are executed quarterly, generally up to 15 months forward, and allow us to further reduce our overall exposure to exchange rate movements, since gains and losses on these contracts offset gains and losses on the transactions being hedged. The notional amount of these hedges was \$137.0 million and \$128.3 million at June 30, 2012 and December 31, 2011, respectively. Gains and losses on these instruments are recorded in other comprehensive income, to the extent effective, until the underlying transaction is recognized in earnings. The earnings impact of the ineffective portion of these hedges was not material for the second quarter or first six months of 2012 or 2011.

Currency Rate Risk—Intercompany Loans and Dividends

We also use foreign currency forward exchange contracts to hedge exposures created by cross-currency intercompany loans and dividends. The translation adjustments related to these loans are recorded in other non-operating income or expense. The offsetting gains or losses on the related derivative contracts are also recorded in other non-operating income or expense. These contracts are decreased or increased as repayments are made or additional intercompany loans are extended or adjusted for intercompany dividend activity as necessary. The notional amount of these hedges was \$21.8 million at December 31, 2011. We did not have any open hedges related to intercompany loans and dividends as of June 30, 2012.

Interest Rate Risk

We utilize interest rate swaps to minimize the fluctuations in earnings caused by interest rate volatility. Interest expense on variable-rate liabilities increases or decreases as a result of interest rate fluctuations. On March 31, 2011 we entered into two interest rate swaps, on our Term Loan A and Term Loan B, with notional amounts of \$100 million and \$200 million, respectively, which mature in November 2015. Under the terms of the Term Loan A swap, we receive 3-month LIBOR and pay a fixed rate over the hedged period. Under the terms of the Term Loan B swap, we receive the greater of 3-month LIBOR or the 1% LIBOR Floor and pay a fixed rate over the hedged period. On March 27, 2012 we entered into an additional interest rate swap agreement with a notional amount of \$250 million, maturing in March 2018, under the terms of which we pay a fixed rate of 1.9275% over the hedged period. We also entered into a forward starting interest rate swap of \$200 million from November 2015 to March 2018, under the terms of which we pay a fixed rate of 2.810% over the hedged period. These swaps are designated as cash flow hedges against changes in LIBOR for a portion of our variable rate debt.

(dollar amounts in millions)

Financial Statement Impacts

The following tables detail amounts related to our derivatives as of June 30, 2012 and December 31, 2011. Our derivative assets and liabilities not designated as hedging instruments were not material as of June 30, 2012 and December 31, 2011.

	Asset Derivatives			Derivative Liabilities		
	Balance Sheet Location	Fair Value		Balance Sheet Location	Fair Value	
		June 30, 2012	December 31, 2011		June 30, 2012	December 31, 2011
Derivatives designated as hedging instruments						
Natural gas commodity contracts	Other current assets	—	—	Accounts payable and accrued expenses	\$ 7.1	\$ 7.2
Natural gas commodity contracts	Other non-current assets	—	—	Other long-term liabilities	—	2.1
Foreign exchange contracts	Other current assets	\$ 3.2	\$ 2.4	Accounts payable and accrued expenses	1.4	1.3
Interest rate swap contracts	Other current assets	—	—	Other long-term liabilities	24.2	14.0
Total derivatives designated as hedging instruments		<u>\$ 3.2</u>	<u>\$ 2.4</u>		<u>\$ 32.7</u>	<u>\$ 24.6</u>

	Amount of Gain (Loss) Recognized in Accumulated Other Comprehensive Income ("AOCI") (Effective Portion)(a)		Location of (Loss) Reclassified from AOCI into Income (Effective Portion)	(Loss) Reclassified from AOCI into Income (Effective Portion)			
	Six Months Ended June 30,			Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011		2012	2011	2012	2011
Derivatives in Cash Flow Hedging Relationships							
Natural gas commodity contracts	(\$ 7.0)	(\$ 2.9)	Cost of goods sold	(\$ 2.4)	(\$ 1.3)	(\$ 5.1)	(\$ 3.8)
Foreign exchange contracts – purchases and sales	1.8	(1.9)	Cost of goods sold	(0.3)	(1.3)	(0.8)	(2.1)
Interest rate swap contracts	(24.2)	(6.7)	Interest Expense	—	—	—	—
Total	<u>(\$ 29.4)</u>	<u>(\$ 11.5)</u>		<u>(\$ 2.7)</u>	<u>(\$ 2.6)</u>	<u>(\$ 5.9)</u>	<u>(\$ 5.9)</u>

(a) As of June 30, 2012 the amount of existing (loss) in Accumulated OCI expected to be recognized in earnings over the next twelve months is \$(5.3) million.

Table of Contents

Armstrong World Industries, Inc., and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Unaudited)
(dollar amounts in millions)

<u>Derivatives in Cash Flow Hedging Relationships</u>	<u>Location of Gain (Loss) Recognized in Income on Derivative (Ineffective Portion) (a)</u>
Natural gas commodity contracts	Cost of goods sold
Foreign exchange contracts – purchases and sales	SG&A expense
Interest rate swap contracts	Interest expense

- (a) The amount of gain (loss) recognized in income related to the ineffective portion of the hedging relationships was immaterial for the three months and six months ended June 30, 2012 and June 30, 2011. No gains or losses are excluded from the assessment of the hedge effectiveness.

The gain (loss) recognized in income for derivative instruments not designated as hedging instruments was \$0.6 million for the second quarter and zero for the first six months of 2012 and \$(0.2) million and \$4.3 million for the second quarter and first six months of 2011, respectively.

