Third Quarter Activity:

- | **Acquired properties:** Acquired a \$26.4 million industrial property located in Philadelphia, Pennsylvania, which is 100% leased to one tenant for the next 15.4 years, and acquired a \$51.4 million, three building office complex in Orlando, Florida which is 100% leased to six tenants with a weighted average lease term of 8.6 years;
- | **Sold properties:** Sold one fully vacant property located in Newburyport, Massachusetts, for gross proceeds of \$4.5 million;
- | **Renewed lease:** Executed two lease renewals on a total of 373,275 square feet of building space;
- | **Leased vacant space:** Executed a lease with an existing tenant in one of our Raleigh, North Carolina buildings for the remaining vacant space in the building and executed a lease with a new tenant in our Baytown, Texas building bringing the occupancy for that building to 100%;
- | **Issued new debt:** Issued \$14.9 million in new fixed rate mortgage debt collateralized by our Philadelphia, Pennsylvania acquisition at an interest rate of 3.75% and issued \$28.8 million in new fixed rate debt collateralized by our Orlando, Florida acquisition at an interest rate of 3.89%;
- | **Repaid mortgage debt:** Repaid \$13.9 million in maturing mortgage debt with a fixed interest rate of 6.63%;
- | **Issued common stock through overnight offering:** Issued 1,322,500 shares of common stock through an overnight offering and subsequent underwriters' exercise of the overallotment option, raising net proceeds of \$26.1 million;
- | **Issued stock under ATM programs:** Issued 607,565 shares of common stock for net proceeds of \$12.9 million and 172,248 shares of our Series D Preferred Stock for net proceeds of \$4.4 million; and

Third Quarter 2017 Results: Core FFO available to common shareholders for the three months ended September 30, 2017, was \$10.7 million, or \$0.38 per share, a 9.5% increase when compared to the three months ended June 30, 2017. Core FFO increased primarily due to an increase in rental income from our 2017 acquisitions and decreased administration fees from using less of our administrator's resources during the period.

Net loss attributable to common stockholders for the three months ended September 30, 2017, was \$0.4 million, or \$0.01 per share, compared to net loss attributable to common stockholders for the three months ended June 30, 2017, of \$2.0 million, or \$0.08 per share. A reconciliation of Core FFO to net loss for the three months ended September 30, 2017 and June 30, 2017, which we believe is the most directly comparable GAAP measure to Core FFO, and a computation of basic and diluted Core FFO per weighted average share of common stock and basic and diluted net loss per weighted average share of common stock is set forth in the Summary Information table above.

Subsequent to the end of the quarter:

- | **Continued capital recycling program:** Executed a purchase and sale agreement to sell our Arlington, Texas property for \$5.6 million to the current tenant and in the event of an unsuccessful sale, a 10-year renewal option will automatically be effective;
- | **Amended credit facility agreement:** Amended credit facility to increase the term loan portion from \$25.0 million to \$75.0 million, decreased interest rate spreads by 25 basis points at all leverage tiers, extended the maturity date of the revolver to October 2021, and extended the maturity date of the term loan to October 2022;
- | **Issued stock under ATM programs:** Issued 10,604 shares of common stock for net proceeds of \$0.2 million; and
- | **Declared distributions:** Declared monthly cash distributions for October, November and December 2017 totaling \$0.375 per share on our common stock, \$0.4843749 per share on our Series A Preferred Stock, \$0.46875 per share on our Series B Preferred Stock, \$0.4375 per share on our Series D Preferred Stock, and \$0.2625 per share on our senior common stock.

Comments from Gladstone Commercial's President, Bob Cutlip: "Our financial results reflect consistent performance and stabilized revenues from our highly occupied same store properties and the real estate investments made during 2016 and 2017, our ability to lease previously vacant space, and our deleveraging and capital recycling programs. We have continued our capital recycling program, whereby we have sold non-core assets located outside of our target growth markets and used the proceeds to de-lever our portfolio as well as acquire properties in our target growth markets. We have successfully exited four non-core assets so far during 2017, recognizing a net capital gain of \$4.0 million, and we will continue to opportunistically sell non-core assets and redeploy the proceeds into stronger target growth markets. Year to date, we have invested \$94.4 million into the strong markets of Philadelphia and Orlando, and we completed a \$6.6 million expansion of an industrial facility adjacent to an auto assembly plant in Vance, Alabama. We are extremely pleased with our solid performance over the last several years, and we believe our same store rents should be stable and growing through

year end 2019. We will continue to focus on investing in new properties as we only have 3.9% of forecasted rental income expiring through 2019. We are looking forward to continued growth and success for our shareholders."

Non-GAAP Financial Measures:

FFO: The National Association of Real Estate Investment Trusts ("NAREIT") developed FFO as a relative non-GAAP supplemental measure of operating performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. FFO, as defined by NAREIT, is net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property and impairment losses on property, plus depreciation and amortization of real estate assets, and after adjustments for unconsolidated partnerships and joint ventures. FFO does not represent cash flows from operating activities determined in accordance with GAAP and should not be considered an alternative to net income as an indication of its performance or to cash flow from operations as a measure of liquidity or ability to make distributions. Gladstone Commercial believes that FFO per share provides investors with an additional context for evaluating its financial performance and as a supplemental measure to compare it to other REITs; however, comparisons of its FFO to the FFO of other REITs may not necessarily be meaningful due to potential differences in the application of the NAREIT definition used by such other REITs.

Core FFO: Core FFO is FFO adjusted for certain items that are not indicative of the results provided by Gladstone Commercial's operating portfolio and affect the comparability of the company's period-over-period performance. These items include the adjustment for gains or losses from early extinguishment of debt and any other non-recurring expense adjustments. Although Gladstone Commercial's calculation of Core FFO differs from NAREIT's definition of FFO and may not be comparable to that of other REITs, the company believes it is a meaningful supplemental measure of its operating performance. Accordingly, Core FFO should be considered a supplement to net income computed in accordance with GAAP as a measure of our performance.

Gladstone Commercial's presentation of FFO, as defined by NAREIT, or presentation of Core FFO, does not represent cash flows from operating activities determined in accordance with GAAP and should not be considered an alternative to net income as an indication of its performance or to cash flow from operations as a measure of liquidity or ability to make distributions.
