Enphase Energy Expands Cellular Networking with 4G Technology and 12-Year Data Plan

PETALUMA, Calif., May 02, 2017 (GLOBE NEWSWIRE) -- [Enphase Energy, Inc.](#) (NASDAQ:ENPH), a global energy technology company and the world's leading supplier of solar microinverters, today announced the availability of Mobile Connect+, its new 4G cellular solar networking solution. Mobile Connect+ includes a 12-year data plan, allowing customers to connect their Enphase-based home energy systems without the need for a dedicated Internet connection.

"Our home energy solution integrates microinverters and storage with software and networking, all tied together by the ability to send and receive data," said Paul Nahi, president and CEO of Enphase Energy. "Mobile Connect+ gives system installers added networking flexibility with the simplicity that they have come to expect from Enphase."

Building on Enphase's plug and play approach to solar energy systems, Mobile Connect+ connects directly into the Envoy's USB ports, with no additional wiring or configuration required, and provides cellular monitoring of an Enphase system in less than a minute.