NOTE 15. PRODUCT WARRANTIES

We provide direct customer and end-user warranties for our products. These warranties cover manufacturing defects that would prevent the product from performing in line with its intended and marketed use. The terms of these warranties vary by product and generally provide for the repair or replacement of the defective product. We collect and analyze warranty claims data with a focus on the historic amount of claims, the products involved, the amount of time between the warranty claims and their respective sales and the amount of current sales. The following table summarizes the activity for the accrual of product warranties for the first six months of 2012 and 2011:

	<u>2012</u>	<u>2011</u>
Balance at January 1,	\$12.1	\$11.9
Reductions for payments	(9.4)	(7.4)
Current year warranty accruals	10.1	8.1
Preexisting warranty accrual changes	(0.3)	(0.1)
Effects of foreign exchange translation	(0.2)	0.3
Balance at June 30,	<u>\$12.3</u>	<u>\$12.8</u>

The warranty provision and related reserve are recorded as a reduction of sales and accounts receivable.

NOTE 16. LITIGATION AND RELATED MATTERS

ENVIRONMENTAL MATTERS

Environmental Expenditures

Our manufacturing and research facilities are affected by various federal, state and local requirements relating to the discharge of materials and the protection of the environment. We make expenditures necessary for compliance with applicable environmental requirements at each of our operating facilities. These regulatory requirements continually change, therefore we cannot predict with certainty future expenditures associated with compliance with environmental requirements.

Environmental Remediation

Summary

We are actively involved in the investigation and/or remediation of environmental contamination under the Comprehensive Environmental Response, Compensation and Liability Act (“CERCLA”), and state or international Superfund and similar type laws at several domestically- and internationally-owned, formerly owned and non-owned locations allegedly resulting from past industrial activity. In a few cases, we are one of

Table of Contents

Armstrong World Industries, Inc., and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Unaudited)
(dollar amounts in millions)

several potentially responsible parties (“PRPs”) and have agreed to jointly fund the required investigation and remediation, while preserving our defenses to the liability. We may also have rights of contribution or reimbursement from other parties or coverage under applicable insurance policies.

Estimates of our future liability at the environmental sites are based on evaluations of currently available facts regarding each individual site. We consider factors such as our activities associated with the site, existing technology, presently enacted laws and regulations and prior company experience in remediating contaminated sites. Although current law imposes joint and several liability on all parties at Superfund sites, our contribution to the remediation of these sites is expected to be limited by the number of other companies potentially liable for site remediation. As a result, our estimated liability reflects only our expected share. In determining the probability of contribution, we consider the solvency of other parties, whether liability is being disputed, the terms of any existing agreements and experience with similar matters, and the effect of our Chapter 11 reorganization upon the validity of the claim.

Specific Material Events

In August 2010, we entered into a Consent Order with the Oregon Department of Environmental Quality (“ODEQ”), along with Kaiser Gypsum Company, Inc. (“Kaiser”), and Owens Corning Sales LLC (“OC”), with respect to our St. Helens, OR Building Products facility, which was previously owned by Kaiser and then OC. The Consent Order, which replaces a previous order of the ODEQ requiring us to investigate and remediate hazardous substances present at the facility, requires that we and Kaiser complete a remedial investigation and feasibility study (“RI/FS”) on the portion of the site owned by us. The Consent Order further requires us, Kaiser and OC to conduct an RI/FS in the adjacent Scappoose Bay. Our current estimate of our future liability at the site relates to the investigation work required by the Consent Order and to the currently projected cost of possible remedies for certain portions of the site. However, neither the RI/FS for the portion of the property owned by us nor the Scappoose Bay is complete. At this time, we have determined that it is probable that additional corrective action for the portion of the property owned by us will be required. Such corrective action could result in additional costs greater than currently estimated and, consequently, those costs may be material. At this time, it is not possible to reasonably estimate the total costs that we may ultimately incur with respect to the Scappoose Bay, although such amounts may be material.

Costs and responsibilities for the RI/FS for certain portions of the St. Helens property owned by us continue to be shared with Kaiser pursuant to an agreement with Kaiser. Limited contributions are also being made by ODEQ pursuant to its settlement with OC for OC’s liabilities for the property, although we anticipate that the settlement funds will likely be depleted this year. Contemporaneously with the execution of the Consent Order, we, Kaiser and OC also entered into a cost allocation agreement for the investigation and possible remediation of the Scappoose Bay.

The U.S. Environmental Protection Agency (“EPA”) has listed two landfills located on a portion of our Building Products facility in Macon, GA, along with the former Macon Naval Ordnance Plant landfill adjacent to our property, and portions of Rocky Creek (collectively, the “Macon Site”) as a Superfund site on the National Priorities List due to the presence of contaminants, most notably PCBs. In September 2010, we entered into an Administrative Order on Consent for a Removal Action with the EPA to investigate PCB contamination in one of the landfills on our property that is a portion of the Superfund Site. Our current estimate of future liability includes costs for investigative work that we agreed to perform under the EPA order as well as remedial work associated with this landfill which became probable and estimable in the second quarter of 2012. Additionally, it is probable that we will incur field investigation, engineering and oversight costs associated with an RI/FS with respect to the remainder of the Superfund site, including Rocky Creek. We, along with other parties, may also ultimately incur costs in remediating contamination discovered during the RI/FS. At this time, we are able to estimate only a portion of the amounts probable to occur with respect to these activities. It is anticipated that significant investigative work may be required that is not currently possible to reasonably estimate, although such amounts may be material.

In the second quarter of 2012, we recorded a liability for probable and estimable costs associated with the clean closure of a non-hazardous containment pond located on the property of our previously idled Mobile, AL Building Products plant. We anticipate that this work could start in the fourth quarter of 2012. At that time,

Table of Contents

Armstrong World Industries, Inc., and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Unaudited)
(dollar amounts in millions)

additional closure actions may become known and reasonably estimable. We are unable to anticipate all of the closure actions that will be required by the Alabama Department of Environmental Management, although amounts associated with such actions may be material.

