PENNSYLVANIA AMERICAN WATER KICKS OFF \$1 MILLION WATER LINE UPGRADE IN WEST NORRITON TOWNSHIP

NORRISTOWN, Pa. (June 22, 2017) – Pennsylvania American Water today announced the start of new water main installation in West Norriton Township to improve service reliability, prevent water outages and enhance fire protection. The approximately \$1 million project will replace aging pipe dating back to the 1940s.

Starting this week, crews are installing nearly 1,700 feet of new eight-inch ductile iron pipe along Clinton Street and Shepherd Lane. Weather permitting, construction is expected to be completed, including final paving restoration, by the end of September.

Construction will take place weekdays between 7 a.m. and 4 p.m. Traffic restrictions will be in place during construction hours, and motorists are urged to find alternate routes. During construction, customers might experience temporary water service interruptions, discolored water and/or lower than normal water pressure. For more information, contact Pennsylvania American Water's customer service centre at 1-800-565-7292.

Pennsylvania American Water, a subsidiary of American Water (NYSE: AWK), is the largest investor-owned water utility in the state, providing high-quality and reliable water and/or wastewater services to approximately 2.3 million people. With a history dating back to 1886, American Water is the largest and most geographically diverse U.S. publicly traded water and wastewater utility company. The company employs more than 6,800 dedicated professionals who provide regulated and market-based drinking water, wastewater and other related services to an estimated 15 million people in 47 states and Ontario, Canada. More information can be found by visiting www.amwater.com.
