PENNSYLVANIA AMERICAN WATER RELEASES WATER QUALITY REPORTS FOR SCHUYLKILL SERVICE AREAS

HERSHEY, Pa. (May 15, 2017) – Pennsylvania American Water announced today that the company’s 2016 Consumer Confidence Report have been posted online for the company’s Frackville, Laurel Ridge, and Wildcat service areas. Reports can be accessed online under the Water Quality and Stewardship tab.

The annual report is a performance measure of the quality of water supplied by Pennsylvania American Water against the compliance standards established by the U.S. Environmental Protection Agency and Pennsylvania Department of Environmental Protection. The report describes drinking water sources, testing conducted on the water, substances detected, and the levels of those substances. Commonly asked questions and the answers concerning drinking water are also included.

Pennsylvania American Water’s Consumer Confidence Reports, which are updated and posted annually, provide information to local customers. The report for the Frackville service area water system includes: Frackville, and the township of Butler, New Castle, Mahanoy and West Mahanoy. The Wildcat system report includes Walker Township.

Pennsylvania American Water, a subsidiary of American Water (NYSE: AWK), is the largest investor-owned water utility in the state, providing high-quality and reliable water and/or wastewater services to approximately 2.3 million people. With a history dating back to 1886, American Water is the largest and most geographically diverse U.S. publicly-traded water and wastewater utility company. The company employs more than 6,800 dedicated professionals who provide regulated and market-based drinking water, wastewater and other related services to an estimated 15 million people in 47 states and Ontario, Canada.