Summary of Financial Position

Liabilities of \$11.1 million at June 30, 2012 and \$7.3 million at December 31, 2011 were recorded for potential environmental liabilities, on a global basis, that we consider probable and for which a reasonable estimate of the probable liability could be made. Where existing data is sufficient to estimate the liability, that estimate has been used; where only a range of probable liabilities is available and no amount within that range is more likely than any other, the lower end of the range has been used. As assessments and remediation activities progress at each site, these liabilities are reviewed to reflect new information as it becomes available. These liabilities are undiscounted.

The estimated liabilities above do not take into account any claims for recoveries from insurance or third parties. It is our policy to record probable recoveries that are either available through settlement or anticipated to be recovered through negotiation or litigation as assets in the Condensed Consolidated Balance Sheets. No amounts were recorded for probable recoveries at June 30, 2012 or December 31, 2011.

Actual costs to be incurred at identified sites may vary from our estimates. Based on our current knowledge of the identified sites, it is not possible to reasonably estimate future costs which may exceed amounts already recognized.

OTHER CLAIMS

We are involved in various lawsuits, claims, investigations and other legal matters from time to time that arise in the ordinary course of conducting business, including matters involving our products, intellectual property, relationships with suppliers, distributors, relationships with competitors, employees and other matters. While complete assurance cannot be given to the outcome of these proceedings, we do not currently believe that any of these matters, individually or in the aggregate, will have a material adverse effect on our financial condition, liquidity or results of operations.

NOTE 17. SPECIAL CASH DIVIDEND AND STOCK OPTION ADJUSTMENTS

On March 23, 2012, our Board of Directors declared a special cash dividend in the amount of \$8.55 per share, or \$508.2 million in the aggregate, of which \$502.9 million was paid on April 10, 2012 to the shareholders of record as of April 3, 2012. The unpaid portion of the dividend relates to unvested employee shares and is reflected in current liabilities (\$1.8 million) and other long term liabilities (\$3.5 million) and will be paid when the underlying employee shares vest. The dividend was funded in part by existing cash and in part by the proceeds of additional debt issued under our Term Loan B. The dividend was recorded as a reduction of retained earnings to the extent that retained earnings were available at the dividend declaration date. Dividends in excess of retained earnings were recorded as a reduction of capital in excess of par value.

Under the terms of the 2011 Long Term Incentive Plan (the "Plan"), the Management Development and Compensation Committee of our Board of Directors is required to make equitable adjustments to stock option grants if there is a change in our capital structure. The special cash dividend qualified as a change to our capital structure under the terms of the Plan. We used the Black-Scholes option pricing model to determine the fair value of the awards before and after the special cash dividend, using consistent assumptions for the risk free rate of return, expected term, expected volatility and expected dividend yield. The stock prices used in the before and after calculations were \$57.38 (the New York Stock Exchange Volume Weighted Average Price ("NYSE VWAP") on March 29, 2012, the day before the ex-dividend date) and \$49.21 (NYSE VWAP on March 30, 2012, the ex-dividend date), respectively. For all option grants, the fair value of the award before and after the dividend remained the same. Therefore there was no incremental cost recognized in our financial statements due to the resulting award adjustments described in the table below.

Notes to Condensed Consolidated Financial Statements (Unaudited)
(dollar amounts in millions)

The following adjustments were made to the options outstanding as a result of this analysis:

Year Granted	Pre-Dividend Grant Terms		Post-Dividend Grant Terms	
	Number of Shares	Exercise Price	Number of Shares	Exercise Price
2006	262,418	\$ 22.55	305,992	\$ 19.34
2007	83,452	30.62	97,306	26.26
2008	171,792	21.85	200,318	18.74
2009	100,209	10.34	116,851	8.87
2010	608,278	26.21 – 29.23	709,309	22.48 – 25.07
2011	434,674	38.65 – 47.47	506,873	33.15 – 40.71
2012	403,750	50.38	470,805	43.21

NOTE 18. EARNINGS PER SHARE

Earnings per share (“EPS”) components may not add due to rounding.

The following table is a reconciliation of earnings to earnings attributable to common shares used in our basic and diluted EPS calculations for the three month and six month periods ended June 30, 2012 and 2011:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Earnings	\$ 41.8	\$ 37.9	\$ 60.0	\$ 51.4
Earnings allocated to participating non-vested share awards	(0.3)	(0.3)	(0.4)	(0.4)
Earnings attributable to common shares	<u>\$ 41.5</u>	<u>\$ 37.6</u>	<u>\$ 59.6</u>	<u>\$ 51.0</u>

The following table is a reconciliation of basic shares outstanding to diluted shares outstanding for the three month and six month periods ended June 30, 2012 and 2011 (shares in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Basic shares outstanding	58.8	58.3	58.7	58.2
Dilutive effect of stock option awards	0.6	0.6	0.6	0.6
Diluted shares outstanding	<u>59.4</u>	<u>58.9</u>	<u>59.3</u>	<u>58.8</u>

At June 30, 2012 and 2011, there were no anti-dilutive options excluded from the computation of diluted EPS.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders
Armstrong World Industries, Inc.:

We have reviewed the accompanying condensed consolidated balance sheet of Armstrong World Industries, Inc. and subsidiaries (the “Company”) as of June 30, 2012, the related condensed consolidated statements of earnings and comprehensive income for the three-month and six-month periods ended June 30, 2012 and 2011, and the related condensed consolidated statements of cash flows and shareholders’ equity for the six-month periods ended June 30, 2012 and 2011. These condensed consolidated financial statements are the responsibility of the Company’s management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Armstrong World Industries, Inc. and subsidiaries as of December 31, 2011, and the related consolidated statements of earnings, cash flows, and equity for the year then ended (not presented herein); and in our report dated February 27, 2012, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2011, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This discussion should be read in conjunction with the financial statements, the accompanying notes, the cautionary note regarding forward-looking statements and risk factors included in this report and our annual report on Form 10-K for the year ended December 31, 2011.

