Shares Outstanding:

- (i) As of March 31, 2012
- (ii) Authorized Shares
 - a. Common Stock: 80,000,000 shares
 - b. Preferred Stock: 4,000,000 shares
- (iii) Number of Shares Outstanding
 - a. Common Stock: 51,799,396
 - b. Preferred Stock: 2,243,750 (convertible into 6,851,144 shares of Common Stock)
- (iv) Public Float: 38,244,978 Common Shares
- (v) Beneficial Shareholders of Record: 259

Condensed Consolidated Financial Statements:

Attached hereto as Exhibit A are the Condensed Consolidated Financial Statements (unaudited) as of December 31, 2011 and March 31, 2012 and for the three months ended March 31, 2011 and 2012.

SALES OF EQUITY SECURITIES

For the three months ended March 31, 2012, the Company has issued the following shares of Common Stock:

Date of Issuance	No. of Shares	Purchase price per share	Restricted/ Unrestricted	Reason for Issuance
31-Jan-12	5,699	\$ 1.20	RES	Option Exercise
15-Feb-12	6,256	\$ 1.20	RES	Option Exercise
02-Mar-12	<u>23,036</u>	\$ 1.20	RES	Option Exercise
TOTAL	34,991			

All shares issued as restricted stock are issued with a certificate containing a legend (i) stating that the shares have not been registered under the Securities Act of 1933; and (ii) setting forth the restrictions on transferability and sale of the shares under the Securities Act of 1933.

LEGAL PROCEEDINGS

The Issuer is not and was not during the three months ended March 31, 2012, party to any legal proceedings or administrative actions that could have a material effect on the Issuer's business, financial condition, or operations nor have any such proceedings been threatened. Neither are there any current, past or pending trading suspensions by a securities regulator.

DEFAULTS UPON SENIOR SECURITIES

Not applicable.

OTHER INFORMATION

During the process of preparing the Company to become a reporting company under U.S. securities laws, the Company reconsidered the presentation of its net revenue. The Audit Committee of the Board of Directors and management concluded on October 20, 2011 that the correct presentation of its multi-currency revenue is net of the mark-up amounts shared with acquiring bank and processing customers and their merchants, with respect to such services. Management consulted with the Company's independent registered public accountant, Deloitte & Touche LLP regarding the issue. As a result, the Company has restated its unaudited consolidated financial statements for the three months ended March 31, 2011. The Company does not believe that these presentational adjustments and the corrections referred to below are material to its financial statements for any reported period.

The Company adjusted the presentation of multi-currency processing services revenues earned on our indirectly acquired business from gross to be net of the amounts related to certain third party revenue share arrangements. Historically, the Company has reported the gross foreign currency mark-up amounts billed, as revenue with the acquirer and merchant share of the gross mark-up being deducted from revenue as a cost of revenue. The financial statements for the three months ended March 31, 2011 have been adjusted to show as net revenue, the net amount the Company retains after paying these revenue share amounts. The adjustments resulted in a reduction of previously reported revenues and corresponding reductions in cost of revenue in those periods.

The previously issued unaudited Consolidated Financial Statements for the three months ended March 31, 2011, should no longer be relied upon. Similarly, related press releases, annual reports and stockholder communications describing the Company's financial statements for these periods should no longer be relied upon. Only the reissued statements for such periods should be relied upon. The restated unaudited consolidated statements of operations and cash flows for the three months ended March 31, 2011 are included in the financial statements appended to this Report.

EXHIBITS

Exhibit A: Condensed Consolidated Financial Statements (unaudited) as of December 31, 2011 and March 31, 2012 and for the three months ended March 31, 2011 and 2012.

Exhibit B: Management's discussion and analysis of financial condition and results of operations.

FORWARD LOOKING STATEMENTS

Information contained in this report may include 'forward-looking statements'. All statements other than statements of historical facts included herein, including, without limitation, those regarding the financial position, business strategy, plans and objectives of management for future operations of both Planet Payment and its business partners, are forward-looking statements. Such forward-looking statements are based on a number of assumptions regarding Planet Payment's present and future business strategies, and the environment in which Planet Payment expects to operate in future, which assumptions may or may not be fulfilled in practice. Implementation of some or all of the new services referred to is subject to regulatory or other third party approvals. Actual results may vary materially from the results anticipated by these forward-looking statements as a result of a variety of risk factors, including the risks discussed under the heading "Risk Factors". These forward-looking statements speak only as to the date of this report and cannot be relied upon as a guide to future performance. Planet Payment expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statements contained in this report to reflect any changes in its expectations with regard thereto or any change in events, conditions or circumstances on which any statement is based.

RISK FACTORS

Risk factors that may affect the Company's future prospects, performance and results, are referenced in the Company's Admission document to the AIM market, which is available on its website at <http://www.planetpayment.com/About-Us/Investor-Relations/Corporate-Information.aspx>. Some of the risk factors that investors or potential investors in Planet Payment's securities should consider are summarized as follows:

- The business is still in a substantial growth phase, which makes it difficult to evaluate and forecast the Company's future prospects.
- The Company has incurred losses since its inception through the end of 2010 and achieved its first year of profitability during the year ended December 31, 2011. The Company cannot guarantee that it will continue to achieve profitability.
- A significant portion of the Company's revenue comes from a limited number of customers and a decrease in revenue from these customers could have a material adverse effect on the Company's operating results and cash flow.
- The Company may require additional capital in the future to fund operations, or it may elect to raise additional capital if market conditions are favorable.
- The Company relies on third parties to implement the Company's solutions and to market them to end customers and cardholders may not adopt the Company's services.
- In order for the Company to continue to grow and improve its operating results, the Company must continue to increase participation by existing customers, cross sell additional services and add new customers in existing and new geographies.

- Implementation, adoption and offering of the service by processors, acquirers, merchants and others may take longer than anticipated, or may not occur at all.
- The Company's industry is highly competitive.
- The Company may face decreasing gross margins.
- Changes in the payment card industry, regulatory changes, particularly in the United States, Canada and China and changes in card association regulations and practices may impair the Company's business.
- The Company is required to be registered with card associations in order to provide its services and the Company relies on bank sponsorship for this registration.
- Changes in payment card industry billing and disclosure of cross-currency transactions may impact the Company's revenues and gross margins.
- Third parties claiming that the Company infringes their proprietary rights could cause the Company to incur significant legal expenses, for itself and on behalf of certain customers who are indemnified by the Company and prevent the Company from offering its services.
- The Company is and may be subject to litigation in the future.
- The Company may not be able to protect and enforce its contractual and intellectual property rights.
- Rapid technological change could render the Company's services obsolete.
- The Company's business exposes it to currency exchange risk.
- If the Company were to lose the services of its CEO or other members of its senior management team, the Company may not be able to execute its business strategy.
- The Company faces risks in foreign markets.
- Additional risks may arise with respect to commencing operations in new countries and regions of which the Company is not fully aware at this time.
- The Company derives a significant percentage of its net revenue from a limited number of countries and territories, and any natural disasters or other adverse change could harm the Company's business.
- The Company's quarterly results are inherently unpredictable and subject to substantial fluctuations, and, as a result, the Company may fail to meet the expectations of securities analyst and investors, which could adversely affect the trading price of shares of the Company's common stock.
- The Company could be subject to liability in the event of unauthorized disclosure of cardholder or transaction data.
- Merchant fraud or insolvency could, in some cases, negatively affect the Company's cash flows and operating results and result in liability to the Company.
- Adverse economic and other global conditions, general economic risks and decrease in volume of international travel and commerce could result in a decrease in transaction volumes.
- The Company relies on third party and organic new technology and systems; delays in development and implementation of new technology could delay revenues from the relevant projects or customers.
- The Company's systems and its third-party providers' systems may fail which could interrupt service, cause loss of business, increase costs and expose the Company to liability.
- Utility and system interruptions could adversely affect the Company's operations.
- The Company may experience software defects, undetected errors, and development delays, which could damage customer relations, decrease its potential profitability and expose the Company to liability.
- The Company could face liability or termination of key contractual relationships in the event of a system failure or a failure to perform to contracted standards.
- Material past or future acquisitions made by the Company may have an adverse effect on its results.
- Additional risks may arise with respect to acquired assets and assumed contracts of which Planet Payment is not fully aware at this time.
- The Company may be required to comply with U.S. federal securities law reporting and corporate governance regulations in the future, which would entail significant expense and could materially impair the Company's operating results.
- The Company may not be able to utilize a significant portion of the Company's net operating loss carry forwards, which could adversely affect the Company's results.
- The Company's business and financial performance could be negatively impacted by the application of new tax regulations or changes in existing tax laws or regulations.
- Securities traded on the AIM, OTC Markets and OTCQX markets may involve greater risk, potentially greater volatility and lower liquidity than securities traded on other public markets.

