Players Hit the Beach in New, Island-Themed FarmVille Mobile Adventure

SAN FRANCISCO, Aug. 25, 2016 (GLOBE NEWSWIRE) -- Zynga (Nasdaq:ZNGA), a leading social game developer, today announced the launch of *FarmVille: Tropic Escape*, a spin-off *FarmVille* mobile experience. Set in an immersive, tropical-themed world, *FarmVille: Tropic Escape* lets players escape to their very own island adventure, anytime and anywhere. The game is available to download for free today on the [App Store](#) for iPhone and iPad and on [Google Play](#) for Android devices.

"Since launching in 2009, *FarmVille* has been installed more than 700 million times, making it one of the most beloved social gaming franchises in the world," said Nicole Opas, General Manager at Zynga. "We are proud to build on that legacy by giving our players a whole new way to experience *FarmVille*, whether they've been fans for over seven years or are just discovering it for the first time. Featuring fun characters, beautifully serene environments and innovative game mechanics, *FarmVille: Tropic Escape* gives mobile players the ability to carry a piece of paradise in their pocket daily."

In *FarmVille: Tropic Escape*, players will journey through a mysterious and exciting island as they complete story-based quests to explore uncharted areas, uncovering rare items and goods along the way. With lovable new characters and companions, players can bask in paradise year-round while running a beachside inn, complete with engaging workshops, island crops and exotic animals. Embarking on creative crafting challenges, players can delight guests with tropical treats including piña colodas, sushi and flower leis. Trusty guides, such as Domingo, the island expert, and surfing and water sports pro, Chloe, help uncover island wonders like the coral reef, smugglers cave and the mysterious shipwreck.

For the first time ever in a *FarmVille* game, players can earn daily rewards and in-game advantages by completing fun mini games, earning coins, gems and more to deck out their slice of paradise. In addition, players can enhance in-game connections with their friends by trading crafts to obtain advantages across the island. Friends can also create social Beach Clubs and live chat tropical secrets and strategies with each other in real-time.
