ManTech Awarded \$77 Million Contract to Provide Essential and Mission Critical Support Services to the Federal Bureau of Investigation

FAIRFAX, Va.--(BUSINESS WIRE)-- ManTech International Corporation (NASDAQ: MANT) has been awarded a contract by the FBI to provide essential and mission critical support services for the CJIS' portfolio of Justice and Public Safety Systems - collectively known as Systems of Services (SoS). The FBI CJIS Division is tasked with equipping the law enforcement, national security, and intelligence community with the criminal justice information they need to protect the United States while preserving civil liberties. ManTech will operate, maintain, refresh, and enhance FBI CJIS information technology systems required to process and share mission critical information for members of the law enforcement community in the United States and abroad.

"We are proud to support the FBI's mission critical state-of-the-art identification and information technology systems," said L. William Varner, president and chief operating officer of ManTech's Mission, Cyber & Intelligence Solutions (MCIS) group. "ManTech's support for this customer from our Fairmont, WV office also reaffirms our commitment to continued investment, economic development, and job growth in the region that we initiated more than twenty years ago. We look forward to continued growth and the ability to leverage all of the talent that this community has to offer."

The task order was a split award under the ALLIANT Indefinite Quantity, Indefinite Delivery (IDIQ) vehicle to provide sustaining engineering support services to the FBI's Criminal Justice Information Services (CJIS) Division through the CJIS Operations and Maintenance Professional Services (COMPS) contract. The award to ManTech is valued at \$77.9 million with a six month base period and four option years.

About ManTech International Corporation

ManTech is a leading provider of innovative technologies and solutions for mission-critical national security programs for the intelligence community; the departments of Defense, State, Homeland Security, Energy and Justice, including the Federal Bureau of Investigation (FBI); the space community; the National Oceanic and Atmospheric Administration; and other U.S. federal government customers. We provide support to critical national security programs for approximately 60 federal agencies through 1,000 current contracts. ManTech's expertise includes command, control, communications, computers, intelligence, surveillance and reconnaissance (C4ISR) lifecycle support; cyber security; global logistics support; intelligence/counter-intelligence support; information technology (IT) modernization and sustainment; systems engineering; test and evaluation; and health IT. ManTech supports major national missions, such as military readiness, terrorist threat detection, information security and border protection. Additional information on ManTech can be found at www.mantech.com.

Forward-Looking Information

Statements and assumptions made in this press release, which do not address historical facts, constitute "forward-looking" statements that ManTech believes to be within the definition in the Private Securities Litigation Reform Act of 1995 and involve risks and uncertainties, many of which are outside of our control. These forward-looking statements are inherently subject to risks and uncertainties, and actual results and outcomes may differ materially from the results and outcomes we anticipate. Factors that could cause actual results to differ materially from those we anticipate include, but are not limited to, adverse changes in U.S. government spending priorities; adverse changes in future levels of expenditures for programs we support caused by budgetary pressures facing the federal government and changing mission priorities; the failure to obtain option awards, task orders or funding under the contract; failure to maintain strong relationships with our joint venture partner; risk of contract performance, modification, or termination; the failure to maintain strong relationships with other contractors; and risks associated with complex U.S. government procurement laws and regulations. These and other risk factors are more fully discussed in the section entitled "Risks Factors" in ManTech's Annual Report on Form 10-K, filed with the Securities and Exchange Commission on Feb. 24, 2012, and from time to time in ManTech's other filings. The forward-looking statements included in this news release are only made as of the date of this press release, and ManTech undertakes no obligation to publicly update any of the forward-looking statements made herein, whether as a result of new information, subsequent events or circumstances, changes in expectations or otherwise.