- The Company restated and reissued its financial statements for the three years ended December 31, 2010. The Company received a letter from its auditors indicating a material weakness in internal controls over financial reporting, in relation to such restatement. Additionally, in planning and performing the audit of our financial statements as of and for the year ended December 31, 2011, we received a further letter from our independent registered accounting firm stating that the material weakness referenced in its previous letter dated October 24, 2011 had not yet been fully remediated as of December 31, 2011.
- The Company is not currently subject to the same reporting requirements as companies whose stock is traded on other public markets.
- Ownership of the majority of the Company's Common Shares is concentrated among a small number of large shareholders, and substantial sales by these shareholders could depress the Company's stock price.

EXHIBIT A

Condensed consolidated financial statements (unaudited) as of December 31, 2011 and March 31, 2012 and for the three months ended March 31, 2011 and 2012.

Planet Payment, Inc.

Notes to condensed consolidated financial statements

1. Business description and basis of presentation

Business description

Planet Payment, Inc. together with its wholly owned subsidiaries (“Planet Payment,” the “Company,” “we,” or “our”) is a provider of international payment processing and multi-currency processing services. The Company provides its services to approximately 31,000 active merchant locations in 18 countries and territories across the Asia Pacific region, North America, the Middle East, Africa and Europe, primarily through its acquiring bank and processor customers, as well as through its own direct sales force. The Company’s point-of-sale and e-commerce services are integrated within the payment card transaction flow and enable its acquiring customers to process and reconcile payment transactions in multiple currencies, geographies and channels. The Company is a registered third party processor with the major card associations and operates in accordance with industry standards, including the Payment Card Industry, or PCI, Security Council’s Data Security Standards.

Company structure

Planet Payment was incorporated in the State of Delaware on October 12, 1999 as Planet Group Inc. and changed its name to Planet Payment, Inc. on June 18, 2007.

Since March 20, 2006, shares of the Company’s common stock have traded on the Alternative Investment Market of the London Stock Exchange, or AIM, under the symbols “PPT” and “PPTR.” Since November 19, 2008, shares of the Company’s common stock have traded on the OTCQX market tier operated by OTC Markets Group, Inc., or the OTCQX, in the United States under the symbol “PLPM.”

Basis of presentation

The condensed consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”). The December 31, 2011 consolidated balance sheet was derived from audited financial statements, but does not include all disclosures required by GAAP.

The accompanying condensed consolidated financial statements include the accounts of Planet Payment, Inc. and its wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated.

The Company evaluated subsequent events through May 10, 2012, the date on which the March 31, 2012 financial statements were available to be issued. There were no events or transactions occurring during this subsequent reporting period that require recognition or disclosure in the financial statements.

Unaudited consolidated interim financial information

The accompanying unaudited condensed consolidated interim financial statements as of March 31, 2012 and for the three months ended March 31, 2012 and 2011 are unaudited and have been prepared on the same basis as the annual consolidated financial statements. In the opinion of management, the unaudited financial information for the interim periods presented reflects all adjustments, which are normal and recurring, necessary for the fair presentation of a statement of results of operations, financial position and

cash flows. Operating results for the three months ended March 31, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012.

2. Immaterial restatement

Subsequent to the issuance of the Company's 2010 financial statements, the Company's management determined that it had an error in its presentation of multi-currency processing services revenue. Multi-currency processing services revenue was previously presented gross of amounts related to certain third party revenue share arrangements. The Company reconsidered the requirements of reporting revenue gross as a principal versus net as an agent included in the Revenue Recognition Topic Accounting Standards Codification ("ASC") topic 605 as it related to its multi-currency processing services revenue stream and concluded, based on the terms of its contractual arrangements that ASC 605-45 was not applicable to its facts and circumstances, that the Company was earning a processing fee for its services, and only the multi-currency processing services fee earned by the Company should be presented within the income statement without including the third party revenue sharing fees in either revenue or expense. In addition, the Company's management determined it had incorrectly capitalized certain amounts to software development costs.

While the Company does not believe these errors to be material to its financial statements for any reported period, the Company's management concluded that the condensed consolidated financial statements for the three months ended March 31, 2011 should be restated.

Furthermore, as more fully described in the next paragraph, in preparation of becoming an SEC registrant, the Company made certain changes to the previously issued Consolidated Statement of Operations to conform to the SEC format for public filers. The "As Previously Reported" lines within the table below conform to the SEC format for public filers and therefore reflect the condensation of the previously reported line item for the three months ended March 31, 2011.

On the Consolidated Statement of Operations, the Company condensed the previously reported two revenue lines into a single "Net revenue" (net of provisions for sales credits) line, condensed the previously reported two costs of sales lines into a single "Payment processing services fees" cost of revenue line which excludes the aforementioned third party revenue share arrangements fees, and disaggregated the previously reported total operating expense line items into the "Selling, general and administrative expense" line and reclassified certain amounts to the "Processing and service cost" cost of revenue line, which was an added cost of revenue line item.

The following table sets forth the effects of the correcting adjustments (hereafter in this Note 2 referred to as "adjustments") on affected line items based on the new SEC format within the previously reported Condensed Consolidated Statements of Operations for the three months ended March 31, 2011.

Income from operations before provision for income taxes	854,319	768,956
Provision for income taxes	—	—
Net income	\$854,319	\$768,956
Basic net income per share applicable to common stockholders	\$0.02	\$0.01
Diluted net income per share applicable to common stockholders	\$0.02	\$0.01

(1) Multi-currency processing services revenue was previously presented gross of amounts related to certain third party revenue share arrangements. The Company reconsidered the requirements of ASC 605-45 as it related to its multi-currency processing services revenue stream and concluded that based on the terms of its contractual arrangements ASC 605-45 was not applicable to its facts and circumstances, that the Company was earning a processing fee for its service, and that its multi-currency processing services revenue should be presented net of amounts related to certain third party revenue share arrangements. The period presented have been corrected to show the transaction fee that the Company earns for its processing services. The effect of the correction resulted in a reduction of previously reported revenues and corresponding reductions in cost of revenue in those periods. For the three months ended March 31, 2011, the reduction in revenue and the corresponding reduction in cost of revenue is \$12.4 million. Refer to the Company's summary of significant accounting policies for further information regarding the Company's accounting policy on revenue recognition.

(2) In preparation of becoming an SEC registrant, the Company condensed the previously reported eight operating expense line items into the Selling, General, & Administrative ("SG&A") line and reclassified certain amounts to the Processing and service costs line. The Company reclassified \$2.1 million for the three months ended March 31, 2011 from SG&A to Processing service fees for costs related to running the Company's technology platform infrastructure, including: compensation and related benefits related to the infrastructure personnel, internet connectivity, hosting and data storage expenses, amortization expense on acquired intangibles and capitalized software development costs and a portion of overhead. The amounts that remained in SG&A related to compensation and related benefit costs for our sales, marketing, customer service and administrative functions, facility costs, public company costs, administrative professional services fees and a portion of overhead.

- (3) Represents the adjustment of incorrectly capitalizing software development costs of \$0.1 million.
- (4) Amounts represent correcting adjustment affecting interest expense and SG&A line items by \$6,000.

The following table sets forth the effects of the adjustments on affected line items based on the new SEC format, within our previously reported Condensed Consolidated Statements of Cash Flows for the three months ended March 31, 2011.

	Three Months Ended	
	March 31,	
	2011	
	As	As
	Previously	Adjusted
	Reported	
Cash flow statement line items affected:		
Net income.....	\$854,319	\$768,956
Net cash used in operating activities.....	(178,403)	(276,579)(5)(6)(7)
Net cash used in investing activities	(553,898)	(430,266)(5)(7)
Principal payments on capital lease obligations	(28,721)	(55,299)(6)
Net cash provided by financing activities.....	121,921	95,343(6)

- (5) Refer to adjustment (3) above.
- (6) Represents the correction of principal payments and related depreciation expense on capital leases that was not previously recorded of \$27,000.
- (7) Represents the correction to reclassify \$38,000 of change in restricted cash from an operating activity to an investing activity.

