## Media Alert: Join Varonis at NetApp Insight in Las Vegas

### Attend a session and see a demo at Booth #103 to learn how to discover and secure sensitive information across the enterprise while preventing breaches, insider threats and ransomware with Varonis

NEW YORK, Sept. 27, 2017 (GLOBE NEWSWIRE) -- [Varonis Systems, Inc.](#) (NASDAQ:VRNS), a leading provider of software solutions that protect data from insider threats and cyberattacks, invites [NetApp Insight](#)<sup>™</sup> attendees to informational sessions and technology demos. Attendees can learn how, through hybrid cloud offerings from NetApp, Varonis helps thousands of companies worldwide secure their critical information with a least-privilege model, assist with GDPR compliance and guard against ransomware, hijacked accounts and insider threats using user behavior analytics and automated data classification.

Varonis will be exhibiting at booth #103 at NetApp Insight from October 2-5 at the Mandalay Bay Resort and Casino in Las Vegas. NetApp Insight is NetApp's annual technical conference for storage and data management professionals.

#### Varonis Highlights at NetApp Insight Las Vegas:

- 1 **Breakout Session:** Is your information secure in the hybrid cloud? Varonis' Technology Evangelist Brian Vecci will present "Prevent Data Breaches, Confront Insider Threats, Stop Ransomware with Varonis and NetApp" on Tuesday, October 3 at 2:00-3:00pm in the Mandalay Bay South Convention Center, Level 3.
- 1 **Insight Central Session:** What you don't know about your data and who has access to it could cost you. During this focused 20-minute session, Brian Vecci will present "Let There Be Data Focused Risk Assessments!" See what you can learn from a no-cost Varonis Risk Assessment on Wednesday, October 4 at 1:45pm at Insight Central (Expo Hall).
- 1 **Technology Demos:** Learn how the Varonis Data Security Platform protects your file and email servers from cyberattacks and insider threats by analyzing the behavior of the people and machines that access your data, alerting on misbehavior and enforcing a least privilege model. Stop by for a demo at Booth #103.

Varonis supports the [NetApp® ONTAP® Cloud](#) and data residing on ONTAP, regardless of where it resides in the [Data Fabric](#).

"Many enterprises don't have a clear picture of their core data stores -- what's sensitive, who has access, who is using what, and what's stale. Without visibility, there is a lot of chaos that breeds risk, and hackers know that many organizations are playing catch up," says Varonis' CMO David Gibson. "We welcome the opportunity to talk with storage and security professionals about the challenges they face in protecting their largest data stores and show them how Varonis secures sensitive information and detects breaches by monitoring file and user behavior."

#### About NetApp Insight 2017: Change the World with Data

NetApp Insight<sup>™</sup> is NetApp's annual technical conference for storage and data management professionals. It gives customers, engineers, consultants and partners a forum for learning from industry experts and each other. This year, NetApp celebrates companies changing the world with data. Attendees can choose from more than 200 technical sessions, participate in self-paced Hands-On Labs, earn NetApp<sup>®</sup> Certifications at no cost and see exciting new technology in action at the solutions expo: Insight Central. Attendees also learn how the NetApp Data Fabric can harness the power of the hybrid cloud, how to build a next-generation data center and how to modernize storage through data management.

#### About Varonis

[Varonis](#) is a leading provider of software solutions that protect data from insider threats and cyberattacks. Through its innovative Data Security Platform, Varonis allows organizations to analyze, secure, manage, and migrate their volumes of unstructured data. Varonis specializes in file and email systems that store valuable spreadsheets, word processing documents, presentations, audio and video files, emails, and text. This rapidly growing data often contains an enterprise's financial information, product plans, strategic initiatives, intellectual property, and confidential employee, customer or patient records. IT and business personnel deploy Varonis software for a variety of use cases, including data security, governance and compliance, user behavior analytics, archiving, search, and file synchronization and sharing. With offices and partners

worldwide, Varonis had approximately 5,750 customers as of June 30, 2017, spanning leading firms in financial services, healthcare, public, industrial, insurance, energy and utilities, media and entertainment, consumer and retail, technology and education sectors.
