Item 2.02. Results of Operations and Financial Condition

On February 3, 2017, WisdomTree Investments, Inc. (the “Company”) issued a press release announcing its financial results for the three months and year ended December 31, 2016. A copy of the press release containing this information is being furnished as Exhibit 99.1 to this Report on Form 8-K and is incorporated herein by reference.

The information furnished pursuant to this Item 2.02, including Exhibit 99.1, shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities under that Section and shall not be deemed incorporated by reference into any filing of the Company under the Securities Act of 1933, as amended.

Item 8.01. Other Events

On January 31, 2017, the Company’s Board of Directors declared a quarterly cash dividend of \$0.08 per share of common stock, payable on March 1, 2017 to stockholders of record as of the close of business on February 15, 2017.

A copy of the press release issued in connection with the dividend is attached as Exhibit 99.1 to this Report on Form 8-K and is incorporated herein by reference.

Item 9.01. Financial Statements and Exhibits

(d) Exhibits:

Exhibit 99.1 Press Release, dated February 3, 2017

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

WisdomTree Announces Fourth Quarter 2016 Results

\$0.02 diluted EPS for the quarter, or \$0.03 as adjusted

Declares \$0.08 quarterly dividend

New York, NY – (GlobeNewswire) – February 3, 2017 – WisdomTree Investments, Inc. (NASDAQ: WETF), an exchange-traded fund (“ETF”) and exchange-traded product (“ETP”) sponsor and asset manager today reported net income of \$2.5 million or \$0.02 diluted EPS in the fourth quarter. Excluding a goodwill impairment charge of \$1.7 million, adjusted net income (a non-GAAP measure ¹) was \$4.2 million ¹ or \$0.03 per share ¹. This compares to net income of \$20.5 million or \$0.15 diluted EPS in the fourth quarter of last year and net income of \$8.0 million or \$0.06 diluted EPS in the third quarter of 2016.

WisdomTree CEO and President Jonathan Steinberg said, “Negative sentiment around our two largest exposures in 2016 overshadowed several noteworthy accomplishments. From an asset gathering standpoint we generated a record \$1.9 billion of inflows into our U.S. Equity suite in addition to launching the industry’s most successful new ETF - the WisdomTree Dynamic Currency Hedged International Equity ETF (DDWM).”

Mr. Steinberg added, “The industry is rapidly evolving and we continue to make the global investments necessary in products, people and technology to be a beneficiary of change. During 2016, we enhanced our distribution capabilities including key hires in the institutional and retirement channels, we invested in tools and technology including partnering with and taking a minority stake in AdvisorEngine, and we further expanded our global reach with the launch of locally listed funds in Canada and the buyout of the remaining minority stake in WisdomTree Europe.”

Mr. Steinberg concluded, “Despite the challenges of 2016, we’ve laid the foundation and fundamentals for a successful 2017, and beyond.”

- In December 2016, the Company announced the launch of the following products:
 - The GBP and EUR hedged shares classes of the WisdomTree US Equity Income UCITS ETF on the SIX Swiss Exchange; and
 - The accumulating share classes of the WisdomTree Europe Equity UCITS ETF, the WisdomTree Europe Equity Income UCITS ETF, the WisdomTree US Equity Income UCITS ETF, the WisdomTree Europe SmallCap Dividend UCITS ETF, and the WisdomTree Emerging Markets Equity Income UCITS ETF on the SIX Swiss Exchange.
- In January 2017, the Company announced the appointments of Altaf Cassam as Head of Compliance in Europe and Jason Guthrie as Director of Capital Markets in Europe.

Assets Under Management and Net Inflows

U.S. listed ETF assets under management (“AUM”) were \$40.2 billion at December 31, 2016, up 6.5% from September 30, 2016 primarily due to \$2.3 billion of market appreciation. U.S. listed AUM was down 22.2% from December 31, 2015 primarily due to net outflows in 2016. Net outflows were primarily in our two largest funds, HEDJ and DXJ.

European listed AUM was \$1.0 billion at December 31, 2016, largely unchanged from September 30, 2016 as market appreciation was offset by net outflows. European listed AUM was up 32.4% from December 31, 2015 primarily due to net inflows.

Performance

In evaluating the performance of our U.S. listed equity, fixed income and alternative ETFs against actively managed and index based mutual funds and ETFs, 95% of the \$37.1 billion invested in our ETFs and 69% (52 of 75) of our ETFs outperformed their comparable Morningstar average since inception as of December 31, 2016.

For more information about WisdomTree ETFs including standardized performance, please click [here](#) or visit www.wisdomtree.com.

Fourth Quarter Financial Discussion

Revenues

Total revenues decreased 33.6% from the fourth quarter of 2015 and 1.9% from the third quarter of 2016 due to declines in our average AUM primarily in our two largest ETFs. Our average U.S. advisory fee decreased to 0.50% from 0.51% during the quarter due to changes in product mix.

