

## CA Technologies Positioned a Leader for Identity Governance and Administration

*Gartner Recognizes CA Identity Suite for Ability to Execute and Completeness of Vision in 2017 Gartner Magic Quadrant*

NEW YORK--(BUSINESS WIRE)-- CA Technologies (NASDAQ:CA) has been positioned by Gartner, Inc., in the Leaders quadrant of the 2017 [Gartner Magic Quadrant for Identity Governance and Administration](#) (IGA).\* The report evaluated [CA Identity Suite](#), a comprehensive identity management and access governance solution with a simple, intuitive user experience.

Vendors were evaluated on their ability to execute and completeness of vision.

According to the report, "IGA Leaders deliver a comprehensive toolset for governance and administration of identity and access. These vendors have successfully built a significant installed customer base and revenue stream, and have high viability ratings and robust revenue growth. Leaders also show evidence of superior vision and execution for anticipated requirements related to technology, methodology or means of delivery. Leaders typically demonstrate customer satisfaction with IGA capabilities and/or related service and support."

In a survey of more than 100 CA Identity Suite Users, 70 percent report that using CA Identity Suite has reduced costs more than 25 percent.\*\* The virtual appliance reduces costs even further with installation and configuration time going from days to minutes. Organizations also can avoid high recurring software licensing costs with the appliance providing pre-installed instances of an operating system, application server and directory.

"Identity and governance administration isn't just about compliance; it's also about protecting the expanded attack surface that we see in today's hybrid IT environments," said Mordecai Rosen, senior vice president and general manager, CA Security business. "CA Identity Suite is a comprehensive IGA solution that helps our customers secure their enterprises by proactively managing identity and access rights for all their users and applications, whether in the cloud or on-premises."
