Forward Looking Statements

This presentation contains forward-looking statements that are based on our management's belief and assumptions and on information currently available to our management. Although we believe that the expectations reflected in these forward-looking statements are reasonable, these statements relate to future events or our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue" or the negative of these terms or other comparable terminology. These statements are only predictions. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond our control and which could materially affect results. Factors that may cause actual results to differ materially from current expectations include, among other things, the risks described below. If one or more of these or other risks or uncertainties occur, or if our underlying assumptions prove to be incorrect, actual events or results may vary significantly from those implied or projected by the forward-looking statements. No forward-looking statement is a guarantee of future performance. You should read this presentation completely and with the understanding that our actual future results may be materially different from any future results expressed or implied by these forward-looking statements.

In particular, forward-looking statements in this presentation may include statements about: anticipated trends, conditions and investor sentiment in the global markets and exchange-traded products ("ETPs"); anticipated levels of inflows into and outflows out of our ETPs; our ability to deliver favorable rates of return to investors; our ability to develop new products and services; our ability to maintain current vendors or find new vendors to provide services to us at favorable costs; our ability to successfully expand our business into non-U.S. markets; competition in our business; and the effect of laws and regulations that apply to our business.

Our business is subject to many risks and uncertainties, including without limitation:

- Net outflows during 2016 in our two largest ETFs – the WisdomTree Europe Hedged Equity Fund and the WisdomTree Japan Hedged Equity Fund – have had, and in the future could continue to have, a negative impact on our revenues.
- Declining prices of securities can adversely affect our business by reducing the market value of the assets we manage or causing customers to sell their fund shares and trigger redemptions.
- Fluctuations in the amount and mix of our AUM may negatively impact revenues and operating margins.
- We derive a substantial portion of our revenues from a limited number of products, and as a result, our operating results are particularly exposed to the performance of these funds and our ability to maintain the AUM of these funds, as well as investor sentiment toward investing in the funds' strategies and market-specific and political and economic risk.
- Much of our AUM is held in our U.S. listed ETFs that invest in foreign securities and we therefore have substantial exposure to foreign market conditions and are subject to currency exchange rate risks.
- Many of our ETPs and ETFs have a limited track record, and poor investment performance could cause our revenues to decline.
- We depend on third parties to provide many critical services to operate our business and our ETPs and ETFs. The failure of key vendors to adequately provide such services could materially affect our operating business and harm our customers.

Other factors, such as general economic conditions, including currency exchange rate fluctuations, also may have an effect on the results of our operations. For a more complete description of the risks noted above and other risks that could cause our actual results to differ from our current expectations, please see the section entitled "Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

The forward-looking statements in this presentation represent our views as of the date of this presentation. We anticipate that subsequent events and developments may cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. Therefore, these forward-looking statements do not represent our views as of any date other than the date of this presentation.

Broad based inflows partially offset by DXJ outflows

Quarterly U.S. ETF AUM Change

(\$ billions)

Q2/17 Net Inflows

(\$ millions)

DXJ / HEDJ Quarterly Flow Impact

(\$ billions)

Notable flow highlights

- + Quality Dividend Growth fund (DGRW) had a record quarter with \$288 million of inflows bringing YTD inflows to \$426 million and fund AUM to over \$1.6 billion
- + MidCap Dividend fund (DON) momentum continued with 2Q17 inflows of \$112 million bringing total fund AUM to just under \$3 billion
- + Global ex-Mexico Equity fund (XMX) garnered inflows of \$48 million following the June cross listing of the fund on the Mexican exchange
- + CBOE S&P 500 Put/Write fund (PUTW) saw increased acceptance and accelerating momentum with \$112 million of 2Q17 inflows bringing fund AUM to over \$178 million in just 6 quarters since initial launch
- + 10 U.S. listed ETFs across a broad range of strategies had inflows of greater than \$50 million during the quarter (DGRW, PUTW, DON, DFE, DLS, HEDJ, DDWM, DGS, EPI, DEM)

Efforts to diversify and stabilize AUM taking hold

+ Assets in funds viewed as core/strategic holdings have grown from a low of 27% of total AUM during 2015 to 48% by 2Q17

+ This group of funds generated inflows of more than \$3.3 billion since the start of 2016 representing 15% annualized organic growth

+ Represents 46 funds across a range of strategies and asset classes ⁽¹⁾

Core/Strategic AUM Growth

(\$ in billions)

(2) Gross margin formula revised with denominator now Advisory Fees rather than Total Revenue
Prior periods above have been restated

International Segment continues to scale

Key Highlights

- + International segment AUM growth of 9% during the quarter bringing 1H/17 growth to 42%.
- + Continued flow momentum with \$147 million of inflows bringing year-to-date inflows to \$466 million and well split between Boost and UCITs
- + Net flow positive YTD in Europe, Canada, Latin America and Israel
- + Announced strategic agreements in Canada to bolster growth outlook and scale

International Segment AUM

(\$ USD millions)

Strategic agreements with Questrade position WisdomTree for accelerated growth in Canada

Key Highlights

- + WisdomTree will become a premier provider of Canadian ETFs available for purchase commission-free on platform
- + WisdomTree will become a consultant for Questrade's PortfolIQ, a low-cost online investment service
- + WisdomTree will acquire the right to manage Questrade's eight ETFs with approximately USD \$71 million in AUM for USD \$1.9 million ⁽¹⁾
- + Companies will jointly deploy ETF-focused educational initiatives and resources for Questrade clients

Who is Questrade?