3. Summary of significant accounting policies

Use of estimates

The preparation of condensed consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts and the disclosure of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

On an on-going basis, the Company evaluates its estimates, including those related to the accounts receivable allowance, recoverability of long-lived assets, and other assets and liabilities; the useful lives of intangible assets, property and equipment, capitalized software development costs; assumptions used to calculate stock-based expense including volatility, expected life and forfeiture rate; and income taxes (including recoverability of deferred taxes), among others. The Company bases its estimates on historical experience and on other various assumptions that are believed to be reasonable, the results of which form the basis for making judgments about the carrying values of assets and liabilities.

Revenue recognition

The Company derives revenue principally through fees earned under fixed contractual arrangements with customers who use our international payment and multi-currency processing services. The Company has two revenue streams:

Multi-currency processing services revenue

Multi-currency processing services revenue is the foreign currency transaction fee earned on processing and converting of a credit or debit card transaction from one currency into another currency.

Multi-currency transaction processing services revenue is recognized upon settlement of the transaction.

Payment processing services revenue

The Company follows the requirements of reporting revenue gross as a principal versus net as an agent included in the Revenue Recognition Topic of ASC topic 605, in determining its payment processing services revenue reporting. Generally, where the Company has merchant portability, credit risk and ultimate responsibility for the merchant, revenue is reported at the time of settlement on a gross basis equal to the full amount of the discount charged to the merchant. This amount may include interchange paid to card issuing banks and assessments paid to payment card associations.

Payment processing services revenue is transaction based and priced either as a fixed fee per transaction or calculated based on a percentage of the transaction value. The fees are charged for processing services provided in facilitating the sale of goods and services by means of credit and debit cards and other electronic payments and do not include the gross sales price paid by the ultimate buyer. Payment processing services revenue is recognized upon settlement of the transaction.

Our revenue is presented net of a provision for sales credits, which is estimated based on historical results and established in the period in which services are provided. As of the periods presented, there were no such provisions.

Cash and cash equivalents

Cash and cash equivalents consist of cash and highly liquid investments purchased with original maturity of three months or less.

Restricted cash

Restricted cash is primarily held by either processing partners where the Company holds a share of underwriting risk and for other potential liabilities under processing or by the Company on behalf of an automated clearing house, or ACH, transaction processing customer. The restricted cash balance related to the ACH transaction processing customer represents a contractual requirement with a sponsor bank to hold three times the daily average of the last thirty days of transactions. The long-term portion of restricted cash is contractually required to be held by some of the Company's processing partners and will remain restricted as long as the associated contracts are effective. As such, the Company classifies these portions as long-term.

Translation of non-U.S. currencies

The translation of assets and liabilities denominated in foreign currency into U.S. Dollars is made at the prevailing rate of exchange at the balance sheet date. Revenue and expenses are translated at the average

exchange rates during the period. Translation adjustments are reflected in accumulated other comprehensive income on our consolidated balance sheets, while gains and losses resulting from foreign currency transactions are included in our consolidated statements of operations. Amounts resulting from foreign currency transactions included in our statement of operations were not material for the three months ended March 31, 2011 and 2012.

Allowance for doubtful accounts

The Company maintains an allowance for doubtful accounts for estimated losses resulting from the inability of our customers to make payments due to the Company. The amount of the allowance is based on historical experience and our analysis of the accounts receivable balance outstanding. While credit losses have historically been within the Company's expectations and the provisions established, the Company cannot guarantee that it will continue to experience the same credit loss rates that it has in the past. If the financial condition of our customers were to deteriorate, resulting in their inability to make payments, additional allowances may be required which would result in an additional expense in the period that this determination was made. As of December 31, 2011 and March 31, 2012, the Company has included an allowance for doubtful accounts of approximately \$1.4 million.

Property, equipment and depreciation

Property and equipment are stated at cost less accumulated depreciation, which is provided for by charges to income over the estimated useful lives of the assets using the straight-line method. Maintenance and repairs, which do not improve or extend the useful life of the respective asset, are charged to operating expenses as incurred. Upon sale or other disposition, the applicable amounts of asset cost and accumulated depreciation are removed from the accounts and the net amount, less proceeds from disposal, is charged or credited to income.

Software development costs and amortization

The Company capitalizes costs of materials, consultants and payroll and payroll-related costs incurred by employees involved in developing internal use computer software. Costs incurred during the preliminary project and post-implementation stages are charged to processing and service costs, which are included in cost of revenue as incurred. Software development costs are amortized to processing and service costs, which are included in cost of revenue on a straight-line basis over estimated useful lives of approximately three to five years. The Company performs periodic reviews to ensure that unamortized software costs remain recoverable from future cash flows. Capitalized software development costs, net, were \$5.0 million as of December 31, 2011 and March 31, 2012. Amortization expense totaled \$0.4 million for the three months ended March 31, 2011 and 2012.

Intangibles and long-lived assets

The Company evaluates long-lived assets, including property and equipment, capitalized software and finite-lived intangible assets for potential impairment on an individual asset basis or at the lowest level asset grouping for which cash flows can be separately identified. Long-lived asset impairments are assessed whenever changes in circumstances could indicate that the carrying amounts of those productive assets exceed their projected undiscounted cash flows. When it is determined that impairment exists, the related asset group is written down to its estimated fair market value. The determination of future cash flows and the estimated fair value of long-lived assets, involve significant estimates on the part of management. In order to estimate the fair value of a long-lived asset, the Company may engage a third party to assist with the valuation.

The Company's process for assessing potential triggering events may include, but is not limited to, analysis of the following:

- any sustained decline in the Company's stock price below book value;
- results of the Company's goodwill impairment test (if applicable);
- sales and operating trends affecting products and groupings;
- the impact on current and future operating results;
- any losses of key acquired customer relationships; and
- changes to or obsolescence of acquired technology, data, and trademarks.

The Company also evaluates the remaining useful life of its long-lived assets on a periodic basis to determine whether events or circumstances warrant a revision to the remaining estimated amortization period.

Deferred initial public offering ("IPO") costs

Deferred IPO costs represent legal, accounting and other direct costs related to the Company's efforts to raise capital through an IPO. Future costs related to the Company's IPO activities will be deferred until the completion of the IPO, at which time they will be reclassified to additional paid-in capital as a reduction of the IPO proceeds. If the Company terminates its plan for an IPO, any deferred costs would be expensed at that time.

Due to merchants

Due to merchants represents funds collected on behalf of all the Company's acquired merchants using the iPAY gateway ACH product or funds collected on behalf of directly acquired merchants as security deposits. The ACH funds are generally held for an average of three days before payment to the merchant.

Derecognition of note payable

In 2003, the Company entered into an agreement with First Horizon Merchant Services, Inc. ("FHMS") and First Tennessee Bank National Association ("FTB") and recorded a liability. Due to a breach of the contractual terms by FHMS and FTB, the Company did not believe it was liable to repay these amounts. As of March 31, 2011, the statute of limitations had expired on \$0.66 million of the \$0.7 million balance and as of September 30, 2011, the statute of limitations had expired on the remaining \$40,000. For the three months ended March 31, 2011, the Company recorded other income due to the derecognition of the note payable in the amount of \$0.66 million.

Income taxes

The Company accounts for income taxes on the asset and liability method. Under this method, deferred tax assets and liabilities are recognized for the future tax consequence attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities due to a change in

tax rates is recognized in results of operations in the period during which the tax change occurs. The Company's operations are conducted in various geographies with different tax rates. As the Company's operations evolve this may impact the Company's future effective tax rate.

The Company assesses whether it is necessary to establish a valuation allowance to reduce the deferred tax assets if it is more likely than not that some portion or all of the deferred tax assets will not be realized. The Company's process includes evaluating both positive (for example, sources of taxable income) and negative (for example, historical losses) evidence and determining whether it is more likely than not that the deferred tax assets will not be realized.

ASC topic 740-10, *Accounting for Income Taxes*, prescribes a comprehensive model for how companies should recognize, measure, present, and disclose uncertain tax positions taken or expected to be taken on a tax return. The company shall initially and subsequently measure such tax positions as the largest amount of tax benefit that is greater than 50% likely of being realized upon ultimate settlement with the tax authority assuming full knowledge of the position and all relevant facts. The Company has reviewed and evaluated the relevant technical merits of each of its tax positions, for all periods presented, and determined that there are no uncertain tax positions that would have a material impact on the financial statements of the Company.

