Mr. David Xueling Li, Chief Executive Officer of YY, stated, "We're very pleased to end our first full fiscal year as a public company with a solid fourth quarter, building upon the strong momentum we saw throughout 2013. Online music and entertainment², in particular, again outperformed our expectations, with revenues growing by 217.1% year over year. Resulting from the powerful real-time interactive and social capabilities of our unique platform, we have seen increasingly diversified and interactive online activities among our expanding base of active users, with our average monthly active users reaching 92.3 million in the fourth quarter of 2013. Through a series of engaging and diversified group entertainment events and activities, such as our 2013 Annual Entertainment Awards Ceremony, we were able to not only stimulate user engagement and spending, but also enhance user attachment to our platform. Heading into 2014, we're excited to build upon the robust foundation we have established and continue to broaden our ability to engage our users and monetize our user traffic by further penetrating into online entertainment, live broadcasting, education and other verticals. We are proud of our evolution into a large, live and sticky online entertainment platform and aim to further enable services which cater to Chinese users' dynamic and ever-changing demands."

Mr. Eric He, Chief Financial Officer of YY, commented, "In the fourth quarter, not only we were able to exceed our expectations on both the top and bottom line growth, but we also further increased our profitability with non-GAAP net margin expanding to 35.4% from 22.0% a year ago. These results were driven by the greater operating leverage of our platform, which has increasingly been able to attract and engage massive audiences in a cost-effective manner through viral online marketing as well as self-promotions by performers and channel owners within our platform. We believe that YY has significant potential to become an even more powerful, pervasive and profitable platform through the ongoing diversification and expansion of our entertainment and education services."

Fourth Quarter 2013 Financial Results

NET REVENUES

Net revenues increased by 129.5% to RMB612.3 million (US\$101.1 million) in the fourth quarter of 2013 from RMB266.8 million

in the corresponding period of 2012, primarily driven by an increase in IVAS revenues and, to a lesser extent, an increase in the Company's online advertising revenues.

IVAS revenues, which consisted of revenues from online music and entertainment, online games, as well as other sources including the Company's membership program and live game broadcasting, increased by 144.1% to RMB568.9 million (US\$94.0 million) in the fourth quarter of 2013 from RMB233.0 million in the corresponding period of 2012. The overall increase primarily reflected an increase in the number of paying users and an increase in average revenue per user ("ARPU").

Revenues from online music and entertainment, increased by 217.1% to RMB336.6 million (US\$55.6 million) in the fourth quarter of 2013 from RMB106.1 million in the corresponding period of 2012. This increase primarily reflected a 165.3% increase in the number of paying users to 902,000 with a 19.6% increase in ARPU to RMB373 during the fourth quarter of 2013.

Revenues from online games increased by 66.1% to RMB162.8 million (US\$26.9 million) in the fourth quarter of 2013 from RMB98.0 million in the corresponding period of 2012. This increase primarily reflected a year-over-year increase in ARPU of 41.4% to RMB376 and a 17.7% increase in the number of paying users to 433,000. The number of online games operated by the Company increased to 126 as of December 31, 2013 from 73 as of December 31, 2012.

Revenues from others, which primarily consist of the Company's membership program and live game broadcasting, increased by 140.9% to RMB69.5 million (US\$11.5 million) in the fourth quarter of 2013 from RMB28.8 million in the corresponding period of 2012. Revenues from the membership program increased by 72.4% to RMB44.5 million (US\$7.4 million) in the fourth quarter of 2013 from RMB25.8 million in the corresponding period of 2012. This increase primarily reflected a 64.8% increase in the number of members to 837,000 as of December 31, 2013 from 508,000 as of December 31, 2012. Revenues from live game broadcasting increased significantly to RMB20.6 million (US\$3.4 million) in the fourth quarter of 2013 from RMB0.7 million in the corresponding period of 2012.

Online advertising revenues increased by 28.5% to RMB43.4 million (US\$7.2 million) in the fourth quarter of 2013 from RMB33.8 million in the corresponding period of 2012. This increase reflected an increase in the total number of advertisers of 50.8% to 92 with an average revenue per advertiser ("ARPA") of approximately RMB472,000.

