Form 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____.

Commission File Number 001-10932

WisdomTree Investments, Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

245 Park Avenue, 35th Floor
New York, New York
(Address of principal executive officers)

13-3487784
(IRS Employer
Identification No.)

10167
(Zip Code)

212-801-2080
(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934, as amended (the "Exchange Act") during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

As of July 31, 2017, there were 136,937,186 shares of the registrant's Common Stock, \$0.01 par value per share, outstanding.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements that are based on our management's beliefs and assumptions and on information currently available to our management. Although we believe that the expectations reflected in these forward-looking statements are reasonable, these statements relate to future events or our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue" or the negative of these terms or other comparable terminology. These statements are only predictions. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond our control and which could materially affect results. Factors that may cause actual results to differ materially from current expectations include, among other things, those listed in the section entitled "Risk Factors" included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016. If one or more of these or other risks or uncertainties occur, or if our underlying assumptions prove to be incorrect, actual events or results may vary significantly from those implied or projected by the forward-looking statements. No forward-looking statement is a guarantee of future performance. You should read this Report and the documents that we reference in this Report and have filed with the Securities and Exchange Commission, or the SEC, as exhibits to this Report, completely and with the understanding that our actual future results may be materially different from any future results expressed or implied by these forward-looking statements.

In particular, forward-looking statements in this Report may include statements about:

- anticipated trends, conditions and investor sentiment in the global markets and exchange traded products, or ETPs, which include exchange traded funds, or ETFs;
- anticipated levels of inflows into and outflows out of our ETPs;
- our ability to deliver favorable rates of return to investors;
- our ability to develop new products and services;
- our ability to maintain current vendors or find new vendors to provide services to us at favorable costs;
- our ability to successfully expand our business into non-U.S. markets;
- competition in our business; and
- the effect of laws and regulations that apply to our business.

The forward-looking statements in this Report represent our views as of the date of this Report. We anticipate that subsequent events and developments may cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. Therefore, these forward-looking statements do not represent our views as of any date other than the date of this Report.

NON-CASH INVESTING ACTIVITY

On June 20, 2017, the Company was issued newly authorized preferred stock of Tradeworx, Inc. and a warrant to purchase additional preferred stock in connection with the resolution of a dispute related to the Company's ownership stake in Tradeworx, Inc. The fair value of the preferred stock was \$6,909 and is included within Investments on the Consolidated Balance Sheets. The fair value of the warrant was determined to be insignificant (See Note 6).

The accompanying notes are an integral part of these consolidated financial statements

WisdomTree Investments, Inc. and Subsidiaries

Notes to Consolidated Financial Statements
(In Thousands, Except Share and Per Share Amounts)

1. Organization and Description of Business

WisdomTree Investments, Inc., through its global subsidiaries (collectively, “WisdomTree” or the “Company”), is an exchange traded product (“ETP”) sponsor and asset manager headquartered in New York. WisdomTree offers ETPs covering equity, fixed income, currency, alternative and commodity asset classes. The Company has the following wholly-owned operating subsidiaries:

- *WisdomTree Asset Management, Inc.* (“WTAM”) is a New York based investment adviser registered with the SEC providing investment advisory and other management services to the WisdomTree Trust (“WTT”) and WisdomTree exchange traded funds (“ETFs”).
- *Boost Management Limited* (“BML”) is a Jersey based management company providing investment and other management services to Boost Issuer PLC (“BI”) and Boost ETPs.
- *WisdomTree Europe Limited* (“WisdomTree Europe”) is a U.K. based company registered with the Financial Conduct Authority providing management and other services to BML and WisdomTree Management Limited.
- *WisdomTree Management Limited* (“WTML”) is an Ireland based management company providing investment and other management services to WisdomTree Issuer plc (“WTI”) and WisdomTree UCITS ETFs.
- *WisdomTree Japan Inc.* (“WTJ”) is a Japan based company that is registered with Japan’s Ministry of Finance and serves the institutional market selling U.S. listed WisdomTree ETFs in Japan.
- *WisdomTree Commodity Services, LLC* (“WTCS”) is a New York based company that serves as the managing owner and commodity pool operator of the WisdomTree Continuous Commodity Index Fund. WTCS is registered with the Commodity Futures Trading Commission (“CFTC”) and is a member of the National Futures Association (“NFA”).
- *WisdomTree Asset Management Canada, Inc.* (“WTAMC”) is a Canada based investment fund manager registered with the Ontario Securities Commission providing fund management services to locally-listed WisdomTree ETFs.

The WisdomTree ETFs are issued in the U.S. by WTT. WTT, a non-consolidated third party, is a Delaware statutory trust registered with the SEC as an open-end management investment company. The Company has licensed to WTT the use of certain of its own indexes on an exclusive basis for the WisdomTree ETFs in the U.S. The Boost ETPs are issued by BI. BI, a non-consolidated third party, is a public limited company organized in Ireland. The WisdomTree UCITS ETFs are issued by WTI. WTI, a non-consolidated third party, is a public limited company organized in Ireland.

The Board of Trustees and Board of Directors of WTT, BI and WTI, respectively, are separate from the Board of Directors of the Company. The respective Trustees and Directors of WTT, BI and WTI, as applicable, are primarily responsible for overseeing the management and affairs of the WisdomTree ETFs, Boost ETPs and the WisdomTree UCITS ETFs for the benefit of the WisdomTree ETF, Boost ETP and the WisdomTree UCITS ETF shareholders, respectively, and have contracted with the Company to provide for general management and administration services. The Company, in turn, has contracted with third parties to provide the majority of these administration services. In addition, certain officers of the Company provide general management services for WTT, BI and WTI.

2. Significant Accounting Policies

Basis of Presentation

These consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles (“GAAP”) and in the opinion of management reflect all adjustments, consisting of only normal recurring adjustments, necessary for a fair statement of financial condition, results of operations, and cash flows for the periods presented. The consolidated financial statements include the accounts of the Company’s wholly-owned subsidiaries.

All intercompany accounts and transactions have been eliminated in consolidation. Certain accounts in the prior years’ consolidated financial statements have been reclassified to conform to the current year’s consolidated financial statements presentation. These reclassifications had no effect on the previously reported operating results.

Consolidation

The Company consolidates entities in which it has a controlling financial interest. The Company determines whether it has a controlling financial interest in an entity by first evaluating whether the entity is a voting interest entity (“VOE”) or a variable interest entity (“VIE”). The usual condition for a controlling financial interest in a VOE is ownership of a majority voting interest. If the Company has a majority voting interest in a VOE, the entity is consolidated. The Company has a controlling financial interest in a VIE when the Company has a variable interest that provides it with (i) the power to direct the activities of the VIE that most significantly impact the VIE’s economic performance and (ii) the obligation to absorb losses of the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE.

The Company had no variable interests in any VIEs at June 30, 2017 and December 31, 2016.

Segment and Geographic Information

The Company operates as an ETP sponsor and asset manager providing investment advisory services in the U.S., Europe, Canada and Japan. These activities are reported in the Company’s U.S. Business and International Business reportable segments. The U.S. Business segment includes the results of the Company’s U.S. operations and Japan sales office, which primarily engages in selling U.S. listed ETFs to Japanese institutions. The results of the Company’s European and Canadian operations are reported as the International Business segment.

Revenues are primarily derived in the U.S. and the vast majority of the Company’s AUM is currently located in the U.S.

Foreign Currency Translation

Assets and liabilities of subsidiaries whose functional currency is not the U.S. dollar are translated based on the end of period exchange rates from local currency to U.S. dollars. Results of operations are translated at the average exchange rates in effect during the period.

Use of Estimates

The preparation of the Company’s consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the balance sheet dates and the reported amounts of revenues and expenses for the periods presented. Actual results could differ materially from those estimates.

Revenue Recognition

The Company earns investment advisory fees from its ETPs, as well as licensing fees from third parties. ETP advisory fees are based on a percentage of the ETPs’ average daily net assets and recognized over the period the related service is provided. Licensing fees are based on a percentage of the average monthly net assets and recognized over the period the related service is provided.

Depreciation and Amortization

Depreciation is provided for using the straight-line method over the estimated useful lives of the related assets as follows:

Equipment	5 years
Furniture and fixtures	15 years

Leasehold improvements are amortized over the term of their respective leases or service lives of the improvements, whichever is shorter. Fixed assets are stated at cost less accumulated depreciation and amortization.

Occupancy

The Company accounts for its office lease facilities as operating leases, which may include free rent periods and escalation clauses. The Company expenses the lease payments associated with operating leases on a straight-line basis over the lease term.

Marketing and Advertising

Advertising costs, including media advertising and production costs, are expensed when incurred.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of 90 days or less at the time of purchase to be classified as cash equivalents.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are customer and other obligations due under normal trade terms. An allowance for doubtful accounts is not provided since, in the opinion of management, all accounts receivable recorded are deemed collectible.

Impairment of Long-Lived Assets

The Company performs a review for the impairment of long-lived assets when events or changes in circumstances indicate that the estimated undiscounted future cash flows expected to be generated by the assets are less than their carrying amounts or when other events occur which may indicate that the carrying amount of an asset may not be recoverable.

Earnings per Share

Basic earnings per share (“EPS”) is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding for the period. Net income available to common stockholders represents net income of the Company reduced by an allocation of earnings to participating securities. Unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and are included in the computation of EPS pursuant to the two-class method. Share-based payment awards that do not contain such rights are not deemed participating securities and are included in diluted shares outstanding (if dilutive) under the treasury stock method. Diluted EPS reflects the reduction in earnings per share assuming dilutive options or other dilutive contracts to issue common stock were exercised or converted into common stock. Diluted EPS is calculated under both the treasury stock method and two-class method. The calculation that results in the most dilutive EPS amount for the common stock is reported in the Company’s consolidated financial statements.

Securities Owned and Securities Sold, but not yet Purchased (at fair value)

Securities owned and securities sold, but not yet purchased are securities classified as either trading or available-for-sale (“AFS”). These securities are recorded on their trade date and are measured at fair value. The Company classifies these financial instruments based primarily on the Company’s intent to hold or sell the security. Changes in the fair value of securities classified as trading are reported in other income in the period the change occurs. Unrealized gains and losses of securities classified as AFS are included within other comprehensive income. Once sold, amounts reclassified out of accumulated other comprehensive income and into earnings are determined using the specific identification method. AFS securities are assessed for impairment on a quarterly basis.