Concentration of credit risk

The Company's assets that are exposed to concentrations of credit risk consist primarily of cash, cash equivalents, restricted cash and receivables from clients. The Company places its cash, cash equivalents, and restricted cash with financial banking institutions that are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000. The Company also maintains cash balances at foreign banking institutions, which are not insured by the FDIC. As of December 31, 2011 and March 31, 2012, the Company's uninsured cash balances totaled \$6.8 million and \$7.8 million, respectively. The Company maintains an allowance for uncollectible accounts receivable based on expected collectability and performs ongoing credit evaluations of customers' financial condition.

The Company's accounts receivable concentrations of 10% and greater are as follows:

	As of December 31, 2011	As of March 31, 2012
Customer A	35%	26%
Customer B (*).	20	20
Customer C	14	18

* Customer B is a sponsoring bank for certain merchants within the Company's payment processing services. Customer B serves as an aggregator of merchant transactions and therefore, there is a concentration risk relating to receivables. However, revenues are generated from individual merchants that individually do not exceed 10% of the Company's revenue.

The Company's revenue concentrations of 10% and greater are as follows:

	Three months ended March 31,	
	2011	2012
Customer A	31%	23%
Customer C		20

Net income per share

The Company computes net income per share in accordance with Financial Accounting Standards Board (“FASB”) ASC 260, *Earnings per Share* (“ASC topic 260”). Under ASC topic 260, securities that contain rights to receive non-forfeitable dividends (whether paid or unpaid) are participating securities and should be included in the two-class method of computing earnings per share. The Company’s preferred stockholders are entitled to participate in dividends and earnings when, and if, dividends are declared on the common stock. As such, the Company calculates net income per share using the two-class method. The two-class method is an earnings formula that treats a participating security as having rights to dividends that otherwise would have been available to common and preferred stockholders based on their respective rights to receive dividends. Losses are not allocated to the preferred stockholders for computing net loss per share under the two-class method because the preferred stockholders do not have contractual obligations to share in the losses of the Company.

Basic earnings per share is calculated by dividing net income, adjusted for amounts allocated to participating securities under the two-class method, if applicable, by the weighted average number of common stock outstanding during the period.

Diluted earnings per share is calculated by dividing net income by the weighted average number of shares of the Company’s common stock outstanding, assuming dilution, during the period. The diluted earnings per share calculation assumes (i) all stock options and warrants which are in the money are exercised at the beginning of the period and (ii) each issue or series of issues of potential common stock are considered in sequence from the most dilutive to the least dilutive. That is, dilutive potential common stock with the lowest “earnings add-back per incremental share” shall be included in dilutive earnings per share before those with higher earnings add back per incremental share. For this purpose potential dilutive common stock include the stock options, warrants, shares of preferred stock and convertible debt.

The following table sets forth the computation of basic and diluted net income per share:

	Three months ended	
	March 31,	
	2011	2012
<i>Numerator:</i>		
Net income	\$768,956	\$787,147
Amounts allocated to participating preferred stockholders under the two-class method	(99,240)	(93,406)
Net income applicable to common stockholders (basic and dilutive).....	<u>\$669,716</u>	<u>\$693,741</u>
<i>Denominator:</i>		
Weighted average common stock outstanding (basic).....	46,147,557	51,782,902
Common equivalent shares from options and warrants to purchase common stock	1,578,200	2,476,598
Weighted average common stock outstanding (diluted) (1)	<u>47,725,757</u>	<u>54,259,500</u>
Basic net income per share applicable to common stockholders	<u>\$0.01</u>	<u>\$0.01</u>
Diluted net income per share applicable to common stockholders (1)	<u>\$0.01</u>	<u>\$0.01</u>

(1) In accordance with ASC 260-10-45-48 for the three months ended March 31, 2012, the Company has excluded 915,000 contingently issued restricted shares from diluted weighted average common stock outstanding as the contingent considerations (a) have not been satisfied at the reporting date nor (b) would have been satisfied if the reporting date was the end of the contingency period.

The following table sets forth the weighted securities outstanding that have been excluded from the diluted net income per share calculation because the effect would have been antidilutive:

	Three months ended March 31,	
	2011	2012
Stock options.....	5,707,431	1,781,405
Warrants.....	403,991	182,539
Convertible debt (1).....	4,049,776	—
Convertible preferred stock (1).....	6,851,144	6,851,144
Total antidilutive securities.....	<u>17,012,342</u>	<u>8,815,088</u>

(1) Diluted net income per share increases when the convertible debt and convertible preferred stock are included in the required sequence in the diluted earnings per share computation. As such both the convertible debt and convertible preferred stock are excluded from the computation of diluted earnings per share for the three months ended March 31, 2011 and 2012.

Stock-based expense and assumptions

Stock-based expense is measured at the grant date based on fair value and recognized as an expense over the requisite service period, net of an estimated forfeiture rate.

The following summarizes stock-based expense recognized by income statement classification:

	Three months ended March 31,	
	2011	2012
Processing and service costs.....	\$38,204	\$80,781
Selling, general and administrative expenses.....	82,087	143,611
Total stock-based expense.....	<u>\$120,291</u>	<u>\$224,392</u>

The following summarizes stock-based expense recognized by type:

	Three months ended March 31,	
	2011	2012
Stock options.....	\$118,231	\$224,392
Warrants(1).....	2,060	—
Total stock-based expense.....	<u>\$120,291</u>	<u>\$224,392</u>

(1) For the periods indicated in the table above, the Company issued warrants as a partial payment for legal services rendered.

A summary of the unamortized stock-based expense and associated weighted average remaining amortization periods for stock options and warrants is presented below:

	Unamortized stock-based expense	As of March 31, 2012
		Weighted average remaining amortization period (in years)
Stock options.....	\$1,707,358	2.28
Warrants.....	\$—	—

Stock-based expense assumptions and vesting requirements

Determining the appropriate fair value model and calculating the fair value of options and warrants require the input of highly subjective assumptions, including the expected life, expected stock price volatility, and the number of expected options and warrants that will be forfeited prior to the completion of the vesting requirements. The Company uses the Black-Scholes Option Pricing Model to value its options and warrants.

The Company accounts for warrants issued to non-employees as expense at their fair value over the service period. Warrants issued to non-employees vest immediately upon issuance and are not required to be revalued.

Expected life

Due to the limited history of the Company's common stock being publicly traded on AIM, the expected life for the Company's options granted was determined based on the "simplified" method under the provisions of ASC 718-10, *Compensation—Stock Compensation*. The expected life of warrants granted was determined based on the warrants contractual life.

Expected stock price volatility

Due to the Company's limited public company history, expected stock price volatility prior to December 31, 2011, was determined based upon the expected volatility of similar entities whose shares are publicly traded and have trading history commensurate with the expected life.

For options and warrants granted after January 1, 2012 the Company began estimating its expected volatility using a time-weighted average of its historical volatility in combination with the historical volatility of similar entities whose common shares are publicly traded.

Risk-free interest rate and dividend yield

The risk-free interest rates used for the Company's options and warrants granted were the U.S. Treasury zero-coupon rates for bonds matching the expected life of an option or warrant on the date of grant.

The expected dividend yield is not applicable to any options or warrants granted as the Company has not paid any dividends and intends to retain any future earnings for use in its business.

Vesting requirements

Options granted to employees generally vest $\frac{1}{3}$ rd of the amount of shares subject to each option on each 12-month anniversary from the vesting commencement date over a three year period and expire ten years from the grant date.

A director's annual grant vests and becomes exercisable as to $\frac{1}{12}$ th of the shares each month from the vesting commencement date. A director's initial grant vests and becomes exercisable as to $\frac{1}{3}$ rd of the shares on the 12-month anniversary from the vesting commencement date and then $\frac{1}{36}$ th of the shares each month thereafter, such that the grant vests in full after three years. All directors' options expire ten years from the grant date.

The Company's 2000 Stock Incentive Plan allows for acceleration of the vesting of outstanding options granted upon the occurrence of certain events related to change of control, merger, and the sale of

substantially all of our assets or liquidation of the company, at the discretion of the Company's Board of Directors. The Company's 2006 Equity Incentive Plan provides that if outstanding options are not assumed or replaced by a successor corporation, options shall immediately vest as to 100% of the shares at such time and on such conditions as the Company's Board of Directors shall determine.

Warrants are generally issued for services performed by third parties or investments and are generally fully vested at grant and generally expire over a period of five years.

