Mitek's Mobile Verify® Selected by Leading Job Site

SAN DIEGO and LONDON, Dec. 05, 2017 (GLOBE NEWSWIRE) -- Mitek (NASDAQ:MITK) (www.miteksystems.com), a global leader in mobile capture and identity verification software solutions, today announced that a leading job website has selected [Mobile Verify®](#) to verify the identities of first-time job posters. This will enable the site to ensure that job seekers only see legitimate career opportunities.

"Integrity of job listings is important," said James B. DeBello, CEO of Mitek. "In fact, job posting fraud has become so prevalent in recent years that the [Federal Trade Commission](#) launched [Operation Empty Promises](#) in an effort to educate job seekers on common scams."

Mobile Verify mitigates the risk of scams by ensuring that all job posts are from verified sources. When a new job poster registers for the site from a desktop computer, they are directed via text to take a picture of their identity documents using their mobile device camera. Mobile Verify then uses advanced artificial intelligence and machine learning technology to validate the authenticity of an identity document.

About Mitek

Mitek (NASDAQ:MITK) is a global leader in mobile capture and identity verification software solutions built on the latest advancements in AI and machine learning. Mitek's identity verification solutions allow an enterprise to verify a user's identity during a digital transaction. This enables financial institutions, payments companies and other businesses operating in highly regulated markets to mitigate financial risk and meet regulatory requirements while increasing revenue from digital channels. Mitek also reduces the friction in the users' experience with advanced data prefill and automation of the onboarding processes. Mitek's innovative solutions are embedded into the apps of more than 5,900 organizations and used by more than 80 million consumers.
