Mobile World Congress 2017: DTS To Showcase Audio Technologies Across Mobile, PC and Gaming Products

Huawei Announces P10 and P10 Plus Smartphones with DTS Sound

BARCELONA, Feb. 27, 2017 /PRNewswire/ -- [DTS](#), a global leader in high-definition audio solutions and wholly owned subsidiary of [Xperi Corporation](#) (Nasdaq: XPER) (the "Company" or "Xperi"), is pleased to announce the integration of DTS Sound in the new Huawei P10 and P10 Plus flagship Android smartphones. Additionally, DTS will showcase its next-generation audio technologies at Mobile World Congress 2017 at the Xperi booth in Hall 5 Stand 5I30. Company representatives will be available to demonstrate them upon request.

DTS Sound is a stereo audio post-processing suite that provides remarkable bass and intelligent volume leveling for dialogue, along with onboard speaker correction, to enhance a mobile device's built-in sound system for optimal audio quality and performance.

"We are excited to highlight our continued growth across the mobile, PC and gaming markets with the addition of the Huawei P10 and P10 Plus to our partner product lineup," said Jon Kirchner, president of Xperi. "We are committed to delivering a premium sound experience to listeners around the world as they consume their digital entertainment across a broad spectrum of devices."

The Huawei P10 and P10 Plus smartphones will be available beginning in March. Exact specifications, prices and availability will vary by region.

In addition to the Huawei P10 and P10 Plus smartphones, products and technologies showcased at Mobile World Congress 2017 include:

- | **DTS® Headphone:X®**: ASUS ZenFone 3 Ultra and Huawei Nova smartphones; Logitech G430, Logitech G933 Artemis Spectrum, LucidSound LS40, Mad Catz TRITTON Katana, Turtle Beach Elite Pro Tournament and Turtle Beach Elite 800x gaming headsets; and Skullcandy Hesh 2 wired headphones
- | **DTS Sound**: Huawei Mate 9 and Motorola Nexus 6 Verizon Unlocked smartphones
- | **DTS-HD Master Audio**: Le Eco S3 smartphone
- | **DTS-HD Premium Sound & Headphone:X**: ASUS ZenPad Z300M tablet

DTS is also demonstrating support for VR with gaming, 360 video and VR cinema experiences on the Gear VR. These demos will showcase how DTS' next-generation technology uses localized, spatial and head tracked audio rendering to deliver the most realistic experience possible for the user.