Securities Held-to-Maturity

The Company accounts for certain of its investments as held-to-maturity on a trade date basis, which are recorded at amortized cost. For held-to-maturity investments, the Company has the intent and ability to hold investments to maturity and it is not more-likely-than-not that the Company will be required to sell the investments before recovery of their amortized cost bases, which may be maturity. On a quarterly basis, the Company reviews its portfolio of investments for impairment. If a decline in fair value is deemed to be other-than-temporary, the security is written down to its fair value through earnings.

Investments, Carried at Cost

The Company accounts for equity securities that do not have a readily determinable fair value as cost method investments to the extent such investments are not subject to consolidation or the equity method. Income is recognized when dividends are received only to the extent they are distributed from net accumulated earnings of the investee. Otherwise, such distributions are considered returns of investment and are recorded as a reduction of the cost of the investment.

Cost method investments held by the Company are assessed for impairment on a quarterly basis.

Goodwill

Goodwill is the excess of the fair value of the purchase price over the fair values of the identifiable net assets at the acquisition date. The Company tests its goodwill for impairment at least annually and at the time of a triggering event requiring re-evaluation, if one were to occur. In accordance with Accounting Standards Update (“ASU”) 2017-04, *Intangibles-Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment*, which was early adopted by the Company, goodwill is impaired when the estimated fair value of the reporting unit that was allocated the goodwill is less than its carrying value. If the estimated fair value of such reporting unit is less than its carrying value, goodwill impairment is recognized based on that difference. A reporting unit is an operating segment or a component of an operating segment provided that the component constitutes a business for which discrete financial information is available and management regularly reviews the operating results of that component.

For impairment testing purposes, goodwill has been allocated to the Company’s U.S. Business reporting unit (See Note 14). The Company has designated April 30th as its annual goodwill impairment testing date. When performing its goodwill impairment test, the Company considers a qualitative assessment, when appropriate, and the income approach, market approach and its market capitalization when determining the fair value of its reporting units.

Intangible Assets

Indefinite-lived intangible assets are tested for impairment at least annually and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Indefinite-lived intangible assets are impaired if their estimated fair values are less than their carrying values.

Finite-lived intangible assets, if any, are amortized over their estimated useful life, which is the period over which the assets are expected to contribute directly or indirectly to the future cash flows of the Company. These intangible assets are tested for impairment at the time of a triggering event, if one were to occur. Finite-lived intangible assets may be impaired when the estimated undiscounted future cash flows generated from the assets are less than their carrying amounts.

The Company may rely on a qualitative assessment when performing its intangible asset impairment test. Otherwise, the impairment evaluation is performed at the lowest level of identifiable cash flows independent of other assets. The Company has designated November 30th as its annual impairment testing date for its indefinite-lived intangible assets.

Stock-Based Awards

Accounting for stock-based compensation requires the measurement and recognition of compensation expense for all equity awards based on estimated fair values. Stock-based compensation is measured based on the grant-date fair value of the award and is amortized over the relevant service period.

Income Taxes

The Company accounts for income taxes using the liability method, which requires the determination of deferred tax assets and liabilities based on the differences between the financial and tax basis of assets and liabilities using the enacted tax rates in effect for the year in which differences are expected to reverse. Deferred tax assets are adjusted by a valuation allowance if, based on the weight of available evidence, it is more-likely-than-not that some portion or all the deferred tax assets will not be realized.

In order to recognize and measure any unrecognized tax benefits, management evaluates and determines whether any of its tax positions are more-likely-than-not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Once it is determined that a position meets this recognition threshold, the position is measured to determine the amount of benefit to be recognized in the consolidated financial statements. The Company records interest expense and penalties related to tax expenses as income tax expense.

Non-income based taxes are recorded as part of other liabilities and other expenses.

Third Party Sharing Arrangements

The Company pays a percentage of its advisory fee revenues based on incremental growth in AUM, subject to caps or minimums, to marketing agents to sell WisdomTree ETFs and for including WisdomTree ETFs on third party customer platforms.

Recently Issued Accounting Pronouncements

In June 2016, the Financial Accounting Standards Board (“FASB”) issued ASU 2016-13, *Financial Instruments—Credit Losses (Topic 326) – Measurement of Credit Losses on Financial Instruments* (ASU 2016-13). The main objective of the standard is to provide financial statement users with more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date. To achieve this objective, the amendments in the standard replace the incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. The standard is applicable to loans, accounts receivable, trade receivables, and other financial assets measured at amortized cost, loan commitments and certain other off-balance sheet credit exposures, debt securities (including those held-to-maturity) and other financial assets measured at fair value through other comprehensive income, and beneficial interests in securitized financial assets. Accordingly, the new methodology will be utilized when assessing the Company’s securities classified as AFS and held-to-maturity for impairment. ASU 2016-13 is effective for years beginning after December 15, 2019, including interim periods within those fiscal years under a modified retrospective approach. Early adoption is permitted for periods beginning after December 15, 2018. The Company is currently evaluating the impact that the standard will have on its consolidated financial statements.

[Table of Contents](#)

In March 2016, the FASB issued ASU 2016-09, *Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting* (ASU 2016-09). The standard is intended to simplify several areas of accounting for share-based compensation arrangements, including the income tax impact, classification on the statement of cash flows and forfeitures. ASU 2016-09 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016, and early adoption is permitted. The Company adopted this standard prospectively on January 1, 2017. The adoption of the standard increased volatility reported in income tax expense as income tax windfalls and shortfalls associated with the vesting of stock-based compensation is now recorded in income tax expense, rather than additional paid-in capital, when applicable. This new guidance resulted in the Company recognizing approximately \$59 and \$1,098 of income tax expense for tax shortfalls related to stock-based compensation vesting occurring during the three and six months ended June 30, 2017, respectively. This had the effect of reducing basic and diluted EPS by \$0.01 for the six months ended June 30, 2017 (See Notes 11 and 12).

In February 2016, the FASB issued ASU 2016-02, *Leases* (ASU 2016-02), which requires lessees to include most leases on the balance sheet. ASU 2016-02 is effective for fiscal years (and interim reporting periods within those years) beginning after December 15, 2018 and early adoption is permitted. The Company is currently evaluating the impact that the standard will have on its consolidated financial statements (See Note 8).

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments – Recognition and Measurement of Financial Assets and Financial Liabilities* (ASU 2016-01). The main objective of the standard is to enhance the reporting model for financial instruments to provide users of financial statements with more decision-useful information. The amendments in the update make targeted improvements to generally accepted accounting principles. These include requiring equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. Available-for-sale classification for equity investments with readily determinable fair values will no longer be permissible. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or similar investment of the same issuer. The update also simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment. When a qualitative assessment indicates that impairment exists, an entity is required to measure the investment at fair value. ASU 2016-01 is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is not permitted for the updates currently applicable to the Company. The Company's equity investments with readily determinable fair values are all currently measured at fair value with changes in fair value recognized in net income. The Company will apply the amendments in this update when assessing the carrying value of its investments, held at cost.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), which is a new comprehensive revenue recognition standard on the financial reporting requirements for revenue from contracts entered into with customers. In July 2015, the FASB deferred this ASU's effective date by one year, to interim and annual periods beginning after December 15, 2017. The deferral allows early adoption at the original effective date. During 2016, the FASB issued ASU 2016-08, which clarifies principal versus agent considerations, ASU 2016-10, which clarifies identifying performance obligations and the licensing implementation guidance, and ASU 2016-12, which amends certain aspects of the new revenue recognition standard pursuant to ASU 2014-09. ASU 2014-09 allows for the use of either the retrospective or modified retrospective adoption method. The implementation of this standard will not have a material impact on the Company's consolidated financial statements.

3. Cash and Cash Equivalents

Cash and cash equivalents of approximately \$48,178 and \$56,484 at June 30, 2017 and December 31, 2016, respectively, were held at one financial institution. At June 30, 2017 and December 31, 2016, cash equivalents were approximately \$45,841 and \$55,619, respectively.

4. Securities Owned and Securities Sold, but not yet Purchased (and Fair Value Measurement)

Securities owned and securities sold, but not yet purchased are measured at fair value. The fair value of securities is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., "the exit price") in an orderly transaction between market participants at the measurement date. ASC 820, *Fair Value Measurements*, establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from independent sources. Unobservable inputs reflect assumptions that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the transparency of inputs as follows:

- Level 1 – Quoted prices for identical instruments in active markets.
- Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.
- Level 3 – Instruments whose significant drivers are unobservable.

[Table of Contents](#)

The availability of observable inputs can vary from product to product and is effected by a wide variety of factors, including, for example, the type of product, whether the product is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by management in determining fair value is greatest for instruments categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair Valuation Methodology

Cash and Cash Equivalents – These financial assets represent cash in banks or cash invested in highly liquid investments with original maturities less than 90 days. These investments are valued at par, which approximates fair value, and are considered Level 1 (See Note 3).

Securities (Held-to-Maturity) – These securities are Federal agency debt instruments which are instruments that are generally traded in active, quoted and highly liquid markets and are therefore classified as Level 1 within the fair value hierarchy (See Note 5).

Securities Owned/Sold But Not Yet Purchased – These securities consist of securities classified as trading and AFS, as follows:

	<u>June 30, 2017</u>	<u>December 31, 2016</u>
Securities Owned		
Trading securities	\$ 408	\$ 1,556
Available-for-sale securities	49,336	57,351
Total	<u>\$49,744</u>	<u>\$ 58,907</u>
Securities Sold, but not yet Purchased		
Trading securities	\$ 27	\$ 1,248
Available-for-sale securities	—	—
Total	<u>\$ 27</u>	<u>\$ 1,248</u>

Trading securities are investments in ETFs. These instruments are generally traded in active, quoted and highly liquid markets and are therefore classified as Level 1 within the fair value hierarchy. AFS securities are investments in short-term investment grade corporate bonds and are classified as Level 2. Fair value is generally derived from observable bids for these Level 2 financial instruments.

