

## **ManTech Announces Dr. Dean May to Lead Advanced Technology Initiatives for the MCIS Business Group**

FAIRFAX, Va.--(BUSINESS WIRE)-- ManTech International Corporation (NASDAQ:MANT) is pleased to announce that Dr. Dean May has joined ManTech as vice president of intelligence solutions for its Mission, Cyber and Intelligence Solutions (MCIS) group. He will lead advanced technology initiatives that enhance our cyber solutions, as well as continued growth in the Intelligence Community.

Dr. May recently retired from the Central Intelligence Agency after more than 30 years of distinguished service in the Intelligence Community, including the National Reconnaissance Office. He spent most of his career with the agency's Directorate of Science & Technology, leading research and development efforts across directorates in an effort to enhance our nation's intelligence capabilities. Dr. May is also a recipient of the Navy Meritorious Civilian Service Medal for outstanding leadership and the CIA John A. McCone Award for development of an innovative, world-class collection capability.

Dr. May brings unique experience that will ultimately enhance our capacity to meet emerging threats as part of our expanded cyber intelligence capability," said L. William Varner, president and chief operating officer of ManTech's Mission, Cyber and Intelligence Solutions Group (MCIS). "His impressive career reflects a rare talent for driving innovation in step with policy and operations that have the greatest impact for our customers. We are excited to have Dr. May on our team and look forward to all of the new ways that we can augment our solutions and capabilities to meet the growing needs of our Intelligence Community customers."

### **About ManTech International Corporation:**

ManTech is a leading provider of innovative technologies and solutions for mission-critical national security programs for the intelligence community; the departments of Defense, State, Homeland Security, Energy and Justice, including the Federal Bureau of Investigation; the space community; the National Oceanic and Atmospheric Administration; and other U.S. federal government customers. We provide support to critical national security programs for approximately 60 federal agencies through 1,000 current contracts. ManTech's expertise includes command, control, communications, computers, intelligence, surveillance and reconnaissance (C4ISR) lifecycle support, cyber security, global logistics support, intelligence/counter-intelligence support, information technology modernization and sustainment, systems engineering, and test and evaluation. ManTech supports major national missions, such as military readiness, terrorist threat detection, information security and border protection. Additional information on ManTech can be found at [www.mantech.com](http://www.mantech.com).
