## **MACOM to Showcase its Industry Leading GaN-on-Silicon Portfolio and High-Performance MMICs and Diodes at the International Radar Symposium India (IRSI) 2017 in Bangalore, India**

LOWELL, Mass.--(BUSINESS WIRE)-- MACOM Technology Solutions Inc. ("MACOM") will showcase the industry's broadest and most advanced RF product and technology portfolio optimized for civil and defense radar, public and military radios and satellite communication applications at IRSI, December 14<sup>th</sup> - 16<sup>th</sup> at the Nimhans Convention Center in Bangalore, India, Booth #B6.

### **Visit Booth #B6 to meet with MACOM experts and learn more about our:**

- | High-Power GaN-on-Silicon
- | RF Small Signal Portfolio: Featuring high-performance MMICs and Basestation and Mobile Backhaul devices
- | High-Performance Diodes: Industry-leading diode design and application-specific solutions

Members of MACOM's product management, engineering and applications teams will be available at Booth #B6 to answer any questions.

Industry-leading expert from MACOM, Tim Boles, will also be participating in a session at IRSI:

Topic: Microwave and mmW Switch Technologies

Date: Thursday, December 14<sup>th</sup>

Time: 16:15 - 16:30 PM

Location: Hall B

To make an appointment to see MACOM's expansive portfolio, please contact your local sales representative.

### **Show Information:**

### **ABOUT MACOM:**

MACOM is a new breed of analog semiconductor company — one that delivers a unique combination of high growth, diversification and high profitability. We are enabling a better-connected and safer world by delivering breakthrough semiconductor technologies for optical, wireless and satellite networks that satisfy society's insatiable demand for information.

Today, MACOM powers the infrastructure that millions of lives and livelihoods depend on every minute to communicate, transact business, travel, stay informed and be entertained. Our technology increases the speed and coverage of the mobile Internet and enables fiber optic networks to carry previously unimaginable volumes of traffic to businesses, homes and data centers.

Keeping us all safe, MACOM technology enables next-generation radars for air traffic control and weather forecasting, as well as mission success on the modern networked battlefield.

MACOM is the partner of choice to the world's leading communications infrastructure and aerospace and defense companies, helping solve their most complex challenges in areas including network capacity, signal coverage, energy efficiency, and field reliability, through its best-in-class team and broad portfolio of RF, microwave, millimeterwave and lightwave semiconductor products.

MACOM is a pillar of the semiconductor industry, thriving for more than 60 years of daring to change the world for the better through bold technological strokes that deliver true competitive advantage to customers and superior value to investors.

Headquartered in Lowell, Massachusetts, MACOM is certified to the ISO9001 international quality standard and ISO14001 environmental management standard. MACOM has design centers and sales offices throughout North America, Europe, Asia and Australia.

MACOM, M/A-COM, M/A-COM Technology Solutions, M/A-COM Tech, Partners in RF & Microwave, The First Name in Microwave and related logos are trademarks of MACOM. All other trademarks are the property of their respective owners.