Margins

Gross margin for our U.S. Business segment, which is U.S. total revenues less U.S. fund management and administration expenses and U.S. third-party sharing arrangements, was 81.2% ¹ in the fourth quarter of 2016 as compared to 85.6% ¹ in the fourth quarter of 2015 and 81.0% ^{1 2} in the third quarter of 2016. The decline from the prior year was due to lower average AUM partly offset by lower expenses.

Pre-tax margin was 16.8% in the fourth quarter of 2016 (as adjusted, 20.1% ¹, (a non-GAAP measure)) as compared to 46.7% in the fourth quarter of 2015 and 27.5% in the third quarter of 2016. Pre-tax margin for our U.S. Business segment was 27.4% in the fourth quarter of 2016 as compared to 52.1% in the fourth quarter of 2015 and 34.1% ² in the third quarter of 2016.

Expenses

Total expenses were \$42.3 million for the fourth quarter of 2016 (including a goodwill impairment charge of \$1.7 million), up 3.7% from the fourth quarter of 2015 and up 12.6% from the third quarter of 2016.

- Compensation and benefits expense increased 18.1% from the fourth quarter of 2015 to \$18.4 million primarily due to higher headcount related expenses, higher accrued incentive compensation and higher stock-based compensation due to equity awards we granted as part of 2015 incentive compensation. This expense increased 19.8% from the third quarter of 2016 primarily due to changes in accrued incentive compensation. Due to the significant decline in our incentive compensation pool from 2015 levels, we awarded a greater portion of our employees' incentive compensation in cash versus stock. This shift in compensation payout mix resulted in the recognition of \$3.1 million of additional compensation expense. Our headcount was 155 in the U.S. and 209 globally at the end of the quarter.
- Fund management and administration expense declined 7.7% from the fourth quarter of 2015 to \$10.0 million primarily due to lower fund costs for our U.S. listed ETFs as a result of lower average AUM. This expense was essentially unchanged from the third quarter of 2016. We had 94 U.S. listed ETFs, 105 European ETPs and 6 Canadian ETFs at the end of the quarter.
- Marketing and advertising expense increased 17.8% from the fourth quarter of 2015 to \$3.6 million primarily due to higher levels of marketing related activities globally. This expense was essentially unchanged from the third quarter of 2016.
- Sales and business development expense increased 14.6% from the fourth quarter of 2015 to \$3.2 million primarily due to higher spending on sales related activities. This expense was essentially unchanged from the third quarter of 2016.
- Professional and consulting fees decreased 40.0% from the fourth quarter of 2015 to \$1.5 million primarily due to lower recruiting and technology expenses. This expense increased 40.8% from the third quarter of 2016 primarily due to our investment in AdvisorEngine in November 2016.
- Occupancy, communications and equipment expense was essentially unchanged from the fourth quarter of 2015. This expense decreased 12.9% from the third quarter of 2016 to \$1.3 million primarily due to lower real estate taxes on our U.S. office space.
- Depreciation and amortization expense was essentially unchanged from the fourth quarter of 2015 and the third quarter of 2016.
- Third-party sharing arrangements expense decreased 50.0% from the fourth quarter of 2015 to \$0.6 million primarily due to lower fees to our third party marketing agent in Latin America. This expense was essentially unchanged from the third quarter of 2016.
- A goodwill impairment charge of \$1.7 million was recorded in the fourth quarter of 2016, related to an interim impairment test performed on the goodwill previously recognized in connection with the Company's acquisition of U.K. based ETP sponsor, Boost, in April 2014.
- Other expense was essentially unchanged from the fourth quarter of 2015 and the third quarter of 2016.
- Our effective income tax rate for the fourth quarter of 2016 was 70.9%, which resulted in income tax expense of \$6.0 million. Our tax rate differs from the federal statutory tax rate of 35% primarily due to a valuation allowance on our foreign net operating losses, the goodwill impairment charge (which is non-deductible) and state and local income taxes.

Balance Sheet

During the fourth quarter of 2016, the Company invested \$57.6 million of cash and cash equivalents in an available-for-sale portfolio of short-duration investment grade corporate bonds.

As of December 31, 2016, the Company had total assets of \$249.8 million which consisted primarily of cash and cash equivalents of \$92.7 million, securities owned of \$58.9 million, securities held-to-maturity of \$22.5 million, investments of \$20.0 million and accounts receivable of \$17.7 million. There were approximately 136.5 million shares of common stock outstanding as of December 31, 2016. Fully diluted weighted average shares outstanding were 135.4 million for the quarter.

Quarterly Dividend

The Company's Board of Directors declared a quarterly cash dividend of \$0.08 per share of the Company's common stock. The dividend will be paid on March 1, 2017 to stockholders of record as of the close of business on February 15, 2017.

Conference Call

WisdomTree will discuss its results and operational highlights during a conference call on Friday, February 3, 2017 at 9:00 a.m. ET. The call-in number will be (877) 303-7209. Anyone outside the U.S. or Canada should call (970) 315-0420. The slides used during the presentation will be available at <http://ir.wisdomtree.com>. For those unable to join the conference call at the scheduled time, an audio replay will be available on <http://ir.wisdomtree.com>.