OVERVIEW

We are a leading global producer of flooring products and ceiling systems for use primarily in the construction and renovation of residential, commercial and institutional buildings. Through our United States ("U.S.") operations and U.S. and international subsidiaries, we design, manufacture and sell flooring products (primarily resilient and wood) and ceiling systems (primarily mineral fiber, fiberglass and metal) around the world. We also design, manufacture and sell kitchen and bathroom cabinets in the U.S. As of June 30, 2012 we operated 33 manufacturing plants in eight countries, including 21 plants located throughout the U.S.

Reportable Segments

Building Products — produces suspended mineral fiber, soft fiber and metal ceiling systems for use in commercial, institutional and residential settings. In addition, our Building Products segment sources complementary ceiling products. Our products, which are sold worldwide, are available in numerous colors, performance characteristics and designs, and offer attributes such as acoustical control, rated fire protection and aesthetic appeal. Commercial ceiling materials and accessories are sold to ceiling systems contractors and to resale distributors. Residential ceiling products are sold in North America primarily to wholesalers and retailers (including large home centers). Suspension system (grid) products manufactured by Worthington Armstrong Venture ("WAVE") are sold by both us and WAVE.

Resilient Flooring — produces and sources a broad range of floor coverings primarily for homes and commercial and institutional buildings. Manufactured products in this segment include vinyl sheet, vinyl tile and linoleum flooring. In addition, our Resilient Flooring segment sources and sells laminate flooring products, vinyl tile products, vinyl sheet products, adhesives, and installation and maintenance materials and accessories. Resilient Flooring products are offered in a wide variety of types, designs, and colors. We sell these products worldwide to wholesalers, large home centers, retailers, contractors and to the manufactured homes industry.

Wood Flooring — produces and sources wood flooring products for use in new residential construction and renovation, with some commercial applications in stores, restaurants and high-end offices. The product offering includes pre-finished solid and engineered wood floors in various wood species, and related accessories. Virtually all of our Wood Flooring sales are in North America. Our Wood Flooring products are generally sold to independent wholesale flooring distributors and large home centers.

Cabinets — produces kitchen and bathroom cabinetry and related products, which are used primarily in the U.S. residential new construction and renovation markets. Through our system of company-owned and independent distribution centers and through direct sales to builders, our Cabinets segment provides design, fabrication and installation services to single and multi-family homebuilders, remodelers and consumers. All of Cabinets' sales are in the U.S.

Unallocated Corporate — includes assets, liabilities, income and expenses that have not been allocated to the business units. Balance sheet items classified as Unallocated Corporate are primarily income tax related accounts, cash and cash equivalents, the Armstrong brand name, the U.S. prepaid pension cost and long-term debt. Expenses for our corporate departments and certain benefit plans are allocated to the reportable segments based on known metrics, such as specific activity, headcount, or net sales. The remaining items, which cannot be attributed to the reportable segments without a high degree of generalization, are reported in Unallocated Corporate.

See Note 2 to the Condensed Consolidated Financial Statements for additional financial information on our consolidated company and our reportable segments.

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations

Factors Affecting Revenues

Markets. We compete in building material markets around the world. The majority of our sales are in North America and Europe. We closely monitor macroeconomic trends which affect our business, including Gross Domestic Product, the Architecture Billings Index and the Consumer Confidence Index. During the second quarter these macroeconomic benchmarks declined. In addition, we noted several factors and trends within our markets which directly affected our business performance during the second quarter of 2012, including:

North America

We continued to see softness in commercial markets, particularly education and healthcare as public spending remains constrained. In addition, we continued to see some regional weakness in the office market. These trends impacted both Building Products and Resilient Flooring, but the impact was greater on Resilient Flooring as the majority of its commercial sales originate from the education and healthcare markets.

We experienced mixed results in our residential markets as we saw improvements in builder activity while renovation activity declined. These trends impact our Resilient and Wood Flooring businesses.

Europe

The overwhelming majority of our sales in Europe are to commercial markets. Lower than expected demand and weak currency contributed significantly to sharp declines in Central and Western Europe, while Eastern European markets grew.

Pacific Rim

Our markets in China experienced mixed results. The office sector slowed while the education and healthcare markets grew. Australia continued to experience a soft commercial construction market, which impacted both businesses.

Pricing Initiatives. We periodically modify prices in response to changes in costs for raw materials and energy, and to market conditions and the competitive environment. In certain cases, realized price increases are less than the announced price increases because of competitive reactions and changing market conditions. We estimate that prior pricing actions increased our second quarter total consolidated net sales by approximately \$9 million and in the first six months of 2012 by approximately \$17 million, when compared to the same periods of 2011.

There were no significant pricing actions taken in the second quarter of 2012.

Mix. Each of our businesses offers a wide assortment of products that are differentiated by style, design and performance attributes. Pricing and margins for products within the assortment vary. Changes in the relative quantity of products purchased at the different price points can impact year-to-year comparisons of net sales and operating income. We estimate mix changes increased our total consolidated net sales in the second quarter by approximately \$7 million and in the first six months of 2012 by \$12 million when compared to the same periods of 2011.

