**Hong Hou, Chief Executive Officer**

**Mark Weinswig, Chief Financial Officer**

**August 2011**

# “Safe Harbor” Statement

Statements in this presentation which are not historical facts, and the assumptions underlying such statements, constitute "forward-looking statements" and assumptions underlying "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 including, but not limited to statements regarding, (a) future product introductions and performance metrics, (b) 2010 and future financial performance, and (c) future development and growth in the Company's markets. Actual results may differ materially from those projected in the forward-looking statements. Readers should carefully review the risk factors set forth in EMCORE's latest Annual Report on Form 10-K, and other reports filed with the SEC from time to time, for a list of factors that could cause our business prospects, financial condition, operating results and cash flows to be materially adversely affected.

This presentation includes non-GAAP financial measures where indicated. These non-GAAP financial measures complement the Company's consolidated financial statements presented in accordance with GAAP. However, these non-GAAP financial measures are not intended to supersede or replace the Company's US GAAP results. A detailed reconciliation of historical GAAP results to the historical non-GAAP results is provided in the "Non-GAAP Condensed Consolidated Statement of Operations" schedule to our news release announcing the financial results of the fourth quarter of fiscal 2010. A discussion of the GAAP measures excluded from the forward-looking non-GAAP measures is provided in the "Business Outlook" paragraph of the news release. The news release is located in the News & Events section of our web site at [www.emcore.com/news\\_events/](http://www.emcore.com/news_events/).

## Global Communications and Power at the Speed of Light

### Fiber Optic Components & Systems for Broadband, 10G Ethernet, Datacom & Telecom

#### Fiber Optics Broadband

CATV / FTTx  
Satellite Com Tx/Rx  
Fiber Optic Gyro  
Video Transport

#### Fiber Optics Data & Telecom

10 Gb/s Optical TxRxs  
Tunable XFPs  
40 / 100Gb/s iTLAs  
Active Optical Cables  
VCSEL, PIN, DFB, APD

### Space and Terrestrial Solar Power Based on Multi-Junction Solar Cells

#### Photovoltaics Space Power

Space Solar Cells  
Space Solar Panels

#### Concentrator Solar Power

CPV Solar Cells  
Solar Power Systems

- **Cable TV: Leading Provider of Broadband Components and Systems**
  - Full end-to-end product offering for hybrid-fiber-coaxial (HFC) network.
  - Annualized revenue is ~\$75 - \$85M
  - 10-15% year over year growth rate expected for next couple years
  - Gross margin: ~35%
  - Operating margin: ~5-10%
  
- **CATV Market Drivers**
  - Challenged by Telcom FTTX, MSOs are upgrading their HFC network to 1GHz to offer more value-added premium services
  - Build-out of new networks to businesses offering commercial services
  - Strong overseas market demands in Eastern Europe, Russia, India, China
  
- **Broadband Business Growth Driver**
  - Video Transport equipment for the Headend & Specialty Photonic product

CATV / FTTx

Satellite Communications & Photonic Systems

- CATV Transmitters / Receivers
- Analog CATV Lasers
- Photodiodes / Analog Receivers
- EDFA Fiber Amplifiers
- FTTx PON Components
- 1310nm HFC CATV Line Cards
- 1510nm Optical Amplifiers

- RF Satellite Links
- Tx/Rx Microwave Delay Lines
- Terahertz Wave Detection
- Lithium Niobate Devices
- Fiber Optic Gyros

## ■ Poised for Improved Financial Performance

- New products will drive revenue growth and profitability improvement
- Current losses are tied to significant investments in growth opportunities
  - Investment in new Telecom products with minimal revenues today
  - High fixed Fab costs will be absorbed as volume ramps
  - Legacy products – expected phase-out completed by Sept 2011

## ■ Product Portfolio Upgrade

- New products today represent >60% revenue for this division
  - 40/100 Gb/s iTLA (Integrable Tunable Laser Assembly)
  - Tunable XFP transceivers
  - Parallel optic modules and cables
- Gross margins and profitability are expected to improve as volume ramps

## Immediate Growth Opportunities

- Tunable lasers, ITLAs & uITLAs for 10, 40, & 100 Gb/s transponder apps
- Tunable XFP & 300-pin Transponders

## Growth Opportunities Starting 2012

- 2.5-14 Gb/s Parallel optical Tx/Rx
- SNAP 12, CXP & FDR
- 10/20/40 Gbps active optical cables
- **\*NEW\*** 150 Gbps active optical cable

## Incremental Opportunities and Legacy

- 14 Gb/s VCSELs & Photodiodes
- 10 Gb/s DFB & Photodiodes
- GPON TO-cans
- 1-14 Gb/s TOSA/ROSA

## ■ Applications and Business Opportunities

- Market opportunity driven by \$40 billion upgrade cycle
  - Major upgrade cycle for metro and long-haul: 40 and 100 Gb/s
- Strong momentum towards coherent modulation design
- EMCORE's ITLA is the "laser of choice" for coherent systems

## ■ Market Leader

- High barrier to entry due to our ECL laser design platform
- Believe to have more than 50% market share for coherent systems
  - Qualified with a number of key OEM customers
  - Revenue doubled in 2010
  - Expect revenue growth of 100% in 2011

