

Karla Olson Teasley Appointed President of Illinois American Water

Utility Continues To Strengthen Local Management Team

Voorhees, NJ - January 08, 2007

Karla Olson Teasley, a veteran water utility executive, has been appointed president of Illinois American Water, a subsidiary of American Water, the largest water services provider in North America. Ms. Teasley's appointment to the new position reflects the company's commitment to enhancing its community-oriented programs through strong local management.

Ms. Teasley will work with regulatory agencies, community officials and customers as part of the company's enhanced local connection, while supporting a continued focus on operational integrity. She will report to American Water Central Region President, Terry Gloriod, and will work with the company's external affairs, business development and service network teams.

"With her 17 years of experience, Karla Teasley is the right person to head a company that provides safe, reliable and efficient water services to more than one million Illinois residents in 125 communities across the state," said Donald L. Correll, president and CEO of American Water. "Her appointment is further evidence of our determination to ensure that the needs of our customers and local constituencies remain our priority."

Prior to joining Illinois American Water, Ms. Teasley was vice president of Louisville Water Co. in Kentucky. In this role, Teasley was responsible for all customer contact functions, as well as business development, capital budget and infrastructure planning, and pipeline design and construction.

Earlier, Ms. Teasley served as vice president and general counsel of Florida Water Services (aka Southern States Utilities, Inc.), providing in-house legal services, with heavy involvement in regulatory affairs and business development activities. She earned her law degree from University of Minnesota Law School and completed her undergraduate studies at the University of Wisconsin - Eau Claire.

Illinois American Water provides reliable, high quality water and/or wastewater service to more than one million people in 125 communities across the state. The company is a wholly-owned subsidiary of American Water, the largest and most diverse provider of water services in North America. With headquarters in Voorhees, NJ, American Water employs approximately 7,000 who serve more than 17 million people in 29 states and Canada.