AFS Securities

The following table summarizes unrealized gains, losses and fair value of the AFS securities:

	<u>June 30, 2017</u>	<u>December 31, 2016</u>
Cost	\$49,818	\$ 57,615
Gross unrealized gains in other comprehensive income	—	—
Gross unrealized losses in other comprehensive income	(482)	(264)
Fair value	<u>\$49,336</u>	<u>\$ 57,351</u>

All the Company's AFS securities are due within one year. The Company assesses the AFS securities for other-than-temporary impairment on a quarterly basis. No AFS securities were determined to be other-than-temporarily impaired at June 30, 2017 or December 31, 2016.

During the three and six months ended June 30, 2017, the Company received \$25,065 and \$46,065, respectively, of proceeds from the sale and maturity of available-for-sale securities and recognized gross realized losses of \$236 and \$412, respectively. These losses have been reclassified out of accumulated other comprehensive income and into other income within the Consolidated Statements of Operations.

Interests Held in Tradeworx, Inc.

On June 20, 2017, the Company was issued newly authorized preferred stock of Tradeworx, Inc. (“Tradeworx”) and a warrant to purchase additional preferred stock in connection with the resolution of a dispute related to the Company’s ownership stake in Tradeworx. The fair value of the preferred stock was \$6,909 and is included within Investments on the Consolidated Balance Sheets (See Note 6). The fair value of the warrant was determined to be insignificant.

The fair value of these interests held were derived from an enterprise valuation of Tradeworx prepared as of April 30, 2017. The Tradeworx enterprise valuation was determined through a combination of a market approach (Guideline Public Company Method) and income approach (discounted cash flow analyses) applied to its business lines. These approaches are predominantly based on unobservable inputs and therefore the valuation of these interests held are classified as Level 3. The table below presents the ranges and weighted averages of significant unobservable inputs used in these approaches to determine the enterprise value of Tradeworx.

<u>Market Approach</u> ⁽¹⁾	<u>Range (Weighted Average)</u>
Revenue multiple	0.9x
<u>Income Approach</u> ⁽¹⁾	<u>Range (Weighted Average)</u>
Weighted average cost of capital (“WACC”)	11.5% – 14.5% (12.6%)

(1) The approach and inputs selected varied, based upon the Tradeworx business line being valued.

An increase in the revenue multiple would result in a higher enterprise value, whereas, an increase in the WACC would reduce fair value.

5. Securities Held-to-Maturity

The following table is a summary of the Company’s securities held-to-maturity:

	<u>June 30, 2017</u>	<u>December 31, 2016</u>
Federal agency debt instruments (amortized cost)	\$21,149	\$ 22,496

The following table summarizes unrealized gains, losses, and fair value of securities held-to-maturity:

	<u>June 30, 2017</u>	<u>December 31, 2016</u>
Cost/amortized cost	\$21,149	\$ 22,496
Gross unrealized gains	11	13
Gross unrealized losses	(1,271)	(1,353)
Fair value	\$19,889	\$ 21,156

The Company assesses these securities for other-than-temporary impairment on a quarterly basis. No securities were determined to be other-than-temporarily impaired at June 30, 2017 or December 31, 2016. The Company does not intend to sell these securities and it is not more likely than not that the Company will be required to sell the securities before recovery of their amortized cost bases, which may be maturity.

The following table sets forth the maturity profile of the securities held-to-maturity; however, these securities may be called prior to maturity date:

	<u>June 30, 2017</u>	<u>December 31, 2016</u>
Due within one year	\$ 2,999	\$ 3,994
Due one year through five years	16	1,023
Due five years through ten years	4,029	4,031
Due over ten years	14,105	13,448
Total	\$21,149	\$ 22,496

6. Investments, Carried at Cost

The following table sets forth the Company's investments, carried at cost:

	June 30, 2017	December 31, 2016
AdvisorEngine Inc.	\$25,000	\$ 20,000
Tradeworx, Inc.	6,909	—
Total	<u>\$31,909</u>	<u>\$ 20,000</u>

AdvisorEngine Inc.

On November 18, 2016, the Company made a \$20,000 strategic investment in AdvisorEngine Inc. ("AdvisorEngine"), an end-to-end wealth management platform which enables individual customization of investment philosophies. The Company and AdvisorEngine also entered into an agreement whereby the Company's asset allocation models are made available through AdvisorEngine's open architecture platform and the Company actively introduces the platform to its distribution network. In consideration of its investment, the Company received 11,811,856 shares of Series A convertible preferred shares ("Series A Preferred").

The Series A Preferred is convertible into common stock at the option of the Company and contains various rights and protections including a non-cumulative 6.0% dividend, payable if and when declared by the board of directors, and a liquidation preference that is senior to all other holders of capital stock of AdvisorEngine.

On April 27, 2017, the Company invested an additional \$5,000 in AdvisorEngine to help facilitate AdvisorEngine's acquisition of Kredible Technologies, Inc., a technology enabled, research-driven practice management firm designed to help advisors acquire new clients, and to continue to fuel AdvisorEngine's growth, leadership and innovation in the advisor solutions space. The Company received 2,646,062 shares of Series A-1 convertible preferred stock which has substantially the same terms as the Series A Preferred.

The Company's aggregate equity ownership interest in AdvisorEngine is approximately 47% (or 41% on a fully-diluted basis). The investment is accounted for under the cost method of accounting as it is not considered to be in-substance common stock and is assessed for impairment on a quarterly basis. No impairment existed at June 30, 2017 or December 31, 2016.

Tradeworx

On June 20, 2017, the Company was issued 7,797,533 newly authorized shares of Series Y preferred stock ("Series Y Preferred") of Tradeworx in connection with the resolution of a dispute related to the Company's ownership stake in Tradeworx (See Note 8). The Series Y Preferred represents ownership of 19.99% of Tradeworx on a fully diluted basis (excluding certain reserved shares). In addition, the Company was issued a warrant to purchase 3,898,766 shares of Series Y Preferred.

The Series Y Preferred ranks *pari passu* in priority with Tradeworx's current preferred stockholders, has a liquidation preference of \$0.231 per share, contains various rights and protections and is convertible into common stock at the option of the Company. The warrant is exercisable for five years after closing, at varying exercise prices that increase over time and set at multiples of a pre-determined Tradeworx valuation (or new valuation if Tradeworx completes a qualified financing, as defined, within two years). If a claim is brought against Tradeworx or the Company relating to the settlement, the warrant will be exercisable for 100% of the number of shares of Series Y Preferred issued to the Company at closing.

The Company recorded the Series Y Preferred at its fair value of \$6,909 (See Note 4). The Series Y Preferred is not considered to be in-substance common stock and is therefore accounted for under the cost method of accounting and is assessed for impairment on a quarterly basis. The fair value of the warrant was determined to be insignificant. The warrant is not accounted for as a derivative as it cannot be net settled and is not readily convertible to cash.

7. Fixed Assets

The following table summarizes fixed assets:

	June 30, 2017	December 31, 2016
Equipment	\$ 1,860	\$ 1,739
Furniture and fixtures	2,415	2,393
Leasehold improvements	11,009	10,877
Less accumulated depreciation and amortization	(3,966)	(3,261)
Total	<u>\$11,318</u>	<u>\$ 11,748</u>

8. Commitments and Contingencies

Contractual Obligations

The Company has entered into obligations under operating leases with initial non-cancelable terms in excess of one year for office space, telephone and data services. Expenses recorded under these agreements for the three months ended June 30, 2017 and 2016 were approximately \$1,030 and \$1,033, respectively, and for the six months ended June 30, 2017 and 2016 were approximately \$2,150 and \$2,018, respectively.

Future minimum lease payments with respect to non-cancelable operating leases at June 30, 2017 were approximately as follows:

Remainder of 2017	\$ 2,051
2018	5,551
2019	2,998
2020	2,870
2021 and thereafter	24,079
Total	<u>\$37,549</u>

Letter of Credit

The Company collateralized its U.S. office lease through a standby letter of credit totaling \$1,384. The collateral is included in cash and cash equivalents on the Company's Consolidated Balance Sheets.

Settlement – Tradeworx

A few years ago, a dispute arose related to the Company's ownership stake in Tradeworx. In March 2015, the Company was named a party in a lawsuit in the Delaware Court of Chancery pursuant to which a stockholder of Tradeworx sought to have the shares held by the Company invalidated. In August 2016, the court dismissed the claims brought against the Company and Tradeworx (as a nominal defendant), but the number of shares of Tradeworx owned by the Company remained in dispute. On June 20, 2017, the Company, Tradeworx and certain material stockholders of Tradeworx reached an agreement related to the dispute, pursuant to which (i) the litigation was dismissed; (ii) the parties released and agreed not to sue each other with respect to the related claims in the lawsuit; (iii) Tradeworx agreed to indemnify the Company against any such claims; (iv) the Company exchanged its current shares in Tradeworx for new shares of Tradeworx stock and a warrant in accordance with the terms of an equity exchange agreement as described below; and (v) the Company and Tradeworx entered into a stockholders agreement providing for certain rights and obligations of the Company and Tradeworx as described below.

Pursuant to the equity exchange agreement, the Company was issued shares of newly authorized preferred stock reflecting ownership of 19.99% of Tradeworx on a fully diluted basis (excluding certain reserved shares). The shares of preferred stock rank *pari passu* in priority with Tradeworx's current preferred stockholders. In addition, Tradeworx issued the Company a warrant to purchase up to an additional 50% of the number of shares of preferred stock issued to the Company at closing, exercisable for five years after the closing, at varying exercise prices that increase over time and set at multiples of a pre-determined Tradeworx valuation (or a new valuation if Tradeworx completes a qualified financing, as defined, within two years). If a claim is brought against Tradeworx or the Company relating to the settlement, the warrant will be exercisable for 100% of the number of shares of preferred stock issued to the Company at closing. Pursuant to the stockholders agreement, the Company has the right to appoint one of five directors to Tradeworx's board of directors, as well as additional customary rights, including (i) consent rights on certain transactions (e.g., related-party transactions and certain changes to organizational documents); (ii) pre-emptive rights on future issuances of shares, subject to customary carve-outs; (iii) information rights; and (iv) registration rights.

During the three months ended June 30, 2017, the Company recorded a pre-tax gain of \$6,909 representing the fair value of the Tradeworx preferred stock it received in connection with this settlement (See Note 4). The fair value of the warrant was determined to be insignificant. This amount has been recorded as settlement gain on the Consolidated Statements of Operations.

