

Alphatec Spine to Present at Two Investor Conferences in August

CARLSBAD, Calif., Jul 30, 2009 (BUSINESS WIRE) -- Alphatec Holdings, Inc. (Nasdaq:A TEC), the parent company of Alphatec Spine, Inc., a medical device company that designs, develops, manufactures and markets products for the surgical treatment of spine disorders, with a focus on treating conditions related to the aging spine, today announced it will present at the following conferences in August, 2009:

- **BMO Capital Markets Ninth Annual Focus on Healthcare Conference**, at 10:45 a.m. Eastern Time on Wednesday, August 5, 2009, at the Millennium Broadway Hotel, New York City.
- **Canaccord Adams 29th Annual Growth Conference** at 9:30 am Eastern Time on Wednesday, August 12, 2009, at InterContinental Hotel, Boston, Massachusetts.

During such presentation, Dirk Kuyper, Alphatec Spine's President and Chief Executive Officer, will provide a corporate overview of the Company. A live audio webcast of each presentation will be accessible through the Company's investor relations website at www.alphatecspine.com. An archived edition of the presentation will be available later that day and will be available for at least 30 days afterwards.

About Alphatec Spine

Alphatec Spine, Inc. is a wholly owned subsidiary of Alphatec Holdings, Inc. (Nasdaq:A TEC). Alphatec Spine is a medical device company that designs, develops, manufactures and markets products for the surgical treatment of spine disorders, primarily focused on the aging spine. The Company's mission is to combine world-class customer service with innovative, surgeon-driven design that will help improve the aging patient's quality of life. The Company is poised to achieve its goal through new solutions for patients with osteoporosis, stenosis and other aging spine deformities, improved minimally invasive products and techniques and integrated biologics solutions. In addition to its U.S. operations, the Company also markets its spine products in Europe. In Asia, the Company markets a broad line of spine and orthopedic products through its subsidiary, Alphatec Pacific, Inc. For more information, please visit www.alphatecspine.com.

Also visit the Aging Spine Center, www.agingspinecenter.com, a web-based information portal for healthcare providers and patients regarding aging spine disorders and their treatment. The Company is working with the National Osteoporosis Foundation as well as other clinical portals that provide peer-reviewed content, to populate the Aging Spine Center. The interactive website enables patients to review pertinent information about disorders that affect the aging spine in an easy-to-understand format that includes videos, graphics and questions that should be asked of caregivers. Medical information on the website includes published abstracts regarding the aging spine.
