## **MACOM to Webcast Cloud Data Center Forum on May 16**

LOWELL, Mass.--(BUSINESS WIRE)-- MACOM Technology Solutions Holdings, Inc. (NASDAQ:MTSI), a leading supplier of high-performance RF, microwave, millimeterwave and lightwave semiconductor products ("MACOM"), today announced that a webcast will be made available for its upcoming Cloud Data Center Forum in Boston on May 16.

MACOM's President and CEO, John Croteau, along with Preet Virk, SVP and GM of Networks, Vivek Rajgarhia, SVP and GM of Lightwave Networking Components, Bob McMullan, SVP and CFO, and Steve Ferranti, VP of Investor Relations are scheduled to host Cloud Data Center Forums in Boston on May 16 and in New York City on May 17 from 11:30 a.m. to 1:00 p.m. The purpose of the event is to discuss MACOM's opportunities within the Cloud Data Center as well as provide an in-depth look at the Company's expanding market position and how MACOM is transforming the market for 100G solutions inside the data center.

A live audio webcast of the Company's presentation in Boston on May 16 will be available on the Investor Relations section of MACOM's website at <http://ir.macom.com> beginning at approximately 11:30am EST. Subsequent to the event, an archived replay of the presentation will be available within approximately 24 hours.

### **About MACOM**

MACOM enables a better-connected and safer world by delivering breakthrough semiconductor technologies for optical, wireless and satellite networks that satisfy society's insatiable demand for information.

Today, MACOM powers the infrastructure that millions of lives and livelihoods depend on every minute to communicate, transact business, travel, stay informed and be entertained. Our technology increases the speed and coverage of the mobile Internet and enables fiber optic networks to carry previously unimaginable volumes of traffic to businesses, homes and datacenters.

Keeping us all safe, MACOM technology enables next-generation radars for air traffic control and weather forecasting, as well as mission success on the modern networked battlefield.

MACOM is the partner of choice to the world's leading communications infrastructure, aerospace and defense companies, helping solve their most complex challenges in areas including network capacity, signal coverage, energy efficiency and field reliability, through its best-in-class team and broad portfolio of RF, microwave, millimeterwave and lightwave semiconductor products.

MACOM is a pillar of the semiconductor industry, thriving for more than 60 years of daring to change the world for the better, through bold technological strokes that deliver true competitive advantage to customers and superior value to investors.

Headquartered in Lowell, Massachusetts, MACOM is certified to the ISO9001 international quality standard and ISO14001 environmental management standard. MACOM has design centers and sales offices throughout North America, Europe, Asia and Australia.
