ADP GlobalView HCM Makes the Constellation ShortList of Top Global HCM Solutions for Second Consecutive Quarter

ROSELAND, NJ -- (Marketwired) -- 04/20/17 -- Constellation Research, a strategic advisory and futurist research firm, has named [ADP® GlobalView® HCM](#) to the Constellation ShortList™ for Global Human Capital Management (HCM) Suites for the second consecutive quarter. Constellation evaluated more than 25 Global HCM solutions to determine the top five best-of-breed vendors that provide applications and services without the need to bundle them into another platform.

According to Constellation Research, ADP GlobalView HCM was recognized for its ability to help large, global enterprises better manage HR and payroll systems supporting employees around the world, as well as its ability to provide talent management, time and labor, and benefits capabilities.

To make Constellation's list, companies had to operate in at least three continents and cover two-thirds of the world's gross domestic product (GDP). Further, they needed to have employees located in countries in which they operate with the dedicated purpose of monitoring legislation and best practices to help companies ensure compliance with legal and statutory requirements in those countries.

"ADP GlobalView HCM is backed by thousands of local compliance experts who monitor and interpret legislative changes in more than 100 countries," said Holger Mueller, vice president and principal analyst for Constellation Research. "We're honored to recognize the offering as one of the leading solutions for technology buyers who are truly pursuing digital transformation at global scale, by confirming ADP as a member of the Constellation Research Shortlist Global HCM Suites."

Ed Flynn, president of ADP's Global Enterprise Solutions business, spoke on behalf of ADP associates around the world who are focused on helping client companies succeed.

"We're delighted that ADP GlobalView HCM has been recognized by Constellation Research as a comprehensive solution that covers everything from recruitment to retirement," said Flynn. "Our goal is to provide global enterprises with integrated and flexible HCM technology as well as unmatched local expertise to help them develop, support and measure their HCM strategies so they can quickly respond to changing workforce dynamics."

ADP was also recognized as the global payroll partner for Workday® who also made the ShortList for Global HCM.

The Constellation ShortList was determined by client inquiries, partner conversations, customer references, vendor selection projects, market share, and internal research. The companies included on the Constellation ShortList provide the key functionality and requirements for early adopters pursuing digital transformation initiatives.