Contingencies

The Company may be subject to reviews, inspections and investigations by regulatory authorities as well as legal proceedings arising in the ordinary course of business. The Company is not currently party to any litigation that is expected to have a material adverse impact on its business, financial position, results of operations or cash flows.

9. Related Party Transactions

The Company's revenues are derived primarily from investment advisory agreements with related parties. Under these agreements, the Company has licensed to related parties the use of certain of its own indexes for the U.S. and Canadian WisdomTree ETFs and WisdomTree UCITS ETFs. The Board of Trustees and Board of Directors of the related parties are primarily responsible for overseeing the management and affairs of the U.S. and Canadian WisdomTree ETFs, Boost ETPs and WisdomTree UCITS ETFs for the benefit of their shareholders and have contracted with the Company to provide for general management and administration services. The Company is also responsible for certain expenses of the related parties, including the cost of transfer agency, custody, fund administration and accounting, legal, audit, and other non-distribution services, excluding extraordinary expenses, taxes and certain other expenses, which is included in fund management and administration on the Company's Consolidated Statements of Operations. In exchange, the Company receives fees based on a percentage of the ETF average daily net assets. The advisory agreements may be terminated by the related parties upon notice. Certain officers of the Company also provide general management oversight of the related parties; however, these officers have no material decision making responsibilities and primarily implement the decisions of the Board of Trustees and Board of Directors of the related parties.

The following table summarizes accounts receivable from related parties which are included as a component of Accounts receivable on the Company's Consolidated Balance Sheets:

	June 30, 2017	December 31, 2016
Receivable from WTT	\$17,864	\$ 16,506
Receivable from BI and WTI	968	645
Receivable from WTCS	101	158
Receivable from WTAMC	33	40
Total	<u>\$18,966</u>	<u>\$ 17,349</u>

The following table summarizes revenues from advisory services provided to related parties:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Advisory services provided to WTT	\$ 53,311	\$ 53,587	\$103,767	\$112,229
Advisory services provided to BI and WTI	2,383	1,870	4,538	3,393
Advisory services provided to WTCS	330	474	900	924
Advisory services provided to WTAMC	90	—	171	—
Total	<u>\$ 56,114</u>	<u>\$ 55,931</u>	<u>\$109,376</u>	<u>\$116,546</u>

10. Stock-Based Awards

The Company grants equity awards to employees and directors which include restricted stock awards, restricted stock units and stock options. Stock options may be issued for terms of ten years and may vest after at least one year and have an exercise price equal to the Company's stock price on the grant date. Restricted stock awards and restricted stock units are generally valued based on the Company's stock price on the grant date. The Company estimates the fair value for stock options using the Black-Scholes option pricing model. All restricted stock awards, restricted stock units and stock option awards require future service as a condition of vesting with certain awards subject to acceleration under certain conditions.

On June 20, 2016, the Company's stockholders approved a new equity award plan under which the Company can issue up to 10,000,000 shares of common stock (less one share for every share granted under prior plans since March 31, 2016 and inclusive of shares available under the prior plans as of March 31, 2016) in the form of stock options and other stock-based awards. The Company also has issued from time to time stock-based awards outside a plan.

Stock-based compensation expense for the three months ended June 30, 2017 and 2016 was approximately \$3,530 and \$3,767, respectively, and for the six months ended June 30, 2017 and 2016 was approximately \$6,951 and \$7,270, respectively.

[Table of Contents](#)

A summary of unrecognized stock-based compensation expense and average remaining vesting period is as follows:

	June 30, 2017	
	Unrecognized Stock- Based Compensation	Average Remaining Vesting Period
Employees and directors	\$ 20,999	1.80

A summary of stock options, restricted stock and restricted stock unit activity for the three months ended June 30, 2017 is as follows:

	Stock Options	Restricted Stock Awards	Restricted Stock Units
Balance at April 1, 2017	1,363,247	2,105,743	3,759
Granted	—	229,908	—
Exercised/vested	(37,300)	(87,480)	—
Forfeitures	—	(6,538)	(1,483)
Balance at June 30, 2017	<u>1,325,947</u>	<u>2,241,633</u>	<u>2,276</u>

11. Earnings Per Share

The following is a reconciliation of the basic and diluted earnings per share computation:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Net income	\$ 12,105	\$ 3,651	\$ 18,985	\$ 15,723
	(shares in thousands)		(shares in thousands)	
Shares of common stock and common stock equivalents :				
Weighted average common shares used in basic computation	134,557	134,115	134,472	134,791
Dilutive effect of common stock equivalents	1,017	1,017	1,141	798
Weighted average common shares used in dilutive computation	<u>135,574</u>	<u>135,132</u>	<u>135,613</u>	<u>135,589</u>
Basic earnings per share	\$ 0.09	\$ 0.03	\$ 0.14	\$ 0.11
Diluted earnings per share	\$ 0.09	\$ 0.03	\$ 0.14	\$ 0.11

In the table above, unvested share-based awards that have non-forfeitable rights to dividends or dividend equivalents are treated as a separate class of securities in calculating earnings per share under the two-class method. The impact of applying this methodology was a reduction in basic and diluted earnings per share of \$0.01 for the six months ended June 30, 2016.

Diluted earnings per share is calculated under both the treasury stock and two-class method and reflects the reduction in earnings per share assuming options or other contracts to issue common stock were exercised or converted into common stock (if dilutive). The calculation that results in the most dilutive earnings per share amount for the common stock is reported in the Company's consolidated financial statements. The Company excluded 1,951,683 and 778,862 common stock equivalents from its computation of diluted earnings per share for the three months ended June 30, 2017 and 2016, respectively, and 1,780,397 and 2,155,219 common stock equivalents from its computation of diluted earnings per share for the six months ended June 30, 2017 and 2016, respectively, as they were determined to be anti-dilutive.

As further discussed in Note 12, the Company adopted ASU 2016-09 prospectively effective January 1, 2017 which had the effect of reducing basic and diluted earnings per share by \$0.01 for the six months ended June 30, 2017.

12. Income Taxes

Effective Income Tax Rate – Three and Six Months Ended June 30, 2017

The Company's effective income tax rate for the three months ended June 30, 2017 of 45.5% resulted in income tax expense of \$10,120. The Company's tax rate differs from the federal statutory tax rate of 35% primarily due to a valuation allowance on foreign net operating losses and state and local income taxes.

[Table of Contents](#)

The Company's effective income tax rate for the six months ended June 30, 2017 of 48.8% resulted in income tax expense of \$18,062. The Company's tax rate differs from the federal statutory tax rate of 35% primarily due to a valuation allowance on foreign net operating losses, tax shortfalls associated with the vesting of stock-based compensation awards and state and local income taxes.

Effective January 1, 2017, US GAAP was amended with the intention to simplify the accounting for stock-based compensation. This includes the requirement to record the tax effects related to stock-based compensation within income tax expense, rather than additional paid-in capital, when applicable. Therefore, tax shortfalls (and tax windfalls) associated with the vesting of stock-based compensation awards are now included within income tax expense. This new guidance resulted in the recognition of \$59 and \$1,098 of income tax expense associated with tax shortfalls recognized upon vesting of stock-based compensation awards for the three and six months ended June 30, 2017, respectively.

Effective Income Tax Rate – Three and Six Months Ended June 30, 2016

The Company's effective income tax rate for the three and six months ended June 30, 2016 of 67.3% and 52.1%, respectively, resulted in income tax expense of \$7,505 and \$17,105, respectively. The Company's tax rate differs from the federal statutory tax rate of 35% primarily due to the acquisition payment expense (which is non-deductible), a valuation allowance on foreign net operating losses and state and local income taxes.

Net Operating Losses – U.S.

The Company's pre-tax federal net operating losses for tax purposes ("NOLs") at June 30, 2017 was \$3,671 which expire in 2024. The net operating loss carryforwards have been reduced by the impact of annual limitations described in the Internal Revenue Code Section 382 that arose as a result of an ownership change.

Net Operating Losses – International

The Company's European and Canadian subsidiaries generated NOLs outside the U.S. These tax effected NOLs were \$2,821 at June 30, 2017. The Company established a full valuation allowance related to these NOLs as it is more-likely-than-not that some portion, or all, of the deferred tax assets will not be realized.

Deferred Tax Assets

A summary of the components of the Company's deferred tax asset is as follows:

	<u>June 30, 2017</u>	<u>December 31, 2016</u>
Deferred tax assets:		
Accrued expenses	\$ 3,168	\$ 4,552
Stock-based compensation	3,085	5,382
NOLs – Foreign	2,821	4,551
Deferred rent liability	1,987	2,024
NOLs – U.S.	1,410	1,611
Unrealized losses, net	—	101
Other	387	227
Deferred tax assets	<u>12,858</u>	<u>18,448</u>
Deferred tax liabilities:		
Fixed assets	2,405	2,405
Unrealized gains, net	2,473	—
Incentive compensation	682	1,365
Goodwill and intangible assets	451	301
Deferred tax liabilities	<u>6,011</u>	<u>4,071</u>
Total deferred tax assets less deferred tax liabilities	6,847	14,377
Less: valuation allowance	<u>(2,821)</u>	<u>(4,551)</u>
Deferred tax assets, net	<u>\$ 4,026</u>	<u>\$ 9,826</u>

13. Shares Repurchased

On October 29, 2014, the Company's Board of Directors authorized a three-year share repurchase program of up to \$100,000. On April 27, 2016, the Board of Directors approved a \$60,000 increase to the Company's share repurchase program and extended the term through April 27, 2019. Included under this program are purchases to offset future equity grants made under the Company's equity plans and are made in open market or privately negotiated transactions. This authority may be exercised from time to time and in such amounts as market conditions warrant, and subject to regulatory considerations. The timing and actual number of shares repurchased depends on a variety of factors including price, corporate and regulatory requirements, market conditions and other corporate liquidity requirements and priorities. The repurchase program may be suspended or terminated at any time without prior notice. Shares repurchased under this program are returned to the status of authorized and unissued on the Company's books and records.

During the three and six months ended June 30, 2017, the Company repurchased 7,967 and 354,496 shares of its common stock, respectively, under this program for an aggregate cost of \$65 and \$3,693, respectively.

