## New Jersey American Water Investing \$130,000 in New Water Mains in Linwood

**VOORHEES, N.J. (August 16, 2017)** – [New Jersey American Water](#) will be investing approximately \$130,000 for the installation of new water mains in its Linwood service area. The company will be installing approximately 520 feet of new main in these areas, replacing water main that has reached the end of its useful life. The aging water lines will be replaced with ductile iron pipes.

Beginning on August 21, New Jersey American Water's qualified contractor, F.W. Shawl & Son, Inc. will begin working along **Morris Avenue** and **Belhaven Avenue**, from Wabash Avenue west to the end of each roadway. Construction is expected to be completed in approximately three weeks with final street restoration being completed in the fall of 2017. New Jersey American Water values the safety of its workers and advises drivers and pedestrians to take caution in the vicinity of work sites.

This investment will continue to improve water service reliability and increase water flows for household consumption and fire protection in this community. This improvement is part of New Jersey American Water's multimillion dollar program to accelerate the [renewal of water infrastructure](#) that is reaching the end of its useful life in more than 100 communities across the state.

New Jersey American Water has recently published an interactive [Infrastructure Upgrade Map](#) on its website to share details about its pipeline renewal projects, including this one in Linwood. The map is located at [www.newjerseyamwater.com](http://www.newjerseyamwater.com) under Water Quality, [System Updates](#).

New Jersey American Water, a subsidiary of American Water, is the largest investor-owned water utility in the state, providing high quality and reliable water and/or wastewater services to approximately 2.7 million people. More information can be found at [newjerseyamwater.com](http://newjerseyamwater.com). With a history dating back to 1886, American Water (NYSE: AWK) is the largest and most geographically diverse publicly traded U.S. water and wastewater utility company. The company employs 6,800 dedicated professionals who provide regulated and market-based drinking water, wastewater and other related services to an estimated 15 million people in 47 states and Ontario, Canada.