Black-Scholes assumptions used for options and warrants

The fair market value of each option and warrant granted for all periods presented has been estimated on the grant date using the Black-Scholes Option Pricing Model with the following assumptions:

	Three months ended	
	March 31,	
	2011	2012
Expected life (in years)	5.0 – 6.0	5.91
Expected volatility (percentage)	36.62 – 36.68	45.23
Risk-free interest rate (percentage)	2.38 – 2.72	1.21
Expected dividend yield	—	—

Long-term incentive restricted stock agreement assumptions and vesting requirements

On July 26, 2011, the Company made a restricted stock grant of 915,000 shares of the Company's common stock to Philip Beck, its Chairman of the Board, Chief Executive Officer and President, pursuant to a Long-Term Incentive Restricted Stock Agreement. The 915,000 shares vest in four separate tranches, each with a different long-term performance goal. The agreement provides that (1) upon a corporate transaction, certain unvested shares accelerate and become vested, and (2) upon Mr. Beck's involuntary termination, certain unvested shares shall remain outstanding and become vested only at such time as the performance goals applicable to such unvested shares are satisfied. The performance goals for each tranche are outlined below:

- Tranche one (expires 12/31/2014): Performance condition award consisting of 305,000 shares that vest based upon the achievement of adjusted EBITDA (as will be defined in the Company's earnings releases for the relevant periods) per fully diluted share greater than or equal to \$0.36 per share for any fiscal year concluding after the date of the restricted stock grant and on or prior to the expiration date. The fair value of tranche one is \$0.7 million.
- Tranche two (expires 12/31/2017): Performance condition award consisting of 47,000 shares that vest based upon the achievement of adjusted EBITDA (as will be defined in the Company's earnings releases for the relevant periods) per fully diluted share greater than or equal to \$0.64 per share for any fiscal year concluding after the date of the restricted stock grant and on or prior to the expiration date. The fair value of tranche two is \$0.1 million.
- Tranche three (expires 12/31/2017): Performance condition award consisting of 469,000 shares that vest based upon the achievement of adjusted EBITDA (as will be defined in the Company's earnings releases for the relevant periods) per fully diluted share greater than or equal to \$0.71 per share for any fiscal year concluding after the date of the restricted stock grant and on or prior to the expiration date. The fair value of tranche three is \$1.0 million.

- Tranche four (expires 12/31/2017): Market condition award consisting of 94,000 shares that vest based upon the fair market value of the Company’s stock being greater than or equal to \$12.00 per share for 75 consecutive trading days in the United States for any fiscal year concluding after the date of the restricted stock grant and on or prior to the expiration date. The fair value of tranche four is \$5,600.

In accordance with ASC 718-10, the Company valued the performance condition and market condition awards using the Black-Scholes and binomial lattice models, respectively. The fair values of the performance condition awards are based upon the closing price of shares of the Company’s common stock that trade on AIM under the symbol “PPTR” on the date of grant. The total fair value of all three tranches of the performance condition awards is \$1.8 million, of which no amounts have been expensed as it was not deemed probable that the performance conditions would be satisfied based on the financial assessment of March 31, 2012. The Company will reassess the probability of achieving each performance condition metric at each reporting period. The total fair value of the market condition award is \$5,600. Given the inconsequential nature of the amount, the Company recorded the entire expense at the time of grant. The expense related to the market condition award is not reversed even if the market conditions are not satisfied.

The fair value of the market condition award has been estimated on the grant date using a binomial lattice-based valuation pricing model with the following assumptions:

	July 26, 2011
Expected life (in years)	5.3
Expected volatility (percentage)	31.68
Risk-free interest rate (percentage)	2.04
Expected dividend yield.....	—

For further information on the Company’s equity plans, please refer to Notes 13 and 14.

Fair value measurements

Fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Inputs used to measure fair value are prioritized into a three-level fair value hierarchy. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair values are as follows:

- Level 1 – Fair value measurements of the asset or liability using observable inputs such as quoted prices in active markets for identical assets and liabilities;
- Level 2 – Fair value measurements of the asset or liability using inputs other than quoted prices that are observable for the applicable asset or liability, either directly or indirectly, such as quoted prices for similar (as opposed to identical) assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active; and
- Level 3 – Fair value measurements of the asset or liability using unobservable inputs that reflect the Company’s own assumptions regarding the applicable asset or liability.

The Company’s cash and cash equivalents balances are residing in cash operating accounts and are not invested in money market funds or an equivalent. The Company’s remaining asset and liability accounts

are reflected in the consolidated financial statement at cost which approximates fair value because of the short-term nature of these items.

4. Property and equipment

Property and equipment, net consist of the following:

	Estimated useful life (years)	As of December 31, 2011	As of March 31, 2012
Equipment.....	5	\$1,102,132	\$1,102,750
Computer hardware.....	5	1,292,504	1,463,412
Furniture and fixtures.....	5 - 7	77,779	83,198
Leasehold improvements	5 - 7	321,596	321,659
		2,794,011	2,971,019
Less: Accumulated depreciation and amortization		(1,570,449)	(1,711,173)
Property and equipment, net		<u>\$1,223,562</u>	<u>\$1,259,846</u>

Property and equipment depreciation and amortization expense is as follows:

	Three months ended March 31,	
	2011	2012
Depreciation and amortization expense	\$130,223	\$139,753

5. Intangible assets

Intangible assets are recorded at estimated fair value and are amortized ratably over their estimated useful lives to processing and service costs, which are included in cost of revenue.

At December 31, the gross book value, accumulated amortization and amortization periods of intangible assets were as follows:

	As of December 31, 2011			As of March 31, 2012			Amortization period (years)
	Gross book value	Accumulated amortization	Net book value	Gross book value	Accumulated amortization	Net book value	
Trademarks and patents.....	\$739,832	\$(200,390)	\$539,442	\$761,783	\$(214,000)	\$547,783	15
Customer contracts....	867,354	(607,148)	260,206	867,354	(650,515)	216,839	5
Intangible assets, net .	<u>\$1,607,186</u>	<u>\$(807,538)</u>	<u>\$799,648</u>	<u>\$1,629,137</u>	<u>\$(864,515)</u>	<u>\$764,622</u>	

Amortization expense related to intangible assets is as follows:

	Three months ended March 31,	
	2011	2012
Amortization expense	\$55,044	\$56,977

6. Commitments and contingencies

Employment agreements

Pursuant to employment agreements with certain employees, the Company had a commitment to pay severance of approximately \$1.8 million and \$1.6 million as of December 31, 2011 and March 31, 2012, respectively, in the event of termination without cause, as defined in the agreements. Additionally, in the event of termination upon a change of control, as defined in the agreements, the Company had a commitment to pay severance of approximately \$1.9 million and \$1.9 million as of December 31, 2011 and March 31, 2012, respectively.

Contingent liabilities

In instances where the Company is acting as the merchant acquirer, the Company bears a risk that a merchant may engage in fraud by submitting for payment certain credit card transactions that may have been manipulated, are fictitious, or otherwise not bona fide. Similarly, the Company bears the risk that a merchant becomes insolvent, owing money to cardholders. To the extent that such fraud or insolvency occurs in circumstances where the Company is liable to make good any resultant losses, this could affect the Company's operating results and cash flows. The Company has required certain merchants to post cash reserves of approximately \$0.3 million with the acquirer against such liabilities and has itself paid the acquirer a security deposit in connection there with, as shown on the consolidated balance sheets. Under FASB ASC 460, *Guarantees*, the Company evaluates its ultimate risk and records an estimate of potential loss for chargeback's related to merchant fraud based upon an assessment of actual historical fraud rates compared to recent bank card processing volume levels. No contingent liability has been recorded as of December 31, 2011 or as of March 31, 2012, as the risk of material loss is considered remote. The Company monitors this contingent liability on a quarterly basis and will provide for a reserve if deemed necessary.

Outstanding litigation

From time to time, the Company may be subject to legal proceedings and claims in the ordinary course of business. The Company currently has no material legal proceedings pending against it.

7. Related party transactions

The Company incurred the following amounts to companies that are principally owned by executives, directors or stockholders of the Company:

	Three months ended March 31,	
	2011	2012
Rent.....	\$120,823	\$125,459
Consulting and professional fees.....	11,700	15,062

8. Stock incentive plan

2000 Stock Incentive Plan

Options granted under the 2000 Stock Incentive Plan were all non-qualified stock options. As of March 31, 2012, 70,000 options were outstanding and zero options were available for future grant under the 2000 Stock Incentive Plan.

2006 Equity Incentive Plan

The Board of Directors and stockholders approved an equity incentive plan (“2006 Equity Incentive Plan” or “Plan”) in January 2006. The Remuneration Committee of the Board of Directors (the “Committee”) administers the Plan. Currently, the Company grants stock options under the 2006 Equity Incentive Plan to employees. Under the terms of the 2000 Stock Incentive Plan and the 2006 Equity Incentive Plan, participants may be granted restricted shares or options to purchase the Company’s common stock at the fair market value on the date of grant.

