Enphase Energy Launches IQ Combiner+™ for Even Simpler Residential Solar Installations

PETALUMA, Calif., Dec. 14, 2017 (GLOBE NEWSWIRE) -- [Enphase Energy, Inc.](#) (NASDAQ:ENPH), a global energy technology company and the world's leading supplier of solar microinverters, today announced the availability of its IQ Combiner+™ with Enphase IQ Envoy™.

The IQ Combiner+ consolidates residential solar interconnection equipment into a single enclosure and streamlines PV and storage installations by providing a consistent, pre-wired solution for residential applications. The IQ Combiner+ is the latest product in the Enphase IQ™ Microinverter System, which offers unmatched simplicity, reliability and ease of installation for solar installers.

"As with all our innovations, Enphase aims to simplify the solar installation process for our installers," said JD Dillon, vice president of product management and pricing at Enphase Energy. "The IQ Combiner+ is no exception, since it makes installation of solar systems much simpler and significantly faster, and ensures that all new solar installs are natively storage-ready."

The IQ Combiner+ allows for larger systems (up to 15.3kWac), provides the option for four circuits, and now features swappable breakers. To keep Enphase systems connected with control and analytics platforms, the IQ Combiner+ comes with an Enphase IQ Envoy, and is available with all key communications technology options, including Wi-Fi, Ethernet, or cellular. The IQ Combiner+ also features production metering, with the option to include consumption monitoring for plug-and-play storage, as well as the option for Enphase Q Aggregator installation.

With over 140 patents, Enphase continues to drive differentiation through innovation and meet the changing needs of residential solar customers. Enphase is the world's leading provider of microinverters, with approximately 16 million microinverters installed in more than 700,000 Enphase systems worldwide. For more information, please visit the IQ Combiner+ [blog entry](#).

About Enphase Energy, Inc.

Enphase Energy, a global energy technology company, delivers smart, easy-to-use solutions that connect solar generation, storage and management on one intelligent platform. The Company revolutionized solar with its microinverter technology and produces the world's only truly integrated solar plus storage solution. Enphase has shipped approximately 16 million microinverters, and approximately 700,000 Enphase systems have been deployed in more than 100 countries.