During the three and six months ended June 30, 2016, the Company repurchased 8,018 and 3,415,323 shares of its common stock, respectively, under this program for an aggregate cost of \$99 and \$35,654, respectively.

As of June 30, 2017, \$92,811 remains available under this program for future purchases.

14. Goodwill and Intangible Assets

Goodwill has been allocated to the Company's U.S. Business reporting unit and is deductible for tax purposes. The Company has designated April 30th as its annual goodwill impairment testing date. The following table summarizes the goodwill activity during the period:

	U.S. Business Reporting Unit
Balance at April 1, 2017	\$ 1,799
Increases/(decreases)	—
Balance at June 30, 2017	<u>\$ 1,799</u>

Goodwill was tested for impairment on April 30, 2017. The fair value of the reporting unit exceeded its carrying value and therefore no impairment was recognized.

Intangible Asset (Indefinite-Lived)

As part of the GreenHaven acquisition which occurred on January 1, 2016, the Company identified an intangible asset valued at \$9,953 related to its customary advisory agreement with the GreenHaven Commodities ETF (renamed the WisdomTree Continuous Commodity Index Fund, or "GCC"). This intangible asset (which is deductible for tax purposes) was determined to have an indefinite useful life. The Company has designated November 30th as its annual impairment testing date for this indefinite-lived intangible asset.

	Total
Balance at April 1, 2017	\$9,953
Increases/(decreases)	—
Balance at June 30, 2017	<u>\$9,953</u>

15. Segment Reporting

The Company operates as an ETP sponsor and asset manager providing investment advisory services in the U.S., Europe, Canada and Japan. These activities are reported in the Company's U.S. Business and International Business reportable segments. The U.S. Business segment includes the results of the Company's U.S. operations and Japan sales office. The results of the Company's European and Canadian operations are reported as the International Business segment.

Information concerning these reportable segments are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Revenues (U.S. Business segment)				
Advisory fees	\$ 53,641	\$ 54,061	\$ 104,667	\$ 113,153
Settlement gain	6,909	—	6,909	—
Other income	508	387	1,820	608
Total revenues (U.S. Business segment)	\$ 61,058	\$ 54,448	\$ 113,396	\$ 113,761
Revenues (International Business segment)				
Advisory fees	\$ 2,473	\$ 1,870	\$ 4,709	\$ 3,393
Other loss	(103)	(337)	(78)	(295)
Total revenues (International Business segment)	\$ 2,370	\$ 1,533	\$ 4,631	\$ 3,098
Total revenues	\$ 63,428	\$ 55,981	\$ 118,027	\$ 116,859
Income/(loss) before taxes				
U.S. Business segment	\$ 25,310	\$ 20,084	\$ 43,218	\$ 44,294
International Business segment	(3,085)	(8,928)	(6,171)	(11,466)
Total income before taxes	\$ 22,225	\$ 11,156	\$ 37,047	\$ 32,828

Assets are not reported by segment as such information is not utilized by the chief operating decision maker. The vast majority of the Company's assets are located in the U.S.

16. Subsequent Events

The Company has evaluated subsequent events through the date of issuance of the accompanying consolidated financial statements. There were no events requiring disclosure.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read together with our consolidated financial statements and the related notes and the other financial information included elsewhere in this Report. In addition to historical consolidated financial information, the following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements. Factors that could cause or contribute to these differences include those discussed below. For a more complete description of the risks noted above and other risks that could cause our actual results to materially differ from our current expectations, please see Item 1A "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016. We assume no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by law.

Executive Summary

Introduction

We are one of the leading ETP sponsors in the world (based on AUM), with AUM of \$44.7 billion globally as of June 30, 2017. An ETP is a pooled investment vehicle that holds a basket of financial instruments, securities or other assets and generally seeks to track (index-based) or outperform (actively managed) the performance of a broad or specific equity, fixed income or alternatives market segment, commodity or currency (or an inverse or multiple thereof). ETPs are listed on an exchange with their shares traded in the secondary market at market prices, generally at approximately the same price as the net asset value of their underlying components. ETP is an umbrella term that includes ETFs, exchange-traded notes and exchange-traded commodities.

Through our operating subsidiaries, we provide investment advisory and other management services to the WisdomTree ETFs and Boost ETPs collectively offering ETPs covering equity, fixed income, currency, alternatives and commodity asset classes. In exchange for providing these services, we receive advisory fee revenues based on a percentage of the ETPs' average daily AUM. Our expenses are predominantly related to selling, operating and marketing our ETPs. We have contracted with third parties to provide certain operational services for the ETPs. We distribute our ETPs through all major channels within the asset management industry, including brokerage firms, registered investment advisers, institutional investors, private wealth managers and discount brokers primarily through our sales force. Our sales efforts are not directed towards the retail segment but rather are directed towards financial or investment advisers that act as intermediaries between the end-client and us. Recent investments in technology-enabled services including portfolio construction, asset allocation, practice management services and the AdvisorEngine platform have been made in order to differentiate us in the market, expand our distribution and further enhance our relationships with financial advisors.

A significant portion of our AUM is invested in securities issued outside of the U.S. Therefore, our AUM and revenues are affected by movements in global capital market levels and the strengthening or weakening of the U.S. dollar against other currencies. As the chart below reflects, as of June 30, 2017, 41% of our U.S. AUM was concentrated in two products with similar strategies – HEDJ, our European equity ETF which hedges exposure to the Euro, and DXJ, our Japanese equity ETF which hedges exposure to the Yen. The strengthening of the Euro or Yen against the U.S. dollar, or the decline in European or Japanese equity markets, may have an adverse effect on our results.

Market Environment

The U.S. markets were relatively subdued during the second quarter of 2017 as political uncertainty raised doubts regarding the ability to implement regulatory and tax reform. International and emerging markets benefited from a positive economic backdrop. However, the Eurozone experienced a pullback toward the end of the quarter due to speculation that central banks may begin withdrawing stimulus measures. This also had the effect of negatively weighing on the U.S. dollar and has recently tempered investor sentiment toward emerging markets.

The S&P 500 rose 3.1%, MSCI EAFE (local currency) rose 2.9% and MSCI Emerging Markets Index (U.S. dollar) rose 6.4% in the second quarter. In addition, the European and Japan equity markets appreciated with the MSCI EMU Index rising 1.8% and MSCI Japan Index rising 6.1%, both in local currency terms. Also, the U.S. dollar weakened 6.5% versus the Euro and was essentially unchanged versus the Yen during the second quarter.

The vast majority of our global AUM is in U.S. listed ETFs. As the charts below reflect, industry flows for the second quarter of 2017 reached \$112.1 billion. International equities, fixed income, U.S. equities and emerging markets equities gathered the majority of those flows.

Business Segments

We operate as an ETP sponsor and asset manager providing investment advisory services in the U.S., Europe, Canada and Japan. These activities are reported in our U.S. Business and International Business segments, as follows:

- **U.S. Business segment**: Our U.S. business and Japan sales office, which primarily engages in selling our U.S. listed ETFs to Japanese institutions; and
- **International Business segment**: Our European business which commenced in April 2014 in connection with our acquisition of U.K. based ETP sponsor Boost ETP, LLP (“Boost”) and our Canadian business which launched its first six ETFs in July 2016.

Our Operating and Financial Results

U.S. Business Segment

Our U.S. listed AUM increased from \$41.9 billion as of March 31, 2017 to \$43.2 billion as of June 30, 2017 primarily due to market appreciation and net inflows. We experienced net inflows into our U.S. listed ETFs, including within our international equity, U.S. equity, emerging markets, alternative strategy and fixed income ETFs. Inflows into these categories were partly offset by outflows from our Japan equity ETF (DXJ).

International Business Segment

Our International ETFs had net inflows of \$162.1 million in the second quarter of 2017. This was a result of inflows of \$102.8 million into our European listed ETPs, \$44.0 million into our UCITS ETFs and \$15.3 million into our Canadian listed ETFs. Our International AUM increased from \$1.4 billion as of March 31, 2017 to \$1.5 billion as of June 30, 2017 primarily due to net inflows and partly offset by market depreciation.

Consolidated Operating Results

Our revenues, expenses and net income are as follows:

- *Revenues* – We recorded revenues of \$63.4 million in the three months ended June 30, 2017, up 13.3% from the three months ended June 30, 2016 primarily due to a settlement gain of \$6.9 million.
- *Expenses* – Total expenses decreased 8.1% from the three months ended June 30, 2016 to \$41.2 million primarily due to the \$6.0 million acquisition payment recorded in the prior period.
- *Net income* – Net income increased \$8.5 million from the three months ended June 30, 2016 to \$12.1 million.

Key Operating Statistics

The following table presents key operating statistics that serve as indicators for the performance of our business:

Overview – Global AUM (June 30, 2017 and June 30, 2016)

Our global AUM increased 14.7% from \$39.0 billion at June 30, 2016 to \$44.7 billion at June 30, 2017. This was primarily due to market appreciation of our U.S. listed ETFs and net inflows into our U.S. equity ETFs and our European listed ETPs. These increases were partly offset by outflows primarily in our two largest ETFs, HEDJ and DXJ.

Overview – Three Months Ended June 30, 2017 and June 30, 2016

During the three months ended June 30, 2017, our U.S. listed AUM increased 3.0%, from \$41.9 billion at March 31, 2017 to \$43.2 billion at June 30, 2017. This increase was primarily driven by market appreciation and net inflows. Our U.S. listed AUM decreased 14.0% during the three months ended June 30, 2016, primarily due to net outflows from our two largest ETFs, HEDJ and DXJ, as well as market depreciation.

We reported pre-tax income of \$22.2 million for the three months ended June 30, 2017, an increase of 99.2% from the three months ended June 30, 2016 due to a combination of higher revenues and lower expenses, and we reported net income of \$12.1 million for the three months ended June 30, 2017 compared to \$3.7 million for the three months ended June 30, 2016.

[Table of Contents](#)

Advisory fees

Advisory fees of \$56.1 million were relatively unchanged from the three months ended June 30, 2016 as an increase in our average global AUM was offset by lower average U.S. advisory fees due to a change in product mix. Our average global AUM increased primarily due to market appreciation of our U.S. listed ETFs and net inflows into our U.S. equity ETFs and our European listed ETPs. These increases were partly offset by outflows primarily in our two largest ETFs. The changes in product mix resulted in our average U.S. ETF advisory fee for our U.S. listed ETFs declining from 0.52% for the three months ended June 30, 2016 to 0.50% for the three months ended June 30, 2017.