- **Applications and Business Opportunities**
  - To replace 300-pin transponders with TAM of \$300 - \$350M/yr
  - To replace DWDM XFP with TAM of \$100 - \$150M/yr
  - Potential to expand market due to smaller form factor
  
- **Competitive Landscape Expected to Be More Favorable**
  - Much more consolidated supplier base than 300-pin and DWDM XFPs
  
- **EMCORE's Status and Ramp Plan**
  - Primary target application: to replace 300-pin transponders
  - Finished full product qualification to the Telcordia standard
  - Engaged with 16 customers for qualification and complete by 3 tier-one OEMs
  - Total capacity ramps to 10,000 units/q by the end of 2011

## CORE TECHNOLOGY:

### Multi-Junction Photovoltaic Solar Cell

SPACE EFFICIENCY  
**29.5%**

**40.0%**  
CPV EFFICIENCY

## ■ Space Solar: Stable, Growing business

- Annualized revenue is ~\$70 - \$80M
- ~10% year over year growth rate
- Gross margin: >30-35%
- Operating margin: 5-15%
- Great visibility with >\$80M orders/backlog

## ■ Space Solar Market Drivers

- Greater than 50% market share for commercial satellite
- Expand government business with Trusted Supplier program

## ■ Competitive Position

- Strong customer relationships
- Technology leadership

- **Dual-axis tracking CPV modules of high-efficiency multi-junction solar cells under a 1,000x concentration of DNI sunlight**
- **Advantages:**
  - **Low CapEx for production ramp up**
  - **Attractive Levelized Cost of Energy (LCOE) in regions with high DNI**
  - **Advanced cell technology to further reduce cost**

## Direct Normal Irradiance (DNI)

Maui, Hawaii – Gen3 CPV Installation

- **CPV Joint Venture Supported by Chinese Government Grants**
  - \$75M cash grant for CapEx for CPV manufacturing lines
  - 263 acre land grant – valued at ~\$40M
  - Sales rebate for products produced: ~15%
  - Other incentives and subsidies will further improve our cost position
- **Business scope**
  - Manufacture EMCORE-designed CPV components and systems in high-volume to supply EMCORE and its own business needs
  - Develop solar power business in China.
- **Ownership and management**
  - EMCORE owns 40% and San'an Optoelectronics Co, Ltd owns 60%
  - Initial registered capital: \$30M
  - EMCORE's EVP, Charlie Wang, serves as General Manager of Suncore
  - EMCORE has completed the \$12M (40% of registered capital) contribution to the JV, and we do not expect further capital contribution.

# CPV Solar Cell Technology Roadmap

## Year-End Average Cell Efficiency

# Financial Recap of Recent Quarters

	<u>6/30/2010</u>	<u>9/30/2010</u>	<u>12/31/2010</u>	<u>3/31/2011</u>	<u>6/30/2011</u>
Revenue	\$ 46,606	\$ 54,076	\$ 52,107	\$ 47,218	\$ 49,480
COGS	33,797	41,295	39,427	36,638	40,010
<b>Gross Profit</b>	12,809	12,781	12,680	10,580	9,470
<b>Gross Margin</b>	<b>27.5%</b>	<b>23.6%</b>	<b>24.3%</b>	<b>22.4%</b>	<b>19.1%</b>
SG&A	14,004	7,295	8,264	9,380	9,657

Litigation settlement	-	-	-	(2,590)	1,465
Total Operating Expense	21,151	14,577	15,455	14,774	20,671
<b>Operating Loss</b>	<b>(8,342)</b>	<b>(1,796)</b>	<b>(2,775)</b>	<b>(4,194)</b>	<b>(11,201)</b>
Total other expense (income)	872	(911)	870	1,011	(122)
<b>NET LOSS</b>	<b>\$ (9,214)</b>	<b>\$ (885)</b>	<b>\$ (3,645)</b>	<b>\$ (5,205)</b>	<b>\$ (11,079)</b>
<b>ADJUSTED EBITDA</b>	<b>\$ 1,902</b>	<b>\$ 3,724</b>	<b>\$ 843</b>	<b>\$ (2,331)</b>	<b>\$ (3,192)</b>

## ■ June Quarter Performance Summary:

- Revenue of \$49.5M, in the high end of the guided range: \$48-50M
- Gross margin deteriorated due to a non-recurring yield hit in Space Solar business

## ■ Revenue Guidance of the September 2011 Quarter: \$51-55 million

- Gross margin will improve over the June 2011 quarter

# Key Investment Considerations

## The Company Is Poised to Grow and Deliver Improved Profitability

### Fiber Optics Broadband

CATV / FTTx  
Satellite Com Tx/Rx  
Fiber Optic Gyro  
Video Transport

- Profitable
- Predictable
- Market leader

### Fiber Optics Data & Telecom

10 Gb/s Optical TxRxs  
Tunable XFPs  
40, 100Gb/s iTLAs  
Active Optical Cables  
VCSEL, PIN, DFB, APD

- Expected high rev growth
- Disruptive products to upgrade portfolio
- **Key to profitability**

### Photovoltaics Space Power

Space Solar Cells  
Space Solar Panels

- Profitable
- Great visibility
- Market leader

### Concentrator Solar Power

CPV Solar Cells Solar  
Power Systems

- Long-term growth potential
- JV to pave the way
- \$1M - \$1.5M/qtr of investments
