California American Water Names New San Diego County Operations Manager

SAN DIEGO, Calif. (August 21, 2017) – California American Water announced the appointment of Robert Becerra to operations manager for the company's San Diego County District.

In this role, Robert will oversee all facets of operations for the district that comprise a population of more than 95,000 residents and 21,000 service connections. Since beginning his career at California American Water in 1981, Robert has held various positions within the company's San Diego County District including operations specialist, foreman, utility worker and laborer. In 2012, he was appointed operations supervisor of the district.

With more than 35 years of water industry experience, Robert holds a Level III certification in water distribution, a Level I certification in water treatment and a cross-connection control backflow tester certificate.

California American Water, a subsidiary of American Water (NYSE: AWK), provides high-quality and reliable water and/or wastewater services to more than 600,000 people. Information regarding California American Water's service areas can be found on the company's website www.californiaamwater.com.

Founded in 1886, American Water is the largest publicly traded U.S. water and wastewater utility company. With headquarters in Voorhees, N.J., the company employs approximately 6,800 dedicated professionals who provide drinking water, wastewater and other related services to an estimated 15 million people in 47 states and Ontario, Canada. More information can be found at www.amwater.com.