Settlement gain

Settlement gain of \$6.9 million recorded during the three months ended June 30, 2017 represents the fair value of the Tradeworx, Inc. (“Tradeworx”) preferred stock received in connection with the resolution of a dispute between Tradeworx and the Company. See Note 8 to our Consolidated Financial Statements.

Other income

Other income increased \$0.3 million from \$0.1 million in the three months ended June 30, 2016 to \$0.4 million in the comparable period in 2017 primarily due to higher interest earned on our securities owned, at fair value.

Expenses

<i>(in thousands)</i>	Three Months Ended June 30,		Change	Percent Change
	2017	2016		
Compensation and benefits	\$ 18,421	\$ 14,343	\$ 4,078	28.4%

Acquisition payment	n/a	10.7%
Other	2.9%	3.3%
Total expenses	<u>65.0%</u>	<u>80.1%</u>

Compensation and benefits

Compensation and benefits expense increased 28.4% from \$14.3 million in the three months ended June 30, 2016 to \$18.4 million in the comparable period in 2017 primarily due to higher accrued incentive compensation and other headcount related expenses. Headcount of our U.S. Business segment was 157 and our International Business segment was 47 at June 30, 2016 compared to 166 and 46, respectively, at June 30, 2017.

[Table of Contents](#)

Fund management and administration

Fund management and administration expense decreased 4.8% from \$10.6 million in the three months ended June 30, 2016 to \$10.1 million in the comparable period in 2017. This decrease was primarily attributable to lower fund costs for our U.S. Business segment due to a lower number of ETPs partly offset by higher average AUM of both our U.S. Business and International Business segments. We had 99 U.S. listed ETFs and 83 European ETPs at June 30, 2016 compared to 90 U.S. listed ETFs, 85 European ETPs and 8 Canadian listed ETFs at June 30, 2017.

Marketing and advertising

Marketing and advertising expense decreased 16.2% from \$4.6 million in the three months ended June 30, 2016 to \$3.8 million in the comparable period in 2017 primarily due to lower levels of advertising related activities within our U.S. Business segment.

Sales and business development

Sales and business development expense decreased 11.6% from \$3.8 million in the three months ended June 30, 2016 to \$3.4 million in the comparable period in 2017 primarily due to lower spending on sales related activities within our U.S. Business segment.

Professional and consulting fees

Professional and consulting fees were essentially unchanged from the three months ended June 30, 2016.

Occupancy, communications and equipment

Occupancy, communications and equipment expense was essentially unchanged from the three months ended June 30, 2016.

Depreciation and amortization

Depreciation and amortization expense was essentially unchanged from the three months ended June 30, 2016.

Third-party sharing arrangements

Third-party sharing arrangements was essentially unchanged from the three months ended June 30, 2016.

Acquisition payment

Acquisition payment expense was \$6.0 million in the three months ended June 30, 2016 as a result of the acceleration of the buyout of the remaining minority interest in our European business.

Other

Other expense was essentially unchanged from the three months ended June 30, 2016.

Income taxes

Our effective income tax rate for the three months ended June 30, 2017 of 45.5% resulted in income tax expense of \$10.1 million. Our tax rate differs from the federal statutory tax rate of 35% primarily due to a valuation allowance on foreign net operating losses and state and local income taxes.

Our effective income tax rate for the three months ended June 30, 2016 of 67.3% resulted in income tax expense of \$7.5 million. Our tax rate differs from the federal statutory tax rate of 35% primarily due to the acquisition payment expense (which is non-deductible), a valuation allowance on foreign net operating losses and state and local income taxes.

Overview – Six Months Ended June 30, 2017 and June 30, 2016

Changes in our global AUM are primarily driven by changes in our U.S. listed AUM. Our U.S. listed AUM increased 7.5% during the six months ended June 30, 2017, from \$40.2 billion at January 1, 2017 to \$43.2 billion at June 30, 2017. This increase was primarily driven by market appreciation of \$2.5 billion and to a lesser extent, net inflows of \$0.5 billion. Our U.S. listed AUM decreased 26.3% during the six months ended June 30, 2016, primarily due to net outflows from our two largest ETFs, HEDJ and DXJ, as well as market depreciation.

We reported pre-tax income of \$37.0 million for the six months ended June 30, 2017, an increase of 12.9% from the six months ended June 30, 2016 due to a combination of higher revenues and lower expenses, and we reported net income of \$19.0 million for the six months ended June 30, 2017 compared to \$15.7 million for the six months ended June 30, 2016.

Revenues

	Six Months Ended June 30,		Change	Percent Change
	2017	2016		
Global AUM (in millions)				
Global - Average AUM	\$ 43,484	\$ 44,395	\$ (911)	(2.1%)
U.S. listed AUM (in millions)				
U.S. listed - Average AUM	\$ 42,125	\$ 43,527	\$(1,402)	(3.2%)
U.S. listed - Average ETF advisory fee	0.50%	0.52%	(0.02)	(3.8%)
Revenues (in thousands)				
Advisory fees	\$ 109,376	\$ 116,546	\$(7,170)	(6.2%)
Settlement gain	6,909	—	6,909	n/a
Other income	1,742	313	1,429	456.5%
Total revenues	<u>\$ 118,027</u>	<u>\$ 116,859</u>	<u>\$ 1,168</u>	1.0%

Advisory fees

Advisory fees revenues decreased 6.2% from \$116.5 million in the six months ended June 30, 2016 to \$109.4 million in the comparable period in 2017 due to declines in our average U.S. listed AUM and our average U.S. ETF advisory fee for our U.S. listed ETFs. Our average U.S. listed AUM declined primarily due to outflows from our two largest ETFs and was partly offset by market appreciation and net inflows into our U.S. equity ETFs. Our average U.S. ETF advisory fee for our U.S. listed ETFs declined from 0.52% for the six months ended June 30, 2016 to 0.50% for the six months ended June 30, 2017 due to changes in product mix.

[Table of Contents](#)*Settlement gain*

Settlement gain of \$6.9 million recorded during the six months ended June 30, 2017 represents the fair value of the Tradeworx preferred stock received in connection with the resolution of a dispute between Tradeworx and the Company. See Note 8 to our Consolidated Financial Statements.

Other income

Other income increased \$1.4 million from \$0.3 million in the six months ended June 30, 2016 to \$1.7 million in the comparable period in 2017. Included within other income for the six months ended June 30, 2017 was a one-time reimbursement of fund-related costs for prior years of \$0.8 million. In addition, other income increased due to higher interest earned on our securities owned, at fair value.

Expenses

<i>(in thousands)</i>	Six Months Ended June 30,		Change	Percent Change
	2017	2016		
Compensation and benefits	\$36,295	\$29,569	\$ 6,726	22.7%
Fund management and administration	19,712	20,665	(953)	(4.6%)
Marketing and advertising	7,362	8,398	(1,036)	(12.3%)
Sales and business development	6,351	6,281	70	1.1%
Professional and consulting fees	2,779	4,200	(1,421)	(33.8%)
Occupancy, communications and equipment	2,724	2,463	261	10.6%
Depreciation and amortization	689	646	43	6.7%
Third-party sharing arrangements	1,602	1,616	(14)	(0.9%)
Acquisition payment	—	6,738	(6,738)	n/a
Other	3,466	3,455	11	0.3%
Total expenses	\$80,980	\$84,031	\$(3,051)	(3.6%)

As a Percent of Revenues:	Six Months Ended June 30,	
	2017	2016
Compensation and benefits	30.8%	25.3%
Fund management and administration	16.7%	17.7%
Marketing and advertising	6.2%	7.2%
Sales and business development	5.4%	5.4%
Professional and consulting fees	2.3%	3.5%
Occupancy, communications and equipment	2.3%	2.1%
Depreciation and amortization	0.6%	0.5%
Third-party sharing arrangements	1.4%	1.4%
Acquisition payment	n/a	5.8%
Other	2.9%	3.0%
Total expenses	68.6%	71.9%

Compensation and benefits

Compensation and benefits expense increased 22.7% from \$29.6 million in the six months ended June 30, 2016 to \$36.3 million in the comparable period in 2017 primarily due to higher accrued incentive compensation and other headcount related expenses.

Fund management and administration

Fund management and administration expense decreased 4.6% from \$20.7 million in the six months ended June 30, 2016 to \$19.7 million in the comparable period in 2017. This decrease was primarily due to lower fund costs for our U.S. Business segment attributable to lower average AUM and a lower number of U.S. listed ETFs partly offset by the higher number of ETPs and higher average AUM of our International Business segment.

[Table of Contents](#)

Marketing and advertising

Marketing and advertising expense decreased 12.3% from \$8.4 million in the six months ended June 30, 2016 to \$7.4 million in the comparable period in 2017 primarily due to lower levels of advertising related activities within our U.S. Business segment.

Sales and business development

Sales and business development expense was essentially unchanged from the six months ended June 30, 2016.

Professional and consulting fees

Professional and consulting fees decreased 33.8% from \$4.2 million in the six months ended June 30, 2016 to \$2.8 million in the comparable period in 2017 primarily due to lower advisory fees associated with our GreenHaven acquisition which occurred in the first quarter of 2016 as well as lower corporate consulting related expenses.

Occupancy, communications and equipment

Occupancy, communications and equipment expense was essentially unchanged from the six months ended June 30, 2016.

Depreciation and amortization

Depreciation and amortization expense was essentially unchanged from the six months ended June 30, 2016.

Third-party sharing arrangements

Third-party sharing arrangements was essentially unchanged from the six months ended June 30, 2016.

Acquisition payment

Acquisition payment expense was \$6.7 million in the six months ended June 30, 2016 which included \$6.0 million recognized in the second quarter of 2016 as a result of the acceleration of the buyout of the remaining minority interest in our European business.

Other

Other expense was essentially unchanged from the six months ended June 30, 2016.

