## **MACOM to Attend Mobile World Congress 2018**

- | *Make an appointment to visit MACOM at Meeting Room #CC 8.15 and learn about our wireless infrastructure solutions*
- | *New GaN-on-Silicon solutions enabling 4G and next-gen 5G applications*

LOWELL, Mass.--(BUSINESS WIRE)-- MACOM Technology Solutions Inc. ("MACOM"), will attend Mobile World Congress 2018, February 26<sup>th</sup> - March 1<sup>st</sup> at the Fira Gran Via in Barcelona, Spain, Hall 8.1 Meeting Room #CC 8.15.

MACOM is enabling the next generation of Wireless Connectivity. With a portfolio spanning RF power, millimeterwave components and optical semiconductors, MACOM is helping carriers solve their traffic growth challenges.

Only MACOM is providing the requisite wideband performance, multiband operation, spectral efficiency and low latency required for the next generation of wireless deployments. To help carriers meet this explosive traffic demand for 4G LTE and beyond toward 5G, MACOM offers highly efficient and broadband RF Power, millimeterwave wireless backhaul, optical semiconductor components for backhaul and front haul, and industry leading GaN-on-Silicon to enable reductions in size, weight and power of demanding 4G LTE and 5G applications.

To make an appointment to meet with MACOM's team of experts and learn more about our broad product and technology portfolio, please contact your local sales representative.

### **Show Information:**

#### **Fira Gran Via, Barcelona**

07:30 - 22:00 February 26

07:30 - 22:00 February 27

07:30 - 22:00 February 28

07:30 - 16:00 March 1

### **ABOUT MACOM:**

MACOM is a new breed of analog semiconductor company — one that delivers a unique combination of high growth, diversification and high profitability. We are enabling a better-connected and safer world by delivering breakthrough semiconductor technologies for optical, wireless and satellite networks that satisfy society's insatiable demand for information.

Today, MACOM powers the infrastructure that millions of lives and livelihoods depend on every minute to communicate, transact business, travel, stay informed and be entertained. Our technology increases the speed and coverage of the mobile Internet and enables fiber optic networks to carry previously unimaginable volumes of traffic to businesses, homes and data centers.

Keeping us all safe, MACOM technology enables next-generation radars for air traffic control and weather forecasting, as well as mission success on the modern networked battlefield.

MACOM is the partner of choice to the world's leading communications infrastructure and aerospace and defense companies, helping solve their most complex challenges in areas including network capacity, signal coverage, energy efficiency, and field reliability, through its best-in-class team and broad portfolio of RF, microwave, millimeterwave and lightwave semiconductor products.

MACOM is a pillar of the semiconductor industry, thriving for more than 60 years of daring to change the world for the better through bold technological strokes that deliver true competitive advantage to customers and superior value to investors.

Headquartered in Lowell, Massachusetts, MACOM is certified to the ISO9001 international quality standard and ISO14001 environmental management standard. MACOM has design centers and sales offices throughout North America, Europe, Asia and Australia.
