TRUECar. November 6<sup>th</sup> 2017

# SAFE HARBOR

---

This presentation contains forward-looking statements. All statements other than statements of historical facts contained in this presentation, including statements regarding TrueCar, Inc.'s ("TrueCar") future growth potential and opportunities, outlook for the fourth quarter and full year 2017, planned product offerings, including research and discovery, digital retailing and the expansion of TrueCar Trade, future financial results, including expectations regarding future revenue and adjusted EBITDA, business strategy, plans and objectives are forward-looking statements. These forward-looking statements are subject to a number of risks, uncertainties, and assumptions that may prove incorrect, any of which could cause TrueCar's results to differ materially from those expressed or implied by such forward-looking statements. Among the risks and uncertainties that could cause TrueCar's results to differ materially from those expressed or implied by such forward-looking statements include: the ability to maintain and improve TrueCar's relationship with, and perception among, car dealerships and grow the network of Certified Dealers, on an overall basis, among dealers representing high volume brands and in important geographies, as well as the ability to grow the revenue TrueCar derives from car manufacturer incentive programs; dependence upon affinity group marketing partners, especially USAA; compliance with U.S. federal and state laws and regulations directly or indirectly applicable to TrueCar's business; the ability to scale and compete effectively in an increasingly competitive market and to grow and enhance TrueCar's brand; the ability to increase revenue from dealers on the subscription pricing model; the successful improvement of TrueCar's technology infrastructure; macro-economic issues that affect the automobile industry; the ability to attract, retain, and integrate qualified personnel, including recently hired members of management and the hiring of additional personnel in our technology and dealer teams; the ability to successfully resolve litigation to which TrueCar is subject; and other risks and uncertainties described more fully under the heading "Risk Factors" in TrueCar's annual report on Form 10-K for the year ended December 31, 2016 and its subsequent Quarterly Reports on Form 10-Q filed with the Securities and Exchange Commission ("SEC") and its report on Form 10-Q for the quarter ended September 30, 2017 to be filed with the SEC. Moreover, TrueCar operates in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for TrueCar management to predict all risks, nor can management assess the impact of all factors on its business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements TrueCar may make. All forward-looking statements in this presentation are based on information available to TrueCar's management as of the date hereof, and except as required by law, management assumes no obligation to update these forward-looking statements, which speak only as of the date hereof.

In addition to U.S. GAAP financials, this presentation includes certain non-GAAP financial measures. These non-GAAP measures are in addition to, not a substitute for or superior to, measures of financial performance prepared in accordance with U.S. GAAP. A reconciliation of these non-GAAP financial measures to the most directly comparable GAAP measures is set forth in the Appendix to this presentation.

(1) Includes stock-based compensation of \$10.7 million incurred in the fourth quarter of 2015 related to the departure of certain executives.

(2) The excluded amounts relate to legal costs incurred in connection with complaints filed by non-TrueCar dealers and the California New Car Dealers Association against TrueCar, and securities and consumer class action lawsuits. We believe the exclusion of these costs is appropriate to facilitate comparisons of our core operating performance on a period-to-period basis. Based on the nature of the specific claims underlying the excluded litigation matters, once these matters are resolved, we do not believe our operations are likely to entail defending against the types of claims raised by these matters. We expect the cost of defending these claims to continue to be significant pending resolution.

(3) We incurred \$1.3 million in severance costs in the second quarter of 2016 related to a reorganization of our product and technology teams to better align our resources with business objectives as we transition from multiple software platforms to a unified architecture. In addition, we incurred severance costs of \$0.5 million related to an executive who terminated during the second quarter of 2016. Furthermore, we incurred severance costs for four executive-level employees who terminated in the third quarter of 2015. We believe excluding the impacts of these terminations is consistent with our use of Adjusted EBITDA and Non-GAAP net income (loss) as we do not believe they are useful indicators of ongoing operating results.

(4) Represents updated estimates to our lease termination costs associated with the consolidation of the Company's office locations in Santa Monica, California in December 2015. We believe that their exclusion is appropriate to facilitate period-to-period operating performance comparisons.
