Intra-Cellular Therapies to Present at the Cowen and Company 37th Annual Health Care Conference

NEW YORK, Feb. 28, 2017 (GLOBE NEWSWIRE) -- Intra-Cellular Therapies, Inc. (Nasdaq:ITCI), a biopharmaceutical company focused on the development of therapeutics for central nervous system ("CNS") disorders, today announced that Sharon Mates, Ph.D., Chief Executive Officer and Chairman, is scheduled to present at the Cowen and Company 37th Annual Health Care Conference in Boston, MA. The presentation is scheduled for Tuesday, March 7, 2017 at 9:20 am EST.

The live and archived webcast can be accessed under "Events & Presentations" in the Investor Relations section of the Company's website at www.intracellulartherapies.com. Please log in approximately 5-10 minutes prior to the event to register and to download and install any necessary software.

About Intra-Cellular Therapies

Intra-Cellular Therapies is developing novel drugs for the treatment of neuropsychiatric and neurodegenerative diseases and diseases of the elderly, including Parkinson's and Alzheimer's disease. The Company is developing its lead drug candidate, lumateperone, for the treatment of schizophrenia, bipolar disorder, behavioral disturbances in patients with dementia, including Alzheimer's disease, depression and other neuropsychiatric and neurological disorders. Lumateperone, a first-in-class molecule, is in Phase 3 clinical development for the treatment of schizophrenia, bipolar depression and agitation associated with dementia, including Alzheimer's disease. The Company is also utilizing its phosphodiesterase platform and other proprietary chemistry platforms to develop drugs for the treatment of CNS and other disorders.
