## **Dicerna to Present at Future Leaders in the Biotech Industry Conference on March 28, 2014**

WATERTOWN, Mass.--(BUSINESS WIRE)-- Dicerna Pharmaceuticals, Inc. (NASDAQ: DRNA), a leader in the development of RNAi-based therapeutics, today announced that Douglas M. Fambrough, PhD, the Company's President and CEO, is scheduled to present at the 21<sup>st</sup> Annual Future Leaders in the Biotech Industry conference on Friday, March 28, 2014 at 2:00 PM ET in New York, NY.

A live webcast will be available at [this link](#) or can be accessed by visiting "Events & Presentations" in the Investors and Media section of the Company's website at [www.dicerna.com](http://www.dicerna.com). An archived replay of the webcast will be available on the Company's website after the conference.

### **About Dicerna Pharmaceuticals, Inc.**

Dicerna is a biopharmaceutical company focused on the discovery and development of innovative treatments for rare inherited diseases involving the liver and for cancers that are genetically defined. Dicerna is using its proprietary RNA interference (RNAi) technology platform to build a broad pipeline in these therapeutic areas and intends to discover, develop and commercialize novel therapeutics either on its own or in collaboration with pharmaceutical partners.