- + Ideal partner for WisdomTree – entrepreneurial, independent, and willing to challenge the status quo
- + Largest independent and fastest growing on-line brokerage in Canada
- + Over \$5 billion in assets and more than 30,000 accounts opened every year
- + Leader and innovator in fintech
- + Focus on leveraging technology to lower fees, allowing Canadians to “Keep More of their Money”

Q3/17 as of 7/27/17

Flow diversity has continued into Q3/17 with inflows into 19 funds across 6 categories

WisdomTree U.S. Listed AUM

(\$ billions)

U.S. Net Inflows

(\$ millions)

* International Segment Q3/17 QTD inflows of \$18M (Boost \$3M, UCIT \$12M, Canada \$3M) through 7/27/17

Progress made positioning WisdomTree to benefit from secular shifts

+ **AUM and flow diversification efforts are showing progress**

- % and \$ amount of AUM in core/strategic funds has increased
- In 2Q17 10 funds had inflows of greater than \$50 million

+ **Monetization of model portfolio initiatives has commenced**

- Announced launch of WisdomTree model portfolios on Envestnet platform

+ **Technology will be a key differentiator for WisdomTree**

- Portfolio analytics tools
- Portfolio construction services
- AdvisorEngine
- Internally focused data analytics and distribution tools including the collaboration with IBM Watson

+ **Advisor Solutions program to empower financial intermediaries and drive deeper relationships with a broader range of advisors**

- Kredible
- Leadership and Retirement experts

(1) Calculated as net mutual fund and ETF inflows of for the period over BoP AUM annualized.

Excludes money market funds.

2017 Guidance Items

- + U.S. Segment compensation to revenue ratio of 28-31% in a normal operating environment
- + Near-term U.S. gross margin of ~82%
- + Roughly flat baseline U.S. expenses (\$138-\$139 million) before impact of AUM changes on fund costs and net flow impact on incentive compensation. Includes \$3-4 million of incremental growth initiative spending
- + International Business segment (Europe & Canada) anticipated pre-tax loss of \$9-\$13 million
- + Negative tax impact of \$1.5 million (primarily in 1Q and 3Q) from new accounting rules related to stock-based compensation. Base U.S. tax rate of ~40% on U.S. segment pre-tax earnings

Estimated impact from stock-based comp tax changes

- + 2017 GAAP accounting change requires tax effects of stock-based compensation be recorded in income tax expenses vs. prior rules which impacted equity
- + Awards vesting or being exercised at stock price below/above their grant date price will increase/decrease income tax expense
- + New requirements will increase volatility in reported income tax expenses. On a cash basis, tax windfalls reduce cash taxes while short falls are non-cash

(shares and dollars in '000s)

Non-GAAP Financial Measurements

In an effort to provide additional information regarding our results as determined by GAAP, we also disclose certain non-GAAP information which we believe provides useful and meaningful information. Our management reviews these non-GAAP financial measurements when evaluating our financial performance and results of operations; therefore, we believe it is useful to provide information with respect to these non-GAAP measurements so as to share this perspective of management. Non-GAAP measurements do not have any standardized meaning, do not replace nor are superior to GAAP financial measurements and are unlikely to be comparable to similar measures presented by other companies. These non-GAAP financial measurements should be considered in the context with our GAAP results. The non-GAAP financial measurements contained in this release include:

- *Gross margin and gross margin percentage (U.S. Business segment).* We disclose our gross margins and gross margin percentage for our U.S. Business segment separately from the start up stage of our international businesses (Europe and Canada) to allow investors to better understand and track the performance and operating efficiency of our core U.S. operations, which make up the vast majority of our operating and financial results. We disclose U.S. Business segment gross margin, which we define as U.S. advisory fees less U.S. fund management and administration expenses and U.S. third-party sharing arrangements, and U.S. Business segment gross margin percentage as non-GAAP financial measurements because we believe they provide investors with a consistent way to analyze the amount we retain after paying third party service providers to operate our ETPs and third party marketing agents whose fees are associated with our AUM level. Management tracks gross margin and gross margin percentage to analyze the profitability of our products.
- *Consolidated and U.S. Business segment operating results and pre-tax margin for the second quarter of 2017 excluding a pre-tax gain of \$6.9 million (or \$4.3 million after-tax) associated with the settlement of a dispute with a third party.* We exclude this gain when analyzing our results as it is a one-time, non-recurring item and not core to our operating business.
- *Consolidated operating results and pre-tax margin for the second quarter of 2016 excluding a \$6.0 million charge related to the acceleration of the buyout of the remaining minority interest in our European business.* We exclude this charge when analyzing our results, which is not deductible for tax purposes, as it is a one-time, non-recurring charge and not core to our operating business.