On June 3, 2011, the Company’s stockholders approved a proposal to amend its 2006 Equity Incentive Plan to increase the aggregate number of shares authorized for issuance under the Plan by 3.0 million shares. As of March 31, 2012, 11,130,683 million shares were reserved for issuance under the Plan. As of December 31, 2011, 915,000 restricted shares have been issued (see below for details) and no options have been issued below fair value. As of March 31, 2012, 1,352,339 million shares of common stock were available for future issuance under the Plan.

A summary of stock option activity for both plans during the three months ended March 31, 2012 is as follows:

	Number of options	Weighted-average exercise price	Weighted-average remaining contractual life (years)	Aggregate intrinsic value
Outstanding as of December 31, 2011 ...	<u>7,776,948</u>	\$2.27	5.48	\$1,752,732
Options granted.....	1,060,500	2.56		
Options exercised.....	(34,991)	1.20		
Options cancelled.....	(84,640)	2.50		
Options forfeited	<u>(2,333)</u>	2.18		
Outstanding as of March 31, 2012	<u>8,715,484</u>	\$2.31	5.87	2,845,530
Options exercisable as of March 31, 2012.....	<u>6,148,658</u>	2.33	4.52	2,119,802
Vested and expected to vest as of March 31, 2012	<u>8,639,212</u>	2.31	5.84	2,829,636

The following table provides additional information pertaining to the Company’s stock options:

	Three months ended March 31,	
	2011	2012
Weighted-average grant date fair value for options granted during the period	\$0.75	\$1.12
Total fair value of options vested during the period.....	98,891	25,633
Total intrinsic value of options exercised during the period.....	136,962	31,981

The exercise prices range from \$1.20 to \$4.40 for stock options outstanding and exercisable as of March 31, 2012.

The aggregate intrinsic value of stock options outstanding, vested and unvested expected to vest, and exercisable, represent the total pre-tax intrinsic value, based on the closing price of \$1.96 and \$2.56 of PPTR as reported on AIM on March 31, 2011 and 2012, respectively.

9. Warrants

Warrants granted are generally issued for services performed by third parties or investors.

A summary of warrant activity during the three months ended March 31, 2012 is as follows:

	Number of warrants	Weighted-average exercise price	Weighted-average remaining contractual life (years)	Aggregate intrinsic value
Outstanding as of December 31, 2011	<u>2,108,575</u>	\$1.65	2.90	\$1,956,140
Warrants granted.....	—	—		
Warrants exercised.....	—	—		
Warrants cancelled.....	—	—		
Warrants forfeited	—	—		
Outstanding as of March 31, 2012	<u>2,108,575</u>	\$1.65	2.59	\$2,464,461
Warrants exercisable as of March 31, 2012	<u>2,108,575</u>	\$1.65	2.59	\$2,464,461
Vested and expected to vest as of March 31, 2012	<u>2,108,575</u>	\$1.65	2.59	\$2,464,461

The exercise prices range from \$0.25 to \$5.50 for warrants outstanding and exercisable as of March 31, 2012.

	Three months ended March 31,	
	2011	2012
Weighted average grant date fair value for warrants granted during the period.....	\$1.76	\$—
Total fair value of warrants vested during the period	965	—
Total intrinsic value of warrants exercised during the period.....	—	—

The aggregate intrinsic value of warrants outstanding, vested and unvested expected to vest, and exercisable, represent the total pre-tax intrinsic value, based on the closing price of \$1.96, and \$2.56 of PPTR as reported on AIM on March 31, 2011 and 2012 respectively.

10. Segment information

General information

The segment and geographic information provided in the table below is being reported consistent with the Company's method of internal reporting. Operating segments are defined as components of an enterprise for which separate financial information is available and which is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The chief operating decision maker, or CODM, reviews net revenue and gross profit by service by geographical region. The Company operates in two reportable segments; multi-currency processing services and payment processing services.

Information about revenue, profit and assets

The CODM evaluates performance and allocates resources based on the net revenue and gross profit of each segment. For purposes of analyzing segments, gross profit of the multi-currency processing services segment is equal to net revenue, while the gross profit for the payment processing services segment includes net revenue of the segment less the cost of revenue component “processing services fees”, which may include interchange and card network fees and assessments. Net revenue and gross profit by geographical region is based upon where the transaction originated. Lastly, the Company does not evaluate performance or allocate resources using segment asset data. Long-lived assets are primarily located in North America and as of December 31, 2011 and March 31, 2012 long-lived asset amounts are \$7.0 million.

The Company conducts its business primarily in three geographical regions: Asia Pacific (“APAC”), North America, and Central Europe, Middle East and Africa (“CEMEA”). The following table provides revenue concentration by geographic region. Analysis of revenue by segment and geographical region and reconciliations to consolidated revenue and gross profit are as follows:

	Three months ended March 31,	
	2011	2012
Net Revenue:		
APAC.....	\$4,494,274	\$4,189,768
North America	946,258	969,585
CEMEA	732,610	2,363,272
Total multi-currency processing services revenue.....	6,173,142	7,522,625
Payment processing services revenue	3,422,562	4,158,311
Net revenue	<u>\$9,595,704</u>	<u>\$11,680,936</u>
Gross Profit:		
APAC.....	\$4,494,274	\$4,189,768
North America	946,258	969,585
CEMEA	732,610	2,363,272
Total multi-currency processing services gross profit	6,173,142	7,522,625
Payment processing services gross profit	508,620	1,374,720
Total gross profit.....	<u>\$6,681,762</u>	<u>\$8,897,345</u>

Payment processing service revenue and gross profit is the result of transactions that primarily originated in North America and no individual merchant of the payment processing segment was greater than 10% of segment revenue.

Concentration of revenue by customer by geographical region:

	Three months ended March 31,	
	2011	2012
Multi-currency processing services revenue:		
APAC:		
Customer A.....	66%	63%
Customer D.....	12	13
North America:		
Customer E	12	16
Customer F	42	53
Customer G.....	32	12
CEMEA:		
Customer C.....	99	100

EXHIBIT B

Management's discussion and analysis of financial condition and results of operations

You should read the following discussion and analysis in conjunction with the information set forth under our consolidated financial statements and related notes thereto. The statements in this discussion regarding our expectations of our future performance, liquidity and capital resources, and other non-historical statements in this discussion, are forward-looking statements. These forward-looking statements are subject to numerous risks and uncertainties, including, but not limited to, the risks and uncertainties described in this report and in the Annual and Quarterly Reports previously filed with the OTCQX and elsewhere. Our actual results may differ materially from those contained in or implied by any forward-looking statements.

Key metrics

For the three months ended March 31, 2011 and 2012, our net revenue was \$9.6 million and \$11.7 million, respectively. In the same periods, our net income was \$0.8 million and \$0.8 million, respectively, and our Adjusted EBITDA was \$1.0 million and \$1.7 million, respectively. Adjusted EBITDA is a financial measure not calculated in accordance with GAAP. For information on how we calculate Adjusted EBITDA, see “—Key metrics—Adjusted EBITDA.”

Our management relies on certain performance indicators to manage and assess our business. The key performance indicators set forth below help us evaluate growth trends, establish budgets, measure the effectiveness of our sales and marketing efforts and assess operational efficiencies. We believe that improvements in these metrics will result in improvements in our financial performance over time. We monitor our non-GAAP financial measures and other business statistics as a measure of operating performance in addition to net income and the other measures included in our consolidated financial statements.

The following is a table consisting of non-GAAP financial measures and certain other business statistics that management monitors:

	Three months ended	
	March 31,	
	2011	2012
KEY METRICS:		
Consolidated gross billings(1)	\$21,993,311	\$30,237,240
Adjusted EBITDA (non-GAAP)(2)	\$993,737	\$1,741,480
Capitalized expenditures	\$468,535	\$494,152
Total active merchant locations (at period end)	19,927	30,977
Multi-currency processing services key metrics:		
Active merchant locations (at period end)(3)	13,503	17,209
Settled transactions processed(4)	2,213,606	2,976,916
Gross foreign currency mark-up(5)	\$18,570,749	\$26,078,929
Settled dollar volume processed(6)	\$485,432,613	\$683,434,508
Average net mark-up percentage on settled dollar volume processed(7).....	1.27%	1.10%
Payment processing services key metrics:		
Active merchant locations (at period end)(3)	6,441	13,782
Payment processing services revenue(8)	\$3,422,562	\$4,158,311

(1) Represents gross foreign currency mark-up (see footnote 5) plus payment processing services revenue (see footnote 8).

