Notes to Financial Statement

1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of National Mortgage Reinsurance Inc One (“Re One” or the “Company”), are presented on the basis of accounting practices prescribed or permitted by the Wisconsin Office of the Commissioner of Insurance (“Wisconsin OCI”).

The Wisconsin OCI recognizes only statutory accounting practices prescribed or permitted by the State of Wisconsin for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Wisconsin Insurance Statutes. The National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures* manual, version effective January 1, 2001, (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State of Wisconsin. The state of Wisconsin has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. Specifically, Wisconsin domiciled companies record changes in the contingency reserve through the income statement as an underwriting deduction. In NAIC SAP, changes in the contingency reserve are recorded directly to unassigned surplus.

The Wisconsin Commissioner of Insurance (the “Commissioner”) has the right to permit other specific practices that deviate from prescribed practices.

A reconciliation of net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Wisconsin is shown below:

(1) - (5) No significant change from year end 2016.

(6) Loan-backed securities are valued using the retrospective method and are stated at amortized cost or fair value in accordance with their NAIC designation.

(7) - (13) No significant change from year end 2016.

D. Going Concern

No significant change from year end 2016.

2. Accounting Changes and Corrections of Errors

D. Loan-Backed Securities

(1) The Company uses widely accepted models for prepayment assumptions in valuing loan-backed securities with inputs from major third party data providers. The Company's investment policy expressly prohibits investments in mortgage-backed securities not backed by the full faith and credit of the U.S. Government, however it permits investment in other loan-backed securities including: auto loan, credit card, student loan and other highly rated loan-backed securities.

(2) The Company has not recognized any other-than-temporary impairments.

(3) The Company has not recognized any other-than-temporary impairments.

(4) All impaired loan-backed securities (fair value is less than cost or amortized cost) for which an other than temporary impairment has not been recognized in earnings as a realized loss:

(a) The aggregate amount of unrealized losses:

1. Less than 12 Months	\$	(184,537)
2. 12 Months or Longer		(8,959)

(b) The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	\$	13,952,917
2. 12 Months or Longer		381,484

(5) Management regularly reviews the value of the Company's investments. If the value of any investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in value. To make this determination for each security, the Company considers its intent to sell the security and whether it is more likely than not that the Company would be required to sell the security before recovery, extent and duration of the decline, failure of the issuer to make scheduled interest or principal payments, change in rating below investment grade and adverse conditions specifically related to the security, an industry, or a geographic area.

Based on that analysis, management makes a judgment as to whether the loss is other-than-temporary. If the loss is other-than-temporary, an impairment charge is recorded within net realized capital gains (losses) in the statement of income in the period the determination is made. No other-than-temporary impairments were recognized for the quarter ended March 31, 2017.

The Company's ability to pay dividends to its parent is limited by state insurance laws of the State of Wisconsin. Wisconsin law provides that the Company may pay out dividends without the prior approval of the Commissioner (“ordinary dividends”) in an amount, when added to other shareholder distributions made in the prior 12 months, not to exceed the lesser of (a) 10% of the insurer's surplus as regards to policyholders as of the prior December 31, or (b) its net income (excluding realized capital gains) for the twelve month period ending December 31 of the immediately preceding calendar year. In determining net income, an insurer may carry forward net income from the previous two calendar years that has not already been paid out as a dividend. Dividends that exceed this amount are “extraordinary dividends”, which require prior approval of the Commissioner. California prohibits dividends except from undivided profits remaining on hand over and above its paid-in capital, paid-in surplus and contingency reserves. Additionally, statutory minimum capital requirements may limit the amount of dividend that the Company may pay.

The following describes the valuation techniques used by the Company to determine the fair value of financial instruments held as of March 31, 2017:

The Company established a fair value hierarchy by prioritizing the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

- Level 1 - Quoted prices in Active Markets for Identical Assets and Liabilities. This category includes cash and US Treasury Securities. Unadjusted quoted prices for identical assets or liabilities in active markets that are accessible at the measurement date for identical assets or liabilities;
- Level 2 - Significant Other Observable Inputs. This category is for items measured at fair value on a recurring basis, including common stock, which are not exchange-traded. Prices or valuations based on observable inputs other than quoted prices in active markets for identical assets and liabilities; and
- Level 3 - Significant Unobservable Inputs. Unobservable inputs that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. The Company has no assets or liabilities in this category.

The level of market activity used to determine the fair value hierarchy is based on the availability of observable inputs market participants would use to price an asset or a liability, including market value price observations.

25. Changes in Incurred Losses and Loss Adjustment Expenses

The Company solely acts in the capacity of a mortgage guaranty reinsurer to NMIC. The Company incurred claims and claim adjustment expenses of \$(7,109) and \$55,647 for the three months ended March 31, 2017 and 2016, respectively. There was a \$27,794 favorable prior year development during the three months ended March 31, 2017. Reserves remaining as of March 31, 2017 for prior years are \$192,390 following re-estimation of unpaid claims and claim adjustment expenses. The increase in loss reserves at the end of the period is generally the result of loan defaults in the current year. Original loss reserve estimates are increased or decreased as additional information becomes known regarding individual claims.

Consistent with NMIC, the Company’s practice is to establish claim reserves only for loans in default. A loan is not considered to be in default for claim reserve purposes until NMIC receives notice from the servicer that a borrower has failed to make two consecutive regularly scheduled payments and is at least sixty days in default. The Company also reserves for claims incurred but not yet reported. However, and consistent with the industry, the Company does not establish claim reserves for anticipated future claims on insured loans that are not currently in default. The Company does not adjust premiums on policies currently in-force based on past claim activity.