Income taxes

Our effective income tax rate for the six months ended June 30, 2017 of 48.8% resulted in income tax expense of \$18.1 million. Effective January 1, 2017, as required, we adopted ASU 2016-09, *Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*, which requires companies to record the tax effects related to stock-based compensation within income tax expense, rather than additional paid-in capital, when applicable. Therefore, tax shortfalls (and tax windfalls) associated with the vesting of stock-based compensation awards are now included within income tax expense. This guidance resulted in the recognition of \$1.1 million of income tax expense associated with tax shortfalls recognized upon vesting of stock-based compensation awards during the six months ended June 30, 2017 (substantially all of which was recorded during the first quarter of 2017). In addition, our tax rate differs from the federal statutory tax rate of 35% primarily due to a valuation allowance on foreign net operating losses and state and local income taxes.

Our effective income tax rate for the six months ended June 30, 2016 of 52.1% resulted in income tax expense of \$17.1 million. The Company's tax rate differs from the federal statutory tax rate of 35% primarily due to the acquisition payment expense (which is non-deductible), a valuation allowance on foreign net operating losses and state and local income taxes.

Three Months Ended June 30, 2017 Compared to Three Months Ended June 30, 2016

U.S. Business segment

Revenues of the U.S. Business segment increased 12.1% from \$54.4 million in the three months ended June 30, 2016 to \$61.1 million in the comparable period in 2017. This change was primarily attributable to settlement gain of \$6.9 million recorded in the current period. Advisory fees were relatively unchanged from the second quarter of 2016 as an increase in our average AUM was offset by lower average U.S. ETF advisory fees due to a change in product mix. Our average AUM increased primarily due to market appreciation and net inflows into our U.S. equity ETFs. These increases were partly offset by net outflows from our two largest ETFs, HEDJ and DXJ. The changes in product mix resulted in our average U.S. advisory fee declining from 0.52% in the three months ended June 30, 2016 to 0.50% in the current period.

Operating expenses of the U.S. Business segment increased 4.0% from \$34.4 million in the three months ended June 30, 2016 to \$35.7 million in the comparable period in 2017. The increase was attributable to by higher compensation expenses primarily due to higher accrued incentive compensation and other headcount related expenses. Headcount of our U.S. Business segment was 157 and 166 at June 30, 2016 and 2017, respectively. This increase as partly offset by lower fund management and administration expenses due to a lower number of ETFs partly offset by higher average AUM, as well as lower marketing expense and lower spending on sales related activities.

International Business segment

Revenues of the International Business segment increased 54.6% from \$1.5 million in the three months ended June 30, 2016 to \$2.4 million in the comparable period in 2017. This increase was attributable to higher average AUM which increased 53.1% from \$944.7 million in the three months ended June 30, 2016 to \$1.4 billion in the comparable period in 2017 primarily due to net inflows. In addition, in July 2016 we began distributing locally listed ETFs in Canada.

[Table of Contents](#)

Operating expenses of the International Business segment decreased 47.9% from \$10.5 million in the three months ended June 30, 2016 to \$5.5 million in the comparable period in 2017. Included within operating expenses for the three months ended June 30, 2016 was acquisition payment expense of \$6.0 million associated with the acceleration of the buyout of the remaining minority interest in our European business. Partly offsetting this item was an increase in compensation expense associated with higher average headcount.

Six Months Ended June 30, 2017 Compared to Six Months Ended June 30, 2016*U.S. Business segment*

Revenues of the U.S. Business segment were essentially unchanged from the six months ended June 30, 2016. Included within the six months ended June 30, 2017 was a settlement gain of \$6.9 million. In addition, revenues increased as compared to the prior period due to higher interest income on our securities owned, at fair value. Offsetting these items were lower advisory fee revenue due to declines in our average AUM which decreased 3.2% and lower average U.S. ETF advisory fees. Our average AUM declined primarily due to outflows from our two largest ETFs and was partly offset by market appreciation and net inflows into our U.S. equity ETFs. Our average U.S. ETF advisory fee declined from 0.52% for the six months ended June 30, 2016 to 0.50% for the six months ended June 30, 2017 due to changes in product mix.

Operating expenses of the U.S. Business segment increased 1.0% from \$69.5 million in the six months ended June 30, 2016 to \$70.2 million in the comparable period in 2017. The increase was attributable to higher compensation expenses primarily due to higher accrued incentive compensation and other headcount related expenses. This increase was offset by lower fund management and administration expenses due to lower average AUM and a lower number of ETFs, lower marketing expenses and lower spending on sales related activities. In addition, professional fees declined primarily as a result of fees incurred in the first quarter of 2016 associated with our GreenHaven acquisition.

International Business segment

Revenues of the International Business segment increased 38.8% from \$3.1 million in the six months ended June 30, 2016 to \$4.6 million in the comparable period in 2017. This increase was attributable to higher average AUM which increased 57.2% from \$944.7 million in the three months ended June 30, 2016 to \$1.4 billion in the comparable period in 2017 primarily due to net inflows. In addition, in July 2016 we began distributing locally listed ETFs in Canada.

Operating expenses of the International Business segment decreased 25.8% from \$14.6 million in the six months ended June 30, 2016 to \$10.8 million in the comparable period in 2017. Included within operating expenses for the six months ended June 30, 2016 was acquisition payment expense of \$6.7 million, including \$6.0 million associated with the acceleration of the buyout of the remaining minority interest in our European business during the second quarter of 2016. Partly offsetting this item was an increase in compensation expense associated with higher average headcount and higher spending on sales related activities. In addition, fund management and administration expenses increased due to higher average AUM.

Liquidity and Capital Resources

The following tables summarize key data regarding our liquidity, capital resources and use of capital to fund our operations:

	<u>June 30,</u> <u>2017</u>	<u>December 31,</u> <u>2016</u>
Balance Sheet Data (in thousands):		
Cash and cash equivalents	\$ 88,614	\$ 92,722
Securities owned, at fair value	49,744	58,907
Securities held-to-maturity	21,149	22,496
Accounts receivable	19,397	17,668
Total: Liquid assets	178,904	191,793
Less: Total liabilities	(41,394)	(48,423)
Total: Available liquidity	<u>\$ 137,510</u>	<u>\$ 143,370</u>

[Table of Contents](#)

	<u>Six Months Ended June 30,</u>	
	<u>2017</u>	<u>2016</u>
Cash Flow Data (in thousands):		
Operating cash flows	\$ 17,283	\$ 28,996
Investing cash flows	3,508	(7,392)
Financing cash flows	(25,523)	(57,383)
Foreign exchange rate effect	624	623
Decrease in cash and cash equivalents	<u>\$ (4,108)</u>	<u>\$ (35,156)</u>

Liquidity

We consider our available liquidity to be our liquid assets less our liabilities. Liquid assets consist of cash and cash equivalents, securities owned, at fair value, securities held-to-maturity and accounts receivable. Cash and cash equivalents include cash on hand with financial institutions and all highly liquid investments with an original maturity of 90 days or less at the time of purchase. Our securities owned, at fair value are highly liquid investments in a portfolio of short-duration investment grade corporate bonds. Certain securities are accounted for as held-to-maturity securities and we have the intention and ability to hold them to maturity. However, these securities are also readily traded and, if needed, could be sold for liquidity. Accounts receivable are current assets and primarily represent receivables from advisory fees we earn from our ETPs. Our liabilities consist primarily of payments owed to vendors and third parties in the normal course of business as well as accrued year end compensation for employees.

Cash and cash equivalents decreased \$4.1 million in the six months ended June 30, 2017 due to \$38.7 million used to purchase securities available-for-sale, \$21.9 million used to pay dividends on our common stock, \$5.0 million invested in AdvisorEngine, \$3.7 million used to repurchase our common stock and \$0.2 million used for other activities. These decreases were partly offset by \$17.2 million of cash generated by our operating activities, \$46.1 million from sales and maturities of securities available-for-sale and \$2.1 million from held-to-maturity securities called or maturing during the period.

Cash and cash equivalents decreased \$35.2 million in the six months ended June 30, 2016 due to \$35.7 million used to repurchase our common stock, \$21.8 million used to pay dividends on our common stock and \$11.8 million used in connection with the GreenHaven acquisition which occurred on January 1, 2016. These decreases were partly offset by \$29.0 million of cash flows generated by our operating activities, \$5.0 million from held-to-maturity securities called or maturing during the period and \$0.1 million of other activities.

Capital Resources

Our principal source of financing is our operating cash flow. We believe that current cash flows generated by our operating activities and existing cash balances should be sufficient for us to fund our operations for at least the next 12 months.

Use of Capital

Our business does not require us to maintain a significant cash position. We expect that our main uses of cash will be to fund the ongoing operations of our business, invest in strategic growth initiatives, expand our business through strategic acquisitions and fund our capital return program. As part of our capital management, we maintain a capital return program which includes a \$0.08 per share quarterly cash dividend and authority to purchase our common stock through April 27, 2019, including purchases to offset future equity grants made under our equity plans. During the six months ended June 30, 2017, we repurchased 354,496 shares of our common stock under the repurchase program for an aggregate cost of \$3,693. As of June 30, 2017, \$92,811 remains under this program for future purchases.

Contractual Obligations

The following table summarizes our future cash payments associated with contractual obligations as of June 30, 2017:

	<u>Payments Due by Period</u>				
	<u>(in thousands)</u>				
	<u>Total</u>	<u>Less than 1 year</u>	<u>1 to 3 years</u>	<u>3 to 5 years</u>	<u>More than 5 years</u>
Operating leases	<u>\$37,549</u>	<u>\$ 2,051</u>	<u>\$ 8,549</u>	<u>\$ 8,426</u>	<u>\$ 18,523</u>

Off-Balance Sheet Arrangements

Other than operating leases, which are included in the table above, we do not have any off-balance sheet financing or other arrangements. We have neither created nor are party to any special-purpose or off-balance sheet entities for the purpose of raising capital, incurring debt or operating our business.

Critical Accounting Policies

Goodwill and Intangible Assets

Goodwill is the excess of the fair value of the purchase price over the fair values of the identifiable net assets at the acquisition date. The Company tests its goodwill for impairment at least annually and at the time of a triggering event requiring re-evaluation, if one were to occur. In accordance with ASU 2017-04 *Intangibles-Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment*, which was early adopted by the Company, goodwill is impaired when the estimated fair value of the reporting unit that was allocated the goodwill is less than its carrying value. If the estimated fair value of such reporting unit is less than its carrying value, goodwill impairment is recognized based on that difference. A reporting unit is an operating segment or a component of an operating segment provided that the component constitutes a business for which discrete financial information is available and management regularly reviews the operating results of that component.