Factors Affecting Operating Costs

Operating Expenses. Our operating expenses are comprised of direct production costs (principally raw materials, labor and energy), manufacturing overhead costs, freight, costs to purchase sourced products and selling, general, and administrative ("SG&A") expenses.

Our largest individual raw material expenditures are for lumber and veneers, PVC resins and plasticizers. Natural gas is also a significant input cost. Fluctuations in the prices of these inputs are generally beyond our control and have a direct impact on our financial results. In the second quarter and first six months of 2012, these input costs decreased operating income by approximately \$2 million and \$6 million, respectively, when compared to the same periods of 2011.

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations

We are committed to augmenting margin expansion through further cost elimination. Through manufacturing footprint reductions and aggressive application of projects designed to standardize, simplify and eliminate SG&A programs and policies, we are seeking to remove at least \$200 million of manufacturing and SG&A costs by the end of 2012. Toward this end, we achieved \$35 million of cost savings in 2010, another \$115 million in savings in 2011, and expect to deliver another \$50 million during 2012. We recorded expenses of approximately \$8 million for these initiatives in the second quarter and approximately \$24 million during the first six months of 2012. During March of 2012, we decided to close our previously idled Building Products plant in Mobile, AL. We will continue to evaluate the efficiency of our manufacturing footprint and may take additional actions in support of our cost and standardization initiatives. The charges associated with our cost reduction initiatives may include severance and related termination benefits, fixed asset write-downs, asset impairments and accelerated depreciation and could be material to our financial statements. Even if we achieve these targeted savings, there is no assurance that our net operating results in the future will improve by this amount.

Employees

As of June 30, 2012, we had approximately 9,300 full-time and part-time employees worldwide, compared to 9,100 as of December 31, 2011. Most of the increase relates to crews added in our wood flooring plants.

RESULTS OF OPERATIONS

Unless otherwise indicated, net sales in these results of operations are reported based upon the location where the sale was made. Please refer to Note 2 to the Condensed Consolidated Financial Statements for a reconciliation of operating income to consolidated earnings before income taxes.

2012 COMPARED TO 2011

CONSOLIDATED RESULTS

(dollar amounts in millions)

	2012	2011	Change is Favorable/ (Unfavorable)
Three Months Ended June 30,			
Net sales:			
Americas	\$ 523.6	\$ 533.4	(1.8)%
Europe	130.4	155.6	(16.2)%
Pacific Rim	55.9	59.6	(6.2)%
Total consolidated net sales	\$ 709.9	\$ 748.6	(5.2)%
Operating income	\$ 76.9	\$ 72.7	5.8%
Six Months Ended June 30,			
Net sales:			
Americas	\$1,009.2	\$1,023.6	(1.4)%
Europe	263.1	301.9	(12.9)%
Pacific Rim	105.6	108.3	(2.5)%
Total consolidated net sales	\$1,377.9	\$1,433.8	(3.9)%
Operating income	\$ 118.5	\$ 124.8	(5.0)%

Consolidated net sales declined in the second quarter and first six months of 2012 as favorable price and mix only partially offset volume declines across all businesses. Results were also affected by unfavorable foreign exchange impact of approximately \$17 million for the quarter and approximately \$20 million for the first half of 2012.

Net sales in the Americas declined in the second quarter and first six months of 2012 as volume declines were only partially offset by improved price and mix.

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations

Net sales in the European markets declined significantly in the second quarter and first half of 2012 as modest price improvements were unable to offset sharp volume declines, particularly in our European flooring business. Unfavorable foreign exchange of approximately \$13 million for the quarter and approximately \$16 million for the first half of 2012 also negatively impacted results.

Net sales in the Pacific Rim decreased in the second quarter of 2012 due to declining volumes and unfavorable foreign exchange impact of approximately \$2 million. Net sales declines in the first half of 2012 were primarily driven by lower volumes and unfavorable foreign exchange impact of approximately \$2 million, which were only partially offset by favorable mix.

Cost of goods sold in the second quarter of 2012 was 75.2% of net sales, compared to 75.3% for the same period in 2011. Cost of goods sold in the first six months of 2012 was 76.7% of net sales, compared to 75.9% for the same period in 2011. The comparison for both periods was impacted by approximately \$19 million of costs associated with the closure of our Mobile, AL Building Products facility, \$15 million of which was recorded in the first quarter of 2012.

SG&A expenses in the second quarter of 2012 were \$114.2 million, or 16.1% of net sales, and in the first six months of 2012 were \$230.8 million, or 16.8% of net sales, compared to \$122.2 million, or 16.3% of net sales, and \$242.3 million, or 16.9% of net sales, for the corresponding periods in 2011. The decreases were due to reductions in core SG&A expenses.

Equity earnings from our WAVE joint venture were \$14.9 million for the second quarter of 2012 compared to \$12.6 million in the second quarter of 2011, and \$28.5 million for the first six months of 2012 compared to \$29.0 million in first six months of 2011. See Note 6 to the Condensed Consolidated Financial Statements for further information.

Interest expense was \$14.4 million for the second quarter of 2012 compared to \$11.5 million in the second quarter of 2011. Interest expense was \$25.6 million in the first six months of 2012 compared to \$26.3 million in first six months of 2011. The decrease in interest expense for the first six months of 2012 was the result of lower average outstanding debt balances for most of the first quarter of 2012 when compared to the prior period. Conversely, higher interest expense in the second quarter of 2012 was driven by additional borrowings of \$250 million under our senior credit facility in late March 2012 (see Liquidity section for further information).

