SSCI Receives a 2017 Biotechnology Award for Global Research and Manufacturing

WEST LAFAYETTE, Ind., April 26, 2017 /PRNewswire/ -- SSCI, a division of Albany Molecular Research Inc. (AMRI), has been recognized by *Global Health & Pharma* (GHP) magazine as the winner of the 2017 Biotechnology Award for [Best Global Research & Manufacturing Company](#) in the United States.

"I am truly honored to accept this award on behalf of our dedicated team that is deeply committed to the mission of helping our clients achieve their product development goals and generate valuable intellectual property day in and day out," said David A. Engers, Ph.D., general manager at SSCI. "We are grateful to GHP for recognizing our commitment to client service and data integrity in order to provide unmatched value to the industries we have served for more than a quarter century."

GHP magazine recognizes that the biotechnology industry is increasingly viewed as being the frontline of medical science, and as this movement continues to gain momentum the publication is committed to following the most game-changing advances and revolutionary developments that will form the healthcare world for years to come.

Nathan Angell, GHP awards coordinator, expressed pride in every one of the award winners, "This award recognizes the hard work and dedication of the firms, such as SSCI, and the individuals behind them, that are driving innovation in this vital market. It has been my honor to recognize these dedicated professionals and I would like to wish them the very best of fortunes for the future."

About SSCI

AMRI SSCI, LLC (SSCI), a division of AMRI, provides industry leading contract solid-state and analytical testing services and exists to help companies in the pharmaceutical, food, agrochemical, and other chemical industries develop better products and get them to market more quickly. SSCI provides comprehensive cGMP research and analytical services in the characterization and chemistry of solid materials, with particular expertise in small and large molecules being investigated for pharmaceutical use. To learn more about SSCI's solid-state and analytical chemistry services and capabilities, please contact 1-800-375-2179 | www.ssci-inc.com.

About GHP Magazine

Global Health and Pharma (GHP) magazine is a global, information-sharing platform and a multi-disciplinary members community. The publication was established to enhance communication networks and collaboration across all themes and disciplines within three main categories; Human, Animal and Environmental Health.
