

CACI Announces Intent to Acquire Pangia Technologies

Acquisition Expands Software Engineering and Cybersecurity Capabilities

ARLINGTON, Va.--(BUSINESS WIRE)-- CACI International Inc ([NYSE: CACI](#)) announced today that it has signed a definitive agreement to acquire Pangia Technologies, LLC, a software engineering company that provides technical solutions in the areas of computer network operations, information assurance, mission systems, software and systems engineering, and IT infrastructure support. This acquisition expands CACI's cybersecurity solutions and increases its already strong presence in the Intelligence Community. Closing is anticipated by July 1, 2011.

Founded in 1999, Pangia has 110 employees and is headquartered in Fulton, Maryland. Pangia's work has high technical content and includes application development, systems vulnerability auditing and threat analysis, intrusion detection engineering, system security architecture design and development, broadly based software development, and design, development, and support for key systems through their lifecycle. Pangia has contract vehicles with key members of the Intelligence Community, the Department of Homeland Security, the United States Air Force, and the United States Navy. Pangia's revenue in calendar year 2010 was \$18.7 million. The acquisition is expected to be accretive to CACI's earnings per share during its first 12 months.

CACI President of U.S. Operations Bill Fairl said, "We are pleased to announce our intent to bring Pangia Technologies into CACI. Pangia has a premier workforce of innovative and highly experienced engineers, and their record of technical accomplishments and strong growth trajectory is impressive. Their high retention rate and focus on motivation, resourcefulness, and work ethic make Pangia an excellent fit for CACI's culture and our commitment to national security."

Paul Cofoni, CACI President and Chief Executive Officer, stated, "The acquisition of Pangia Technologies opens new growth opportunities for CACI and increases our technical offerings in the vitally important area of cybersecurity. Pangia's technology and demonstrated success in solving some of the most difficult intelligence problems, combined with CACI's significant presence in the Intelligence Community, will facilitate our expansion into emerging mission areas that are essential to national security."

Pangia Technologies President and CEO David Walker said, "We are very excited about joining the CACI team. We believe Pangia Technologies is a great fit for CACI because our capabilities are complementary and our values are the same. We are extremely impressed by CACI's focus on and consideration of our employees — the people who drive our company's capabilities. This combination supports and enhances the career opportunities of our very dedicated and talented professionals. We look forward to bringing our technical solutions and strong employee skill base to CACI, and we eagerly anticipate the opportunity to grow together as we continue working with our customers to counter present and emerging cyber threats."

CACI provides professional services and IT solutions needed to prevail in the areas of defense, intelligence, homeland security, and IT modernization and government transformation. We deliver enterprise IT and network services; data, information, and knowledge management services; business system solutions; logistics and material readiness; C4ISR solutions; cyber solutions; integrated security and intelligence solutions; and program management and SETA support services. CACI services and solutions help our federal clients provide for national security, improve communications and collaboration, secure the integrity of information systems and networks, enhance data collection and analysis, and increase efficiency and mission effectiveness. CACI is a member of the Fortune 1000 Largest Companies and the Russell 2000 index. CACI provides dynamic careers for approximately 13,700 employees working in over 120 offices in the U.S. and Europe.
