AMRI to Present Two Posters at AAPS 2016

ALBANY, N.Y., Nov. 14, 2016 /PRNewswire/ -- AMRI (NASDAQ: AMRI), a premier contract services provider to the life sciences industry, will be presenting two posters at the 2016 AAPS Annual Meeting and Exposition, at the Colorado Convention Center in Denver. The posters will showcase data supporting AMRI's innovative approach to solving complex scientific problems that arise in drug development.

On Monday, AMRI's poster on "Artificial Stomach and Duodenum: A Dynamic Dissolution Approach," will be presented by Yizheng Cao, scientist, at 9 a.m., Terminal 14.

In addition, Greg Thomas, scientist, SSCI, a division of AMRI, will present "Alcohol-Induced Dose Dumping Studies on Bupropion Hydrochloride Modified Release Tablets," at 12:30 pm, Monday, Nov. 14, on Terminal 33.

"The research we are presenting at AAPS demonstrates AMRI's deep understanding of complex chemistry," stated Christopher Conway, senior vice president of Discovery and Development Services at AMRI. "We are constantly working on innovative ways to solve the problems that arise during drug development and create state-of-the-art methods to help all of our customers get the most robust early stage data on their drug development programs."

AAPS attendees interested in learning more about AMRI's programs can meet with company representatives at Booth 600.

About AMRI
