Next Generation X-Gene® 3 Server Processor Showcased at OCP U.S. Summit 2017

Following the Acquisition of AppliedMicro, MACOM's Compute Business to Deliver Presentation and Showcase Live Demonstrations

MACOM--

WHERE: OCP U.S. Summit 2017, Santa Clara Convention Center, 5001 Great America Pkwy, Santa Clara, Calif. 95054

WHEN: Wednesday, March 8 - Thursday, March 9, 2017

WHAT: MACOM's Kumar Sankaran, Associate Vice President of Software and Platform Engineering for MACOM's newly acquired compute business from AppliedMicro and Jag Bolaria, principal analyst of The Linley Group, will deliver a presentation about the company's next generation X-Gene 3 Server on a Chip® processor on Wednesday, March 8 from 5:10 - 5:25 p.m. PT in the Expo Hall Theater.

At booth No. C19, conference attendees can view live demonstrations that will highlight the company's industry-leading X-Gene technology designed to meet the unique needs of cloud and enterprise data centers.

To book a meeting with MACOM at the show, please contact apm@racepointglobal.com.

ABOUT MACOM:

MACOM is a new breed of analog semiconductor company—one that delivers a unique combination of high growth, diversification and high profitability. We are enabling a better-connected and safer world by delivering breakthrough semiconductor technologies for optical, wireless and satellite networks that satisfy society's insatiable demand for information.

Today, MACOM powers the infrastructure that millions of lives and livelihoods depend on every minute to communicate, transact business, travel, stay informed and be entertained. Our technology increases the speed and coverage of the mobile Internet and enables fiber optic networks to carry previously unimaginable volumes of traffic to businesses, homes and data centers.

Keeping us all safe, MACOM technology enables next-generation radars for air traffic control and weather forecasting, as well as mission success on the modern networked battlefield.

MACOM is the partner of choice to the world's leading communications infrastructure and aerospace and defense companies, helping solve their most complex challenges in areas including network capacity, signal coverage, energy efficiency, and field reliability, through its best-in-class team and broad portfolio of RF, microwave, millimeterwave and lightwave semiconductor products.

MACOM is a pillar of the semiconductor industry, thriving for more than 60 years of daring to change the world for the better

through bold technological strokes that deliver true competitive advantage to customers and superior value to investors.

Headquartered in Lowell, Massachusetts, MACOM is certified to the ISO9001 international quality standard and ISO14001 environmental management standard. MACOM has design centers and sales offices throughout North America, Europe, Asia and Australia.

MACOM, M/A-COM, M/A-COM Technology Solutions, M/A-COM Tech, Partners in RF & Microwave, The First Name in Microwave and related logos are trademarks of MACOM. All other trademarks are the property of their respective owners.
