Third Quarter Fiscal 2017 Results

February 9, 2017

Forward Looking Statements

This presentation contains “forward-looking” statements that involve risks, uncertainties and assumptions. If the risks or uncertainties ever materialize or the assumptions prove incorrect, our results may differ materially from those expressed or implied by such forward-looking statements. All statements other than statements of historical fact could be deemed forward-looking, including, but not limited to, any projections of financial information; any statements about historical results that may suggest trends for our business and results of operations; any statements of the plans, strategies and objectives of management for future operations; any statements of expectation or belief regarding future events, potential markets or market size, technology developments, or enforceability of our intellectual property rights; and any statements of assumptions underlying any of the foregoing.

These statements are based on estimates and information available to us at the time of this presentation and are not guarantees of future performance. Actual results could differ materially from our current expectations as a result of many factors, including but not limited to: our ability to attract new customers; the extent to which customers renew their contracts for our solutions; the extent we are able to maintain pricing with our customers at renewal; the seasonality of our business; our ability to manage our growth; the continued growth of the market for our solutions; the success of our channel partner and certified partner strategies; competition from current competitors and new market entrants; our ability to penetrate new vertical markets; unpredictable macro-economic conditions; the loss of any of our key employees; the length of the sales and implementation cycles for our solutions; increased demands on our infrastructure and costs associated with operating as a public company; and failure to protect our intellectual property. These and other risks and uncertainties associated with our business are described in Item 1A “Risk Factors” in our Quarterly Report on Form 10-Q for the period ended December 31, 2016. We assume no obligation and do not intend to update these forward-looking statements.

In addition to U.S. GAAP financials, this presentation includes certain non-GAAP financial measures. These historical and forward-looking non-GAAP measures are in addition to, not a substitute for or superior to, measures of financial performance prepared in accordance with GAAP. A reconciliation between GAAP and non-GAAP measures is included in the appendix to this presentation.