Income tax expense was \$21.1 million and \$23.3 million for the second quarter of 2012 and 2011, respectively. The effective tax rate for the second quarter of 2012 was 33.5% as compared to a rate of 38.1% for the same period of 2011. The effective tax rate for 2012 was lower than 2011 due to the favorable tax impact from our mix of income from international operations. Income tax expense was \$34.1 million and \$47.4 million for the first six months of 2012 and 2011, respectively. The effective tax rate for the first six months of 2012 was 36.2% as compared to a rate of 48.0% for the same period of 2011. The effective tax rate for 2012 was lower than 2011 due to the favorable tax impact from our mix of income from international operations and a decrease in the valuation allowance for foreign tax credits.

Management's Discussion and Analysis of Financial Condition and Results of Operations

REPORTABLE SEGMENT RESULTS

Building Products

(dollar amounts in millions)

	<u>2012</u>	<u>2011</u>	<u>Change is Favorable/ (Unfavorable)</u>
Three Months Ended June 30,			
Net sales:			
Americas	\$184.8	\$181.7	1.7%
Europe	80.3	88.6	(9.4)%
Pacific Rim	31.9	34.7	(8.1)%
Total segment net sales	\$297.0	\$305.0	(2.6)%
Operating income	\$ 53.5	\$ 57.1	(6.3)%
Six Months Ended June 30,			
Net sales:			
Americas	\$372.0	\$367.8	1.1%
Europe	167.4	179.3	(6.6)%
Pacific Rim	60.7	64.8	(6.3)%
Total segment net sales	\$600.1	\$611.9	(1.9)%
Operating income	\$ 96.8	\$118.6	(18.4)%

Net sales in the Americas increased in the second quarter and first six months of 2012 as lower volumes in both periods were more than offset by improved pricing and product mix.

Net sales in Europe decreased in the second quarter and first six months of 2012 driven by unfavorable foreign exchange impact of approximately \$6 million and \$8 million, respectively. Both periods were impacted by lower volumes and unfavorable mix which were only partially offset by improved pricing.

Net sales declined in the Pacific Rim in the second quarter and first six months of 2012 as both periods were impacted by unfavorable foreign exchange of approximately \$2 million and lower volumes which were only partially offset by improved mix.

Operating income decreased for the second quarter of 2012 as favorable pricing and higher earnings from WAVE were unable to offset volume declines, increased manufacturing costs associated with the commencement of operations at our Millwood, WV plant, severances associated with European SG&A headcount reductions, and environmental charges related to several U.S. plants. Operating income decreased in the first half of 2012 as improvements in price were unable to offset volume declines, higher manufacturing costs, increased SG&A expenses associated with investments in emerging markets, cost reduction actions and inflationary headwinds. Results for the first six months of 2012 were impacted by approximately \$19 million of accelerated depreciation, impairment and other charges associated with the closure of our previously idled Mobile, AL plant, approximately \$15 million of which were recorded in the first quarter. Results for the first six months of 2012 were also impacted by approximately \$4 million of costs recorded in the first quarter of 2012 associated with the resolution of a labor dispute at our Marietta, PA plant.

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations

Resilient Flooring

(dollar amounts in millions)

	2012	2011	Change is Favorable/ (Unfavorable)
Three Months Ended June 30,			
Net sales:			
Americas	\$179.4	\$182.8	(1.9)%
Europe	50.1	67.0	(25.2)%
Pacific Rim	24.0	24.9	(3.6)%
Total segment net sales	\$253.5	\$274.7	(7.7)%
Operating income	\$ 21.9	\$ 11.3	93.8%
Six Months Ended June 30,			
Net sales:			
Americas	340.2	343.3	(0.9)%
Europe	95.7	122.6	(21.9)%
Pacific Rim	44.9	43.5	3.2%
Total segment net sales	\$480.8	\$509.4	(5.6)%
Operating income	\$ 32.6	\$ 10.0	Favorable

Net sales in the Americas decreased in the second quarter and first six months of 2012 as improvements in mix and price were unable to offset volume declines. Net sales for the second quarter of 2012 were also negatively impacted by inventory reductions at one of our national home center customers.

Net sales declines in Europe in both periods were driven by significantly lower volumes and unfavorable foreign exchange impact of approximately \$7 million in the second quarter and approximately \$8 million in the first six months of 2012. Improvements in price and mix in both periods were unable to offset the sharp volume declines.

Net sales in the Pacific Rim in the second quarter of 2012 were negatively impacted by unfavorable foreign exchange of approximately \$1 million remaining essentially flat. Net sales in the Pacific Rim increased in the first half of the year on favorable mix.

Operating income improved for the second quarter and first six months of 2012 as volume declines and inflationary headwinds were more than offset by reductions in SG&A and manufacturing costs and favorable price and mix. Operating income in the second quarter and first half of 2011 included \$5.9 million and \$14.3 million, respectively, of severance and restructuring related costs in Europe.

Wood Flooring

(dollar amounts in millions)

	2012	2011	Change is Favorable/ (Unfavorable)
Three Months Ended June 30,			
Total segment net sales	\$124.8	\$133.6	(6.6)%

Six Months Ended June 30,			
Total segment net sales	\$230.4	\$244.6	(5.8)%
Operating income	\$ 16.3	\$ 16.9	(3.6)%

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations

Net sales decreased in the second quarter and first six months of 2012 as volume, price and mix were all unfavorable when compared to the prior year, driven primarily by inventory reductions at one of our national home center customers.

Operating income increased in the second quarter of 2012 as reduced manufacturing costs more than offset the impact of lower sales. Operating income decreased in the first six months of 2012 as reduced manufacturing and raw material costs only partially offset the impact of lower sales.

