## Achaogen Announces Pricing of Public Offering of Common Stock

SOUTH SAN FRANCISCO, Calif., May 25, 2017 (GLOBE NEWSWIRE) -- Achaogen, Inc. (NASDAQ:AKAO), a late-stage biopharmaceutical company discovering and developing innovative antibacterials addressing multi-drug resistant (MDR) gram-negative infections, today announced the pricing of an underwritten public offering of 5,000,000 shares of its common stock at a price to the public of \$22.50 per share, for gross proceeds of \$112.5 million before deducting underwriting discounts and commissions and offering expenses payable by Achaogen. In addition, Achaogen has granted the underwriters of the offering a 30-day option to purchase up to an additional 750,000 shares of common stock at the public offering price, less underwriting discounts and commissions. All of the shares are being offered by Achaogen.

Achaogen currently expects to use the net proceeds from this offering to fund its ongoing development and preparation for potential commercialization of plazomicin, including funding for plazomicin manufacturing, research and development of its C-Scape program, and any remaining proceeds for working capital and general corporate purposes, including research and development of its other product candidates.

The offering is expected to close on or about May 31, 2017, subject to satisfaction of customary closing conditions.

Leerink Partners, Cowen and Stifel are acting as joint book-running managers for the offering. Guggenheim Securities and Wedbush PacGrow are acting as joint lead co-managers for the offering.

### About Achaogen

Achaogen is a late-stage biopharmaceutical company passionately committed to the discovery, development, and commercialization of innovative antibacterial treatments for MDR gram-negative infections. Achaogen is developing plazomicin, Achaogen's lead product candidate, for the treatment of serious bacterial infections due to MDR Enterobacteriaceae, including carbapenem-resistant Enterobacteriaceae. The U.S. Food and Drug Administration has granted plazomicin Breakthrough Therapy designation for the treatment of bloodstream infections (BSI) caused by certain Enterobacteriaceae in patients who have limited or no alternative treatment options. Achaogen's plazomicin program is funded in part with a contract from the Biomedical Advanced Research and Development Authority. Plazomicin is the first clinical candidate from Achaogen's gram-negative antibiotic discovery engine, and Achaogen has other programs in early and late preclinical stages focused on other MDR gram-negative infections. All product candidates are investigational only and have not been approved for commercialization.