For impairment testing purposes, goodwill has been allocated to our U.S. Business reporting unit. When performing our goodwill impairment test, we consider a qualitative assessment, when appropriate, and the income approach, market approach and our market capitalization when determining the fair value of our reporting units. We have designated April 30th as our annual impairment testing date.

Indefinite-lived intangible assets are tested for impairment at least annually and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Indefinite-lived intangible assets are impaired if their estimated fair value is less than their carrying value. We may rely on a qualitative assessment when performing our intangible asset impairment test. Otherwise, the impairment evaluation is performed at the lowest level of identifiable cash flows independent of other assets. We have designated November 30th as our annual impairment testing date for our indefinite-lived intangible assets.

Revenue Recognition

We earn investment advisory fees from ETPs, as well as licensing fees from third parties. ETP advisory fees are based on a percentage of the ETPs' average daily net assets and recognized over the period the related service is provided. Licensing fees are based on a percentage of the average monthly net assets and recognized over the period the related service is provided.

Recently Issued Accounting Pronouncements

In June 2016, the Financial Accounting Standards Board ("FASB") issued ASU 2016-13, *Financial Instruments-Credit Losses (Topic 326) – Measurement of Credit Losses on Financial Instruments* (ASU 2016-13). The main objective of the standard is to provide financial statement users with more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date. To achieve this objective, the amendments in the standard replace the incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. The standard is applicable to loans, accounts receivable, trade receivables, and other financial assets measured at amortized cost, loan commitments and certain other off-balance sheet credit exposures, debt securities (including those held-to-maturity) and other financial assets measured at fair value through other comprehensive income, and beneficial interests in securitized financial assets. Accordingly, the new methodology will be utilized when assessing our securities classified as available-for-sale and held-to-maturity for impairment. ASU 2016-13 is effective for years beginning after December 15, 2019, including interim periods within those fiscal years under a modified retrospective approach. Early adoption is permitted for periods beginning after December 15, 2018. We are currently evaluating the impact that the standard will have on our consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, *Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting* (ASU 2016-09). The standard is intended to simplify several areas of accounting for share-based compensation arrangements, including the income tax impact, classification on the statement of cash flows and forfeitures. ASU 2016-09 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016, and early adoption is permitted. We adopted this standard prospectively on January 1, 2017. The adoption of the standard increased volatility reported in income tax expense as income tax windfalls and shortfalls associated with the vesting of stock-based compensation is now recorded in income tax expense, rather than additional paid-in capital, when applicable. This new guidance resulted in us recognizing approximately \$0.1 million and \$1.1 million of income tax expense for tax shortfalls related to stock-based compensation vesting occurring during the three and six months ended June 30, 2017, respectively. This had the effect of reducing basic and diluted EPS by \$0.01 for the six months ended June 30, 2017. See Notes 11 and 12 to our Consolidated Financial Statements.

[Table of Contents](#)

In February 2016, the FASB issued ASU 2016-02, *Leases* (ASU 2016-02), which requires lessees to include most leases on the balance sheet. ASU 2016-02 is effective for fiscal years (and interim reporting periods within those years) beginning after December 15, 2018 and early adoption is permitted. We are currently evaluating the impact that the standard will have on our consolidated financial statements. See Note 8 to our Consolidated Financial Statements.

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments – Recognition and Measurement of Financial Assets and Financial Liabilities* (ASU 2016-01). The main objective of the standard is to enhance the reporting model for financial instruments to provide users of financial statements with more decision-useful information. The amendments in the update make targeted improvements to generally accepted accounting principles. These include requiring equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. Available-for-sale classification for equity investments with readily determinable fair values will no longer be permissible. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or similar investment of the same issuer. The update also simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment. When a qualitative assessment indicates that impairment exists, an entity is required to measure the investment at fair value. ASU 2016-01 is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is not permitted for the updates currently applicable to us. Our equity investments with readily determinable fair values are all currently measured at fair value with changes in fair value recognized in net income. We will apply the amendments in this update when assessing the carrying value of our investments, held at cost.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), which is a new comprehensive revenue recognition standard on the financial reporting requirements for revenue from contracts entered into with customers. In July 2015, the FASB deferred this ASU's effective date by one year, to interim and annual periods beginning after December 15, 2017. The deferral allows early adoption at the original effective date. During 2016, the FASB issued ASU 2016-08, which clarifies principal versus agent considerations, ASU 2016-10, which clarifies identifying performance obligations and the licensing implementation guidance, and ASU 2016-12, which amends certain aspects of the new revenue recognition standard pursuant to ASU 2014-09. ASU 2014-09 allows for the use of either the retrospective or modified retrospective adoption method. The implementation of this standard will not have a material impact on our consolidated financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The following information, together with information included in other parts of this Management's Discussion and Analysis of Financial Condition and Results of Operations, describes key aspects of our market risk.

Market Risk

Market risk to us generally represents the risk of changes in the value of securities held in the portfolios of the WisdomTree ETPs that generally results from fluctuations in securities prices, foreign currency exchange rates against the U.S. dollar, and interest rates. Nearly all of our revenues are derived from advisory agreements for the WisdomTree ETFs. Under these agreements, the advisory fee we receive is based on the average market value of the assets in the WisdomTree ETF portfolios we manage.

Fluctuations in the value of these securities are common and are generated by numerous factors such as market volatility, the overall economy, inflation, changes in investor strategies and sentiment, availability of alternative investment vehicles, government regulations and others. Accordingly, changes in any one or a combination of these factors may reduce the value of investment securities and, in turn, the underlying AUM on which our revenues are earned. These declines may cause investors to withdraw funds from our ETPs in favor of investments that they perceive as offering greater opportunity or lower risk, thereby compounding the impact on our revenues. We believe challenging and volatile market conditions will continue to be present in the foreseeable future.

Interest Rate Risk

In order to maximize yields, we invest our corporate cash in short-term interest earning assets, primarily money market instruments at a commercial bank, federal agency debt instruments and short-term investment grade corporate bonds which totaled \$135.7 million and \$116.7 million as of December 31, 2016 and June 30, 2017, respectively. We do not anticipate that changes in interest rates will have a material impact on our financial condition, operating results or cash flows.

Exchange Rate Risk

As a result of our operations in Europe, Japan and Canada, we now operate globally and are subject to currency translation exposure on the results of our non-U.S. operations. Foreign currency translation risk is the risk that exchange rate gains or losses arise from translating foreign entities' statements of earnings and balance sheets from functional currency to our reporting currency (the U.S. dollar) for consolidation purposes. We generate the vast majority of our revenues and expenses in the U.S. dollar and expect to do so for some time. We do not anticipate that changes in exchange rates, predominantly the British pound or Euro, and to a lesser extent, the Japanese Yen and Canadian Dollar, as they relate to translating functional currency to our reporting currency, will have a material impact on our financial condition, operating results or cash flows. Currently, we do not enter into derivative financial instruments aimed at offsetting certain exposures in the statement of operations or the balance sheet but may look to do so in the future.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of June 30, 2017, our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15(b) promulgated under the Securities Exchange Act of 1934, as amended, or the Exchange Act. Based upon that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that, as of June 30, 2017, our disclosure controls and procedures were effective at a reasonable assurance level in ensuring that material information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules, regulations and forms of the SEC, including ensuring that such material information is accumulated by and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

During the quarter ended June 30, 2017, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II: OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 1A. RISK FACTORS

You should carefully consider the information set forth in this Report, as well as the information set forth in Part 1, Item 1A. "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Recent sales of Unregistered Securities

None.

Use of Proceeds

Not applicable.

[Table of Contents](#)

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

The following table provides information with respect to purchases made by or on behalf of the Company or any “affiliated purchaser” of shares of the Company’s common stock.

<u>Period</u>	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid Per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)</u>	<u>Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (in thousands)</u>
April 1, 2017 to April 30, 2017	7,967	\$ 8.22	7,967	
May 1, 2017 to May 31, 2017	—	\$ —	—	
June 1, 2017 to June 30, 2017	—	\$ —	—	
Total	<u>7,967</u>	\$ 8.22	<u>7,967</u>	\$ 92,811

(1) On October 29, 2014, our Board of Directors authorized a three-year share repurchase program of up to \$100.0 million. On April 27, 2016, the Board approved a \$60.0 million increase to this program and extended the term through April 27, 2019, increasing the total authorized repurchase amount to \$100.3 million. During the three months ended June 30, 2017, we repurchased 7,967 shares of our common stock under this program for an aggregate cost of \$0.1 million. As of June 30, 2017, \$92.8 million remains available under this program for future purchases.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

<u>Exhibit No.</u>	<u>Description</u>
3.1	Amended and Restated Certificate of Incorporation (incorporated by reference to Exhibit 3.1 of the Registrant’s Registration Statement on Form 10, filed with the SEC on March 31, 2011)
3.2	Amended and Restated Bylaws (incorporated by reference to Exhibit 3.2 of the Registrant’s Registration Statement on Form 10, filed with the SEC on March 31, 2011)
4.1	Specimen Common Stock Certificate (incorporated by reference to Exhibit 4.1 of the Registrant’s Registration Statement on Form 10, filed with the SEC on March 31, 2011)
4.2	Amended and Restated Stockholders Agreement among Registrant and certain investors dated December 21, 2006 (incorporated by reference to Exhibit 4.2 of the Registrant’s Registration Statement on Form 10, filed with the SEC on March 31, 2011)

CERTIFICATION

I, Jonathan Steinberg, certify that:

1. I have reviewed this quarterly report on Form 10-Q of WisdomTree Investments, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of WisdomTree Investments, Inc. (the "Company") on Form 10-Q for the period ended June 30, 2017 as filed with the Securities and Exchange Commission (the "SEC") on the date hereof (the "Report"), we, Jonathan Steinberg, Chief Executive Officer of the Company, and Amit Muni, Chief Financial Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, to our knowledge, that:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

This certification is being furnished and not filed, and shall not be incorporated into any documents for any purpose, under the Exchange Act of 1934, as amended. A signed original of this written statement require by Section 906 has been provided to the Company and will be retained by the Company and furnished to the SEC or its staff upon request.