- (2) We define Adjusted EBITDA as GAAP net income adjusted to exclude (1) interest expense, (2) interest income, (3) provision (benefit) for income taxes, (4) depreciation and amortization, (5) stock-based expense from options and warrants and (6) certain other items management believes affect the comparability of operating results. Please see “— Adjusted EBITDA” below for more information and for a reconciliation of Adjusted EBITDA to net income, the most directly comparable financial measure calculated and presented in accordance with GAAP.
- (3) We consider a merchant location to be active as of a date if the merchant completed at least one revenue-generating transaction at the location during the 90-day period ending on such date. The total number of active merchant locations exceeds the total number of merchants, as merchants may have multiple locations. As of March 31, 2011 and 2012, there were 17 and 14 active merchant locations, respectively that used both our multi-currency processing services and our payment processing services. These amounts are included in multi-currency and payment processing active merchant locations but are not included in total active merchant locations.
- (4) Represents settled transactions processed using our multi-currency processing services.
- (5) Represents the gross foreign currency mark-up amount on settled dollar volume processed using our multi-currency processing services. Gross foreign currency mark-up represents multi-currency processing services net revenue plus amounts paid to acquiring banks and their merchants associated with such multi-currency processing transactions. Management believes this metric is relevant because it provides the reader an indication of the gross mark-up derived from multi-currency transactions processed through our platform during a given period. Refer to our revenue recognition policy in Note 3 and segment disclosure in Note 10 of our consolidated financial statements for information on our net revenue from multi-currency processing services.
- (6) Represents the total settled dollar volume processed using our multi-currency processing services.
- (7) Represents the average net foreign currency mark-up percentage earned on settled dollar volume processed using our multi-currency processing services. The average net mark-up percentage on settled dollar volume processed is calculated by taking the reported total multi-currency processing services net revenue (\$6.2 million and \$7.5 million for the three months ended March 31, 2011 and 2012, respectively) and dividing by settled dollar volume processed (see footnote 6).
- (8) Represents revenue earned and reported on payment processing services.

Adjusted EBITDA

This discussion includes information about Adjusted EBITDA that is not prepared in accordance with GAAP. Adjusted EBITDA is not based on any standardized methodology prescribed by GAAP and is not necessarily comparable to similar measures presented by other companies. A reconciliation of this non-GAAP measure is included below.

Adjusted EBITDA is a non-GAAP financial measure that represents GAAP net income adjusted to exclude (1) interest expense, (2) interest income, (3) provision (benefit) for income taxes, (4) depreciation and amortization, (5) stock-based expense from options and warrants and (6) certain other items management believes affect the comparability of operating results.

Management believes that Adjusted EBITDA, when viewed with our results under GAAP and the accompanying reconciliations, provides useful information about our period-over-period growth. Adjusted EBITDA is presented because management believes it provides additional information with respect to the performance of our fundamental business activities and is also frequently used by securities analysts, investors and other interested parties in the evaluation of comparable companies. We also rely on Adjusted EBITDA as a primary measure to review and assess the operating performance of our company and our management team in connection with our executive compensation.

Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation from, or as a substitute for, analysis of our results as reported under GAAP. Some of these limitations are:

- Adjusted EBITDA does not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments;
- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements;
- non-cash compensation is and will remain a key element of our long-term incentive compensation for our employees, although we exclude it from Adjusted EBITDA when evaluating our ongoing performance for a particular period; and
- Adjusted EBITDA does not include the impact of certain charges or gains resulting from matters we consider not to be indicative of our ongoing operations.

Because of these limitations, Adjusted EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business. We compensate for these limitations by relying primarily on our GAAP results and using Adjusted EBITDA only as a supplement to our GAAP results.

The following table sets forth the reconciliation of Adjusted EBITDA to net income, our most directly comparable financial measure in accordance with GAAP:

	Three months ended	
	March 31,	
	2011	2012
ADJUSTED EBITDA:		
Net income	\$768,956	\$787,147
Interest expense.....	215,619	14,220
Interest income.....	(108)	(171)
Provision for income taxes.....	—	95,272
Depreciation and amortization	548,979	620,620
Stock-based expense	120,291	224,392
Derecognition of note payable(1)	(660,000)	—
Adjusted EBITDA (non-GAAP).....	<u>\$993,737</u>	<u>\$1,741,480</u>

- (1) In 2003, we entered into an agreement with FHMS and FTB and recorded a liability. Due to a breach of the contractual terms by FHMS and FTB, we did not believe we were liable to repay these amounts. As of March 31, 2011, the statute of limitations had expired on \$0.66 million of the \$0.7 million balance and as of September 30, 2011, the statute of limitations had expired on the remaining \$40,000. For the three months ended March 31, 2011, we recorded other income due to the derecognition of the note payable in the amount of \$0.66 million.

Critical accounting policies and estimates

Our management's discussion and analysis of our financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these consolidated financial statements requires management to make estimates and judgments that affect the amounts reported for assets, liabilities, revenue, expenses and the disclosure of contingent liabilities.

Our critical accounting policies are those that we believe are both important to the portrayal of our financial condition and results of operations and that involve difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. The estimates are based on historical experience and on various assumptions about the ultimate outcome of future events. Our actual results may differ from these estimates if unforeseen events occur or should the assumptions used in the estimation process differ from actual results. Management believes there have been no material changes to the critical accounting policies discussed in the section entitled “Management discussion and analysis of financial condition and results of operations” in our Annual Report for the year ended December 31, 2011.

Results of operations

The following table sets forth our consolidated results of operations for the periods presented and as a percentage of our net revenue for those periods. The period-to-period comparison of financial results is not necessarily indicative of financial results to be achieved in future periods.

	Three months ended March 31,			
	2011		2012	
	\$ amount	% of revenue	\$ amount	% of revenue
Revenue:

Comparison of the three months ended March 31, 2012 and 2011

Revenue

	Three months ended March 31,		Variance	
	2011	2012	Amount	Percent
APAC.....	\$4,494,274	\$4,189,768	\$(304,506)	(7)%
North America	946,258	969,585	23,327	2
CEMEA	732,610	2,363,272	1,630,662	*
Total multi-currency processing services revenue .	6,173,142	7,522,625	1,349,483	22
Payment processing services revenue.....	3,422,562	4,158,311	735,749	21
Net revenue	\$9,595,704	\$11,680,936	\$2,085,232	22

* Percentage not meaningful.

Net revenue increased \$2.1 million, or 22%, to \$11.7 million for the three months ended March 31, 2012 from \$9.6 million for the three months ended March 31, 2011. The year over year increase in revenue was primarily due to the overall increase by 55%, or 11,050, in total active merchant locations processing transactions through our multi-currency and payment processing services. Additionally, we believe our business was positively impacted by the global shift toward electronic payment transactions, increased international travel and commerce, and increased e-commerce on a global scale.

Multi-currency processing services revenue

APAC multi-currency processing services revenue. APAC multi-currency processing services revenue decreased \$0.3 million, or 7%, to \$4.2 million for the three months ended March 31, 2012 from \$4.5 million for the three months ended March 31, 2011. APAC multi-currency processing services revenue key business metrics are as follows:

	Three months ended March 31,		Variance	
	2011	2012	Amount	Percent
APAC multi-currency processing active merchant locations (at period end).....	9,813	11,078	1,265	13%
APAC multi-currency processing settled transactions processed.....	1,342,676	1,449,565	106,889	8
APAC multi-currency processing gross foreign currency mark-up.....	\$13,607,022	\$14,910,579	\$1,303,557	10
APAC multi-currency processing settled dollar volume processed.....	\$336,559,786	\$372,849,034	\$36,289,248	11
APAC average net mark-up % on settled dollar volume processed.....	1.34%	1.12%	(0.22)%	(16)

The 11% increase in settled dollar volume processed resulted in a \$0.4 million increase to revenue, offset by a 16% decrease in our average net mark-up percentage on settled dollar volume processed, which resulted in a \$0.7 million decrease to revenue. The primary reasons for the increase in total dollar volume processed were a 13% increase in active APAC merchant locations, which resulted from the addition of new active merchant locations in existing markets and the continued improvement in the global economy. This resulted in an 8% increase in settled transactions processed through our multi-currency services. The decrease in average net mark-up percentage on settled dollar volume processed was primarily due to re-

pricing of certain contracts that have been renewed on a long-term basis coupled with the pricing mix of different services during the period.