Cabinets

(dollar amounts in millions)

	2012	2011	Change is (Unfavorable)
Three Months Ended June 30,			
Total segment net sales	\$34.6	\$35.3	(2.0)%
Operating (loss) income	\$ (0.7)	\$ 0.8	Unfavorable
Six Months Ended June 30,			
Total segment net sales	\$66.6	\$67.9	(1.9)%
Operating (loss) income	\$ (1.8)	\$ —	Unfavorable

Net sales decreased for the second quarter and first six months of 2012 as improvements in mix were unable to offset volume declines.

Operating income decreased in the second quarter and first six months of 2012 as improvements in mix were unable to offset the margin impact of lower volumes and increases in raw material costs.

Unallocated Corporate

Unallocated corporate expense of \$11.6 million in the second quarter and \$25.4 million for the first six months of 2012 increased from \$9.9 million and \$20.7 million, respectively, in the prior year. The increase in both periods was primarily due to a \$3.5 million and \$7.0 million lower pension credit in the second quarter and first six months of 2012, respectively, when compared to the prior year.

FINANCIAL CONDITION AND LIQUIDITY

Cash Flow

Operating activities in the first six months of 2012 provided \$29.6 million of cash compared to \$32.1 million in the first six months of 2011.

Net cash used by investing activities was \$42.2 million for the first six months of 2012 compared to \$22.7 million for the first six months of 2011. The increase in cash used was primarily due to higher purchases of property, plant and equipment partially offset by increased returns of investment from WAVE.

Net cash used for financing activities was \$249.1 million for the first six months of 2012, compared to \$29.7 million for the first six months of 2011. Net cash used in 2012 was impacted by dividend payments of \$503.2 million partially offset by \$251.9 million of long-term debt issued (see Liquidity section for further information). Net cash used in 2011 was impacted by \$25.0 million of payments on our revolving credit facility.

Liquidity

Our liquidity needs for operations vary throughout the year. We retain lines of credit to facilitate our seasonal cash flow needs, since cash flow is generally lower during the first and fourth quarters of our fiscal year. On March 22, 2012, we amended our \$1.05 billion senior credit facility arranged by Merrill Lynch, Pierce, Fenner & Smith, Inc., J.P. Morgan Securities, Inc., and Barclays Capital. We added \$250 million to our existing Term Loan B facility. This amended facility is composed of a \$250 million revolving credit facility (with a \$150 million sublimit for letters of credit), a \$250 million Term Loan A and an \$800

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations

million Term Loan B. This \$1.3 billion senior credit facility is secured by U.S. personal property, the capital stock of material U.S. subsidiaries, and a pledge of 65% of the stock of our material first tier foreign subsidiaries. The only significant change to existing terms, conditions and covenants pertained to the consolidated leverage ratio covenant, which is described below.

In connection with the additional \$250 million Term Loan B borrowings, we paid \$8.1 million for bank, legal and other fees. This amount was capitalized and is being amortized into interest expense over the life of the loan.

The senior credit facility includes two financial covenants that require the ratio of consolidated earnings before interest, taxes, depreciation and amortization ("EBITDA") to consolidated cash interest expense minus cash consolidated interest income ("consolidated interest coverage ratio") to be greater than or equal to 3.0 to 1.0 and require the ratio of consolidated funded indebtedness minus AWI and domestic subsidiary unrestricted cash and cash equivalents up to \$100 million to consolidated EBITDA ("consolidated leverage ratio") to be less than or equal to 4.5 to 1.0 through December 31, 2013, 4.0 to 1.0 after December 31, 2013 through March 31, 2015 and 3.75 to 1.0 after March 31, 2015. We currently believe that default under these covenants is unlikely. Fully borrowing under our revolving credit facility would not violate these covenants. During the first six months of 2012 we were in compliance with all covenants of the credit agreement.

The Revolving Credit and Term Loan A portions are currently priced at a spread of 3.00% over LIBOR and the Term Loan B portion (as amended) is priced at 3.00% over LIBOR with a 1.00% LIBOR floor for its entire term. The Term Loan A and Term Loan B were both fully drawn and are currently priced on a variable interest rate basis. On March 31, 2011, we entered into two interest rate swaps, on our Term Loan A and Term Loan B, with notional amounts of \$100 million and \$200 million, respectively, which mature in November 2015. Under the terms of the Term Loan A swap, we receive 3-month LIBOR and pay a fixed rate over the hedged period. Under the terms of the Term Loan B swap, we receive the greater of 3-month LIBOR or the 1% LIBOR Floor and pay a fixed rate over the hedged period. On March 27, 2012 we entered into an additional interest rate swap agreement with a notional amount of \$250 million, maturing in March 2018, where we pay a fixed rate of 1.9275% over the hedged period. We also entered into a forward starting interest rate swap of \$200 million from November 2015 to March 2018, where we pay a fixed rate of 2.810% over the hedged period. These swaps are designated as cash flow hedges against changes in LIBOR for a portion of our variable rate debt. The unpaid balances of Term Loan A, the Revolving Credit and Term Loan B of the credit facility may be prepaid without penalty at the maturity of their respective interest reset periods. Any amounts prepaid on the Term Loan A or Term Loan B may not be re-borrowed.

Beginning December 31, 2013, mandatory prepayments are required under the senior credit facility pursuant to a year end annual leverage test, under which, if our consolidated leverage ratio is greater than 2.0 to 1.0, but less than 2.5 to 1.0, in 2014, we would be required to make a prepayment of 25% of Consolidated Excess Cash Flow, as defined by the credit agreement. If our consolidated leverage ratio is greater than 2.5 to 1.0, the prepayment amount would be 50% of Consolidated Excess Cash Flow.

As of June 30, 2012, we had \$217.3 million of cash and cash equivalents, \$122.3 million in the U.S. and \$95.0 million in various foreign jurisdictions.