Cautionary Statement Regarding Forward-Looking Statements

This press release contains forward-looking statements that are based on our management's beliefs and assumptions and on information currently available to our management. Although we believe that the expectations reflected in these forward-looking statements are reasonable, these statements relate to future events or our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue" or the negative of these terms or other comparable terminology. These statements are only predictions. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond our control and which could materially affect results. Factors that may cause actual results to differ materially from current expectations include, among other things, the risks described below. If one or more of these or other risks or uncertainties occur, or if our underlying assumptions prove to be incorrect, actual events or results may vary significantly from those implied or projected by the forward-looking statements. No forward-looking statement is a guarantee of future performance. You should read this press release completely and with the understanding that our actual future results may be materially different from any future results expressed or implied by these forward-looking statements.

In particular, forward-looking statements in this press release may include statements about:

- anticipated trends, conditions and investor sentiment in the global markets and ETPs;
- anticipated levels of inflows into and outflows out of our ETPs;
- our ability to deliver favorable rates of return to investors;
- our ability to develop new products and services;
- our ability to maintain current vendors or find new vendors to provide services to us at favorable costs;
- our ability to successfully expand our business into non-U.S. markets;
- competition in our business; and
- the effect of laws and regulations that apply to our business.

Our business is subject to many risks and uncertainties, including without limitation:

- Financial growth in recent years may not provide an accurate representation of the financial growth we may experience in the future, which may make it difficult to evaluate our future prospects.

- Declining prices of securities can adversely affect our business by reducing the market value of the assets we manage or causing customers to sell their fund shares and trigger redemptions.
- Fluctuations in the amount and mix of our AUM may negatively impact revenues and operating margins.
- We derive a substantial portion of our revenues from two products – the WisdomTree Europe Hedged Equity Fund and the WisdomTree Japan Hedged Equity Fund – and, as a result, our operating results are particularly exposed to the performance of these funds and our ability to maintain the AUM of these funds, as well as investor sentiment toward investing in the funds’ strategies and market-specific and political and economic risk.
- Most of our AUM are held in our U.S. listed ETFs that invest in foreign securities and we therefore have substantial exposure to foreign market conditions and are subject to currency exchange rate risks.
- Many of our ETPs and ETFs have a limited track record, and poor investment performance could cause our revenues to decline.
- We depend on third parties to provide many critical services to operate our business and our ETPs and ETFs. The failure of key vendors to adequately provide such services could materially affect our operating business and harm our customers.

Other factors, such as general economic conditions, including currency exchange rate fluctuations, also may have an effect on the results of our operations. For a more complete description of the risks noted above and other risks that could cause our actual results to differ from our current expectations, please see the section entitled “Risk Factors” in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2015 and Quarterly Report on Form 10-Q for the quarter ended June 30, 2016.

The forward-looking statements in this press release represent our views as of the date of this press release. We anticipate that subsequent events and developments may cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. Therefore, these forward-looking statements do not represent our views as of any date other than the date of this press release.

About WisdomTree

WisdomTree Investments, Inc., through its subsidiaries in the U.S., Europe, Canada and Japan (collectively, “WisdomTree”), is an exchange-traded fund (“ETF”) and exchange-traded product (“ETP”) sponsor and asset manager headquartered in New York. Non-GAAP Financial Measurements

In an effort to provide additional information regarding our results as determined by GAAP, we also disclose certain non-GAAP information which we believe provides useful and meaningful information. Our management reviews these non-GAAP financial measurements when evaluating our financial performance and results of operations; therefore, we believe it is useful to provide information with respect to these non-GAAP measurements so as to share this perspective of management. Non-GAAP measurements do not have any standardized meaning, do not replace nor are superior to GAAP financial measurements and are unlikely to be comparable to similar measures presented by other companies. These non-GAAP financial measurements should be considered in the context with our GAAP results. The non-GAAP financial measurements contained in this release include:

- *Gross margin and gross margin percentage (U.S. Business segment)* . We disclose our gross margins and gross margin percentage for our U.S. Business segment separately from the start up stage of our international businesses (Europe and Canada) to allow investors to better understand and track the performance and operating efficiency of our core U.S. operations, which make up the vast majority of our operating and financial results. We disclose U.S. Business segment gross margin, which we define as U.S. total revenues less U.S. fund management and administration expenses and U.S. third-party sharing arrangements, and U.S. Business segment gross margin percentage as non-GAAP financial measurements because we believe they provide investors with a consistent way to analyze the amount we retain after paying third party service providers to operate our ETPs and third party marketing agents whose fees are associated with our AUM level. Management tracks gross margin and gross margin percentage to analyze the profitability of our products.
- *Operating results for the fourth quarter of 2016 excluding a \$1.7 million goodwill impairment charge* . We exclude this charge, which is not deductible for tax purposes, when analyzing our results as it is a one-time, non-recurring charge and not core to our operating business.
