ManTech Wins \$37 Million Air Force Contract to Help Assess, Plan and Optimize Current and Future Warfighting Capabilities

HERNDON, Va., Oct. 19, 2017 (GLOBE NEWSWIRE) -- ManTech International Incorporated (NASDAQ:MANT) today announced a five-year \$37 million task order with the US Air Force, Headquarters Air Force Studies, Analyses, and Assessments Directorate (AF/A9) for support on the DoD Information Analysis Center's (DoD IAC) Cyber Security Technical Area Task (CSTAT) Multi-Award Contract (MAC).

Under the agreement, ManTech will support the Force Structure Analyses Directorate (AF/A9F), which analyzes air, space, and joint campaigns. ManTech's mission is to help AF/A9F optimize planning, programming, and budgeting of innovative technologies that will shape the future of US Air Force warfighting capabilities.

Daniel J. Keefe, president and chief operating officer of ManTech's Mission Solutions and Services Group, said, "ManTech has been a proud partner to AF/A9 for over 20 years, helping ensure a robust, modern Air Force able to tackle any and all challenges presented. This important award confirms ManTech's commitment to providing all-star teams with deep benches supporting the world's best Air Force, and safeguarding our national security."

The DoD IAC serves as a bridge between the warfighter and the acquisition community, offering an enhanced research base of Scientific and Technical Information (STI) and flexible MACs that yield new STI for reuse within DoD daily.

ManTech will provide model and simulation development, configuration management, modification, training and analysis support for various engagement, mission and campaign level models to help AF/A9 meet its mission.

About ManTech International Corporation

ManTech provides innovative technologies and solutions for mission-critical national security programs for the intelligence community; the departments of Defense, State, Homeland Security, Health and Human Services, Veteran Affairs and Justice, including the Federal Bureau of Investigation (FBI); the health and space community; and other U.S. government customers. ManTech's expertise includes cybersecurity; software and systems development; enterprise information technology; multi-discipline intelligence; command, control, communications, computers, intelligence, surveillance and reconnaissance (C4ISR); program protection and mission assurance; systems engineering; supply chain management and logistics; test and evaluation (T&E); training; and management consulting.