Our July 16, 2012 debt rating from S&P was BB- (stable) and from Moody's was B1 (stable).

On March 23, 2012, our Board of Directors declared a special cash dividend in the amount of \$8.55 per share, or \$508.2 million in the aggregate, of which \$502.9 million was paid on April 10, 2012. Payment of an additional \$5.3 million of the dividend is expected to be made when the underlying employee shares vest. The dividend was funded in part by surplus cash on our balance sheet, and in part by the proceeds of additional debt issued under our Term Loan B.

On December 10, 2010, we established a \$100 million Receivables Securitization Program. AWI and its subsidiary, Armstrong Hardwood Flooring Company, sold their U.S. receivables to Armstrong

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations

Receivables Company LLC ("ARC"), a Delaware entity that is consolidated in these financial statements. ARC financed those receivables through Credit Agricole Corporate and Investment Bank, with a maximum commitment of \$100 million. In addition to the financing of receivables by Credit Agricole, under the terms of the program, Credit Agricole could issue letters of credit at the request of ARC. The purchase and letter of credit commitments under the program were originally set to expire in December 2013, subject to possible extensions thereafter. In December 2011, we assigned this facility to the Bank of Nova Scotia and extended to 2014.

On December 16, 2010, we issued \$35.0 million of Recovery Zone Facility bonds through Jackson County, WV, to finance the construction of our new mineral wool plant. These tax exempt bonds are seven day variable rate demand notes backed by a letter of credit. These bonds mature in 2041.

On June 30, 2012, we had outstanding letters of credit totaling \$72.1 million, of which \$15.9 million was issued under the revolving credit facility, \$55.9 million was issued under the securitization facility and \$0.3 million was issued by other banks of international subsidiaries. Letters of credit are issued to third party suppliers, insurance and financial institutions and typically can only be drawn upon in the event of AWI's failure to pay its obligations to the beneficiary.

Foreign Financing Arrangements	As of June 30, 2012		
	Limit	Used	Available
Lines of Credit Available for Borrowing	\$17.8	—	\$ 17.8
Lines of Credit Available for Letters of Credit	1.5	\$ 0.7	0.8
Total	<u>\$19.3</u>	<u>\$ 0.7</u>	<u>\$ 18.6</u>

These lines of credit are uncommitted, and poor operating results or credit concerns at the related foreign subsidiaries could result in the lines being withdrawn by the lenders. We have historically been able to maintain and, as needed, replace credit facilities to support our foreign operations.

Our Board of Directors previously approved the construction of a U.S. mineral wool plant to supply our Building Products plants, the construction of mineral fiber ceiling plants in Russia and China, and the construction of two flooring plants in China. Total capital spending for these projects is currently projected to be approximately \$310 million. Through June 30, 2012, we have incurred approximately \$116 million related to these projects. The spending will be incurred through 2015 with the majority of the remaining spending expected to occur in 2012 and 2013.

We believe that cash on hand and cash generated from operations, together with lines of credit, availability under our securitization program, and the availability under the \$250 million revolving credit facility, will be adequate to address our foreseeable liquidity needs based on current expectations of our business operations, capital expenditures and scheduled payments of debt obligations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For information regarding our exposure to certain market risks, see Item 7A, “Quantitative and Qualitative Disclosures About Market Risk,” in our 2011 annual report on Form 10-K. There have been no material changes in our use of financial instruments to hedge against market risks or market risk exposures since December 31, 2011.

ITEM 4. CONTROLS AND PROCEDURES

- (a) Evaluation of Disclosure Controls and Procedures. The Securities and Exchange Commission defines the term “disclosure controls and procedures” to mean a company’s controls and other procedures that are designed to ensure that information required to be disclosed in the reports that it files or submits under the Securities Exchange Act of 1934, as amended (the “Act”), is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission’s rules and forms. Based on the evaluation of the effectiveness of our disclosure controls and procedures by our management, with the participation of our principal executive officer and our chief financial officer, as of June 30, 2012, our principal executive officer and our chief financial officer have concluded that our disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports that we file or submit under the Act is recorded, processed, summarized and reported within the time periods specified in the Commission’s rules and forms.
- (b) Changes in Internal Control Over Financial Reporting. There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Act) that occurred during the fiscal quarter ended June 30, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

In an effort to make our IT, finance and accounting functions more efficient, increase related capabilities and generate cost savings, we continued to outsource a significant portion of our IT infrastructure and certain finance and accounting functions to separate third party service providers during 2012. In connection with the outsourcing of these functions, we performed significant pre-implementation planning, design and testing. We continued our oversight and testing during the implementation to ensure the effectiveness of internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

See the “Specific Material Events” section of the “Environmental Matters” section of Note 16 to the Condensed Consolidated Financial Statements, which is incorporated herein by reference, for a description of our significant legal proceedings.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors disclosed in our 2011 annual report on Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(c) Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased ¹	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ²	Maximum Number of Shares that may yet be Purchased under the Plans or Programs
April 1 – 30, 2012	1,251	\$ 50.17	—	—
May 1 – 31, 2012	416	\$ 48.40	—	—
June 1 – 30, 2012	237	\$ 47.71	—	—
Total	<u>1,904</u>		N/A	N/A

¹ Shares reacquired through the withholding of shares to pay employee tax obligations upon the exercise of options or vesting of restricted shares previously granted under the 2006 Long Term Incentive Plan.

² The Company does not have a share buy-back program.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not Applicable

ITEM 5. OTHER INFORMATION

None.

Philadelphia, Pennsylvania

I, Matthew J. Espe, certify that:

- 1) I have reviewed this quarterly report on Form 10-Q of Armstrong World Industries, Inc.;
- 2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4) The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5) The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.