COST OF REVENUES AND GROSS PROFIT

Cost of revenues increased by 113.6% to RMB296.8 million (US\$49.0 million) in the fourth quarter of 2013 from RMB138.9 million in the corresponding period of 2012. This increase was primarily attributable to an increase in revenue-sharing fees and content costs to RMB165.1 million (US\$27.3 million) in the fourth quarter of 2013 from RMB47.1 million in the corresponding period of 2012. This increase in revenue-sharing fees and content costs paid to performers, channel owners and content providers was primarily due to higher levels of user engagement and spending. In addition, bandwidth costs increased to RMB59.7 million (US\$9.9 million) in the fourth quarter of 2013 from RMB42.4 million in the corresponding period of 2012.

Gross profit increased by 146.7% to RMB315.5 million (US\$52.1 million) in the fourth quarter of 2013 from RMB127.9 million in the corresponding period of 2012. Gross margin increased to 51.5% in the fourth quarter of 2013 from 47.9% in the corresponding period of 2012. The increase in gross margin was mainly attributable to the improved cost efficiency due to the scale effect of the Company's growth as well as the Company's ability to control bandwidth costs.

OPERATING INCOME

Operating expenses for the fourth quarter of 2013 increased by 37.0% to RMB128.5 million (US\$21.2 million) from RMB93.8 million in the corresponding period of 2012. This increase was primarily attributable to higher research and development expenses and general and administrative expenses which were associated with the general growth of the Company's overall business.

Operating income in the fourth quarter of 2013 increased by 453.4% to RMB194.9 million (US\$32.2 million) from RMB35.2 million in the corresponding period of 2012. Operating margin increased to 31.8% in the fourth quarter of 2013 from 13.2% in the corresponding period of 2012. The increase in operating margin was primarily due to increased operating leverage associated with the Company's expansion.

Non-GAAP operating income³ increased by 261.4% to RMB219.8 million (US\$36.3 million) in the fourth quarter of 2013 from RMB60.8 million in the corresponding period of 2012. Non-GAAP operating margin⁴ increased to 35.9% in the fourth quarter of 2013 from 22.8% in the corresponding period of 2012.

Use of Non-GAAP Financial Measures

The unaudited condensed consolidated financial information is prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"), except that the consolidated statement of changes in shareholders' equity (deficits), consolidated statements of cash flows, and the detailed notes have not been presented. YY uses non-GAAP operating income, non-GAAP operating margin, non-GAAP net income attributable to YY Inc., non-GAAP net margin, non-GAAP net income (loss) attributable to common shareholders, and basic and diluted non-GAAP net income(loss) per ADS, which are non-GAAP financial measures. Non-GAAP operating income is operating income excluding share-based compensation expenses. Non-GAAP operating margin is non-GAAP operating income as a percentage of net revenues. Non-GAAP net income (loss) attributable to YY Inc. is net income (loss) attributable to YY Inc. excluding share-based compensation expenses. Non-GAAP net margin is non-GAAP net income attributable to YY Inc. as a percentage of net revenues. Non-GAAP net income (loss) attributable to common shareholders is net income (loss) attributable to common shareholders excluding share-based compensation expenses. Basic and diluted non-GAAP net income (loss) per ADS is non-GAAP net income (loss) attributable to common shareholders divided by weighted average number of basic and diluted ADS. The Company believes that separate analysis and exclusion of the non-cash impact of share-based compensation adds clarity to the constituent parts of its performance. The Company reviews these non-GAAP financial measures together with GAAP financial measures to obtain a better understanding of its operating performance. It uses the non-GAAP financial measure for planning, forecasting and measuring results against the forecast. The Company believes that non-GAAP financial measure is useful supplemental information for investors and analysts to assess its operating performance without the effect of non-cash share-based compensation expenses, which have been and will continue to be significant recurring expenses in its business. However, the use of non-GAAP financial measures has material limitations as an analytical tool. One of the limitations of using non-GAAP financial measures is that they do not include all items that impact the Company's net income (loss) for the period. In addition,

because non-GAAP financial measures are not measured in the same manner by all companies, they may not be comparable to other similar titled measures used by other companies. In light of the foregoing limitations, you should not consider non-GAAP financial measure in isolation from or as an alternative to the financial measure prepared in accordance with U.S. GAAP.

The presentation of these non-GAAP financial measures is not intended to be considered in isolation from, or as a substitute for, the financial information prepared and presented in accordance with U.S. GAAP. For more information on these non-GAAP financial measures, please see the table captioned "YY Inc. Reconciliations of GAAP and Non-GAAP Results" at the end of this release.

³ Non-GAAP operating income is a non-GAAP financial measure, which is defined as operating income excluding share-based compensation expenses.

⁶ Non-GAAP net margin is a non-GAAP financial measure, which is defined as non-GAAP net income attributable to YY Inc. as a percentage of net revenues.
