ManTech Wins \$180 Million Jet Propulsion Laboratory Contract

Strategic managed services accord spans IT, communications hardware and services -- Safeguarded by ManTech Cybersecurity

HERNDON, Va., Aug. 14, 2017 (GLOBE NEWSWIRE) -- ManTech International Corporation (Nasdaq:MANT) was awarded a \$180 million contract, with full potential value of \$450 million including contract extensions over a 10-year term, to manage and transform NASA's Jet Propulsion Laboratory (JPL) Institutional Computing Environment (ICE). The agreement is a subcontract for ICE under JPL's NASA prime contract.

"We are very excited to partner with JPL's Office of the CIO to develop and deploy services that will keep America's world-renowned space Lab and federally funded research and development center on the forefront of technology now and in the future," said Daniel J. Keefe, president and chief operating officer of ManTech's Mission Solutions & Services Group. "This enterprise wide managed services agreement touches every facet of JPL's vast, complex IT and communications infrastructure. It will apply ManTech's expertise in Cyber, Analytics, Systems Engineering and Software, and Enterprise IT for an institution known to 'Dare Mighty Things'."

Under the agreement, ManTech will be responsible for the full range of ICE services used by JPL personnel in their support of the NASA mission: comprehensive IT support; collaborative engineering for the entire JPL community; integrated personal collaboration services; cybersecurity for all end users including off-site employees and contractors; cellular infrastructure; secure routing of communications to end user devices in accord with approval cycles; and all subscriber services, in a secure environment.

About ManTech International Corporation

ManTech provides innovative technologies and solutions for mission-critical national security programs for the intelligence community; the departments of Defense, State, Homeland Security, Health and Human Services, Veteran Affairs and Justice, including the Federal Bureau of Investigation (FBI); the health and space community; and other U.S. government customers. ManTech's expertise includes cybersecurity; software and systems development; enterprise information technology; multi-discipline intelligence; command, control, communications, computers, intelligence, surveillance and reconnaissance (C4ISR); program protection and mission assurance; systems engineering; supply chain management and logistics; test and evaluation (T&E); training; and management consulting.
