## Enphase Energy Now Shipping AC Batteries to Customers in the Benelux Region

**Eindhoven, The Netherlands, – 1 November 2017** – [Enphase Energy, Inc.](#) (NASDAQ: ENPH), a global energy technology company and the world's leading supplier of solar microinverters, announced today that the Company is now shipping its AC Battery solution to customers in the Benelux region. The Enphase AC Battery is a key component of the Enphase Home Energy Solution, a truly integrated offering that combines solar generation, energy control and storage.

"We are pleased with the growing demand from both installers and homeowners in the Benelux region for the Enphase AC battery storage system," said Robert Gruijters, marketing director, EMEA, at Enphase Energy. "With 4.8kWh of energy storage installed by one person in less than two hours, installers have communicated to us the Enphase AC Battery storage system offers the simplest and safest installation on the market."

The modular size of each 1.2kWh Enphase AC Battery enables installers to right-size each installation to match homeowners' unique energy needs, and gives them the flexibility to easily add more batteries in the future as their energy usage changes over time. Homeowners will be able to maximize the value of their solar photovoltaic (PV) system, taking advantage of self-consumption and time-of-use tariff management opportunities. The flexible nature of the AC architecture and software platform has the system maximally prepared for future regulation and tariff changes which can be anticipated in the future.

"The small and modular AC Battery units from Enphase are simple to install, safe and provide an easy entry point for both new solar customers and retrofit customers," said Peter van Berkel, general manager, EMEA, at Enphase Energy. "We believe that due to our proven track record in more mature markets such as Australia, the United Kingdom and France, our energy storage solution will be well-received in the Benelux region."

The Enphase AC battery is now available at authorized Enphase distributors in the Benelux region <https://enphase.com/nl-nl/particuliere-oplossingen/distributeurs>.

### About Enphase Energy, Inc.

Enphase Energy, a global energy technology company, delivers smart, easy-to-use solutions that connect solar generation, storage and management on one intelligent platform. The company revolutionized solar with its microinverter technology and produces the world's truly integrated solar plus storage solution. Enphase has shipped approximately 15 million microinverters, and more than 661,000 Enphase residential and commercial systems have been deployed in more than 100 countries.
