Quantenna Wins the Prestigious Global Semiconductor Alliance Award for the "Most Respected Private Semiconductor Company" a Second Consecutive Year

FREMONT, Calif., Dec. 09, 2016 (GLOBE NEWSWIRE) -- [Quantenna Communications, Inc.](#) (Nasdaq:[QTNA](#)), a leading provider of high-performance Wi-Fi solutions, announced today that it received the prestigious "Most Respected Private Semiconductor Company" award at the 2016 Global Semiconductor Alliance (GSA) Awards Dinner Celebration on December 8th. The semiconductor industry's annual event honored outstanding semiconductor companies worldwide that have demonstrated excellence through their vision, strategy, execution and future opportunity.

The GSA identified leading semiconductor companies that have demonstrated market growth through technological innovation and exceptional business management strategies. The awards are voted by GSA's member companies to honor their achievements. Previously, Quantenna won the "Start-Up to Watch" award in 2013 and last year earned the "Most Respected Private Company" award. Quantenna recently completed its initial public offering and is now listed on Nasdaq; the award vote was cast prior to its IPO.

"GSA has been following Quantenna's growth for many years and recognized the company with three awards in two different categories in the last four years," said Jodi Shelton, President of GSA. "GSA also congratulates Quantenna on their recent IPO and looks forward to their continued success."

"We are humbled that the GSA and our peers have again recognized Quantenna as a company that is relentlessly pushing the semiconductor Wi-Fi market," said Dr. Sam Heidari, Chairman and CEO at Quantenna. "This award is the perfect ending to our journey as a private company and we look forward to writing a new chapter of our success as a public company."

About GSA

The Global Semiconductor Alliance (GSA) mission is to support the global semiconductor industry and its partners by offering a comprehensive view of the industry. This enables members to better anticipate market opportunities and industry trends, preparing them for technology and business shifts. It addresses the challenges within the supply chain including IP, EDA/design, wafer manufacturing, test and packaging to enable industry-wide solutions. Providing a platform for meaningful global collaboration through efficient power networking for global semiconductor leaders and their partners, the Alliance identifies and articulates market opportunities, encourages and supports entrepreneurship, and provides members with comprehensive and unique market intelligence. Members include companies throughout the supply chain representing 30 countries across the globe. www.gsaglobal.org

About Quantenna Communications

Quantenna (Nasdaq:[QTNA](#)) is a global leader and innovator of leading-edge performance Wi-Fi solutions. Quantenna introduced the world's first 10G Wi-Fi technology for a new generation of access points in home, enterprise and public spaces and continues to innovate. Quantenna's Wi-Fi solutions offer superior performance, and establish benchmarks for speed, range, efficiency and reliability. With MAUI, Quantenna's cloud-based Wi-Fi analytics platform that complement its chipset solutions, service providers can deliver real-time, automated Wi-Fi monitoring, optimization, and self-healing to their customers around the clock to help achieve the best Wi-Fi experience. Quantenna is Wi-Fi perfected. For more information, visit www.quantenna.com.
