THREE LOCAL HIGH SCHOOL SENIORS AWARDED PENNSYLVANIA AMERICAN WATER “STREAM OF LEARNING” SCHOLARSHIPS

HERSHEY, Pa. (May 29, 2012) – Pennsylvania American Water announced today that 10 high school seniors throughout Pennsylvania, including three from the West Shore area, have been selected to receive Stream of Learning Scholarships. This is the third year that Pennsylvania American Water offered the program to support outstanding students within its service areas who are charting a course of study that is critical to the water and wastewater industry, with each winning student receiving a \$2,000 scholarship.

Locally, Pennsylvania American Water awarded scholarships to Kristiana Barr and Joshua Abraham of Cumberland Valley High School and Gregory Clark of Cedar Cliff High School.

A panel of judges selected the winners from more than 100 scholarship applications, which were evaluated on such criteria as academic achievement, letters of recommendation, community service and future careers plans in the water and wastewater industry.

“These Stream of Learning Scholarship recipients are outstanding students who possess the talent and abilities that are essential to the future of our industry,” said Pennsylvania American Water President Kathy L. Pape. “We are excited to lend our support not only because of their extraordinary academic achievements, but they also reflect our commitment to environment stewardship and service to the community.”

In addition to the local students, Pennsylvania American Water awarded 2012 Stream of Learning Scholarships to Cody Campolong of Baldwin High School (Allegheny County), Angela Coco of Wyoming Area Secondary Center (Luzerne County), Michelle Hoch of Upper St. Clair High School (Allegheny County), Zachary Potts of Trinity High School (Washington County), Kevin Skolnick of Mt. Lebanon High School (Allegheny County), Nicholas Rizer of Pennsbury High School (Bucks County) and Alyssa Jones of South Park High School (Allegheny County).

Pennsylvania American Water, a wholly owned subsidiary of American Water (NYSE: AWK), is the largest water utility in the state, providing high-quality and reliable water and/or wastewater services to approximately 2.2 million people. Founded in 1886, American Water is the largest publicly traded U.S. water and wastewater utility company. With headquarters in Voorhees, N.J., the company employs approximately 7,000 dedicated professionals who provide drinking water, wastewater and other related services to an estimated 15 million people in more than 30 states and parts of Canada.