North America multi-currency processing services revenue. North America multi-currency processing services revenue increased \$23,000 to \$0.9 million for the three months ended March 31, 2012 from \$0.9 million for the three months ended March 31, 2011. North America multi-currency processing services revenue key business metrics are as follows:

	Three months ended March 31,		Variance	
	2011	2012	Amount	Percent
North America multi-currency processing active merchant locations (at period end)	1,788	1,998	210	12%
North America multi-currency processing settled transactions processed	650,858	725,056	74,198	11
North America multi-currency processing gross foreign currency mark-up	\$2,325,396	\$2,561,285	\$235,889	10
North America multi-currency processing settled dollar volume processed	\$66,512,766	\$80,010,326	\$13,497,560	20
North America average net mark-up % on settled dollar volume processed	1.42%	1.21%	(0.21)%	(15)

The 20% increase in settled dollar volume processed resulted in a \$163,000 increase to revenue offset by a 15% decrease in our average net mark-up percentage on settled dollar volume processed which resulted in a \$140,000 decrease to revenue. The primary reason for the increase in settled dollar volume processed was a 12% increase in active North America merchant locations, which resulted from the addition of new active merchant locations in existing markets including a large national retailer. This resulted in an 11% increase in settled transactions processed through our multi-currency services. The decrease in average net mark-up percentage on settled dollar volume processed was primarily due to the pricing mix of different services during the period.

CEMEA multi-currency processing services revenue. CEMEA multi-currency processing services revenue increased \$1.6 million to \$2.3 million for the three months ended March 31, 2012 from \$0.7 million for the three months ended March 31, 2011. The \$1.6 million increase in CEMEA multi-currency processing services revenue was driven by changes in the following key business metrics:

	Three months ended March 31,		Variance	
	2011	2012	Amount	Percent
CEMEA multi-currency processing active merchant locations (at period end)	1,902	4,133	2,231	*
CEMEA multi-currency processing settled transactions processed	220,072	802,295	582,223	*
CEMEA multi-currency processing gross foreign currency mark-up	\$2,638,331	\$8,607,065	\$5,968,734	*
CEMEA multi-currency processing settled dollar volume processed	\$82,360,061	\$230,575,148	\$148,215,087	*
CEMEA average net mark-up % on settled dollar volume processed	0.89%	1.03%	0.14%	16%

* Percentages not meaningful.

The \$148.2 million increase in settled dollar volume processed was due to the continued merchant rollout for the two new countries implemented during the last quarter of 2010. The addition of the merchant locations from these new countries significantly impacted the number of transactions processed through our multi-currency services in CEMEA.

Payment processing services revenue

Payment processing services revenue is primarily earned from transactions originating in North America. Payment processing services revenue increased \$0.7 million, or 21%, to \$4.1 million for the three months ended March 31, 2012 from \$3.4 million for the three months ended March 31, 2011. The increase was primarily due to increased transaction volume in the U.S. and Canadian market for the three months ended March 31, 2012 as compared to the three months ended March 31, 2011.

Cost of revenue

	Three months ended March 31,		Variance	
	2011	2012	Amount	Percent
Payment processing services fees	\$2,913,942	\$2,783,591	\$(130,351)	(4)%
Processing and service costs	2,115,832	2,730,829	614,997	29
Total cost of revenue	<u>\$5,029,774</u>	<u>\$5,514,420</u>	<u>\$484,646</u>	10

* Percentage not meaningful.

Payment processing services fees

The decrease of \$0.1 million, or 4%, to \$2.8 million for the three months ended March 31, 2012 from \$2.9 million for the three months ended March 31, 2011 is as a result of the pricing mix of services for 2012.

Processing and service costs

Processing and service costs increased \$0.6 million, or 29%, to \$2.7 million for the three months ended March 31, 2012 from \$2.1 million for the three months ended March 31, 2011. The increase in processing and service costs was primarily the result of increased salary and compensation and related benefit costs of \$0.4 million, which are primarily due to technology headcount additions to support the growth in our existing business, launches into new markets, increased bonus compensation, \$0.1 million in increased technology costs, and an increase in depreciation and amortization expense of \$0.1 million primarily related to software development additions.

Selling, general and administrative expenses

	Three months ended March 31,		Variance	
	2011	2012	Amount	Percent
Selling, general and administrative expenses	\$4,241,463	\$5,270,048	\$1,028,585	24%

Selling, general and administrative expenses increased \$1.0 million, or 24%, to \$5.3 million for the three months ended March 31, 2012 from \$4.3, million for the three months ended March 31, 2011. The increase in selling, general and administrative expenses was primarily the result of increased salary compensation and related benefit costs of \$0.5 million, recruiting costs of \$0.2 million, and travel costs, facility costs, insurance costs and other general and administrative costs of \$0.2 million. These increases are primarily due to head count additions to support the growth in our existing business and the launches into new markets.

Other income (expense), net

	Three months ended March 31,		Variance	
	2011	2012	Amount	Percent
Interest expense.....	\$(215,619)	\$(14,220)	\$201,399	*
Interest income.....	108	171	63	*
Other income.....	660,000	—	(660,000)	*
Total other income (expense), net	\$444,489	\$(14,049)	\$(458,538)	*

* Percentages not meaningful.

Total other income (expense), net, decreased \$0.5 million for the three months ended March 31, 2012 from non-operating income of \$0.4 million. The decrease was primarily due to \$0.7 million derecognition of a note payable for which the statute of limitations expired and that management did not believe we were liable to repay. The decrease of other income of \$0.7 million was offset by \$0.2 million decrease of interest expense due to the recognition of three months of convertible debt interest expense in 2011 compared to zero in 2012. The convertible debt holders converted their entire principal in April 2011.

Cash flows

	Three months ended March 31,	
	2011	2012
Cash (used in) provided by operating activities.....	\$(276,579)	\$1,510,819
Cash used in investing activities	(430,266)	(440,841)
Cash provided by (used in) financing activities.....	95,343	(167,605)

Operating activities

Cash provided by operating activities during the three months ended March 31, 2012 was \$1.5 million, primarily comprising \$1.7 million cash generated by operations and a net decrease in our operating assets and liabilities \$0.2 million. This net decrease in our operating assets and liabilities of \$0.2 million primarily consisted of a \$0.4 million decrease in accounts receivable and other current assets, driven by an increase in our cash collection efforts, offset by a \$0.6 million decrease in accounts payable and accrued expenses. Cash generated by operations of \$1.7 million was inclusive of net income of \$0.8 million and total net non-cash charges of \$0.9 million. Significant non-cash adjustments to net income primarily included: (i) depreciation and amortization expense of \$0.6 million and (ii) stock option expense of \$0.2 million.

Cash used in operating activities during the three months ended March 31, 2011 was \$0.3 million, primarily comprising \$1.0 million cash generated by operations offset by a net increase in our operating assets and liabilities of \$1.3 million. This net increase in our operating assets and liabilities of \$1.3 million primarily consisted of: \$1.0 million increase in accounts receivable and other current assets, driven by an increase in activity in our multi-currency processing services business during the period, and a net increase due to merchants of \$0.4 million due to growth in the ACH processing business and an increase in reserves held on behalf of merchants using our credit card acquiring services as security deposits, offset by a decrease in settlement assets of \$0.2 million. Cash generated by operations of \$1.0 million was inclusive of a net income of \$0.8 million and total non-cash charges of \$0.2 million. Significant non-cash adjustments to net income primarily included: (i) depreciation and amortization expense of \$0.5 million, (ii) non-cash interest expense on convertible and term debt of \$0.2 million and (iii) stock option and warrant expense of \$0.1 million, offset by the \$0.6 million derecognition of note payable.

Investing activities

Cash used in investing activities for the three months ended March 31, 2012 was \$0.4 million, which was primarily attributable to our investment in the business through capital expenditures for network infrastructure and investments in software development.

Cash used in investing activities for the three months ended March 31, 2011 was \$0.4 million, which was primarily attributable to our investment in the business through capital expenditures for network infrastructure and investments in software development.

Financing activities

Cash used in financing activities for the three months ended March 31, 2012 was \$0.2 million, primarily consisting of \$0.1 million in capital lease payments and \$0.1 million in paid IPO costs.

Cash provided by financing activities for the three months ended March 31, 2011 was \$0.1 million, primarily consisting of \$0.2 million in net proceeds from issuance of common stock, partially offset by \$0.1 million in capital lease payments.
