

CACI Awarded \$36.7 Million Prime Contract to Support U.S. Navy's ERP Single Supply Solution Program

Continues to Expand Business in Navy Enterprise Resource Planning

ARLINGTON, Va.--(BUSINESS WIRE)-- CACI International Inc (NYSE:CACI) announced today that it has been selected as a prime contractor to provide technical support services that will help the Naval Supply Systems Command (NAVSUP) facilitate the continued development, testing, and deployment of the U.S. Navy's Enterprise Resource Planning (ERP) Single Supply Solution (SSS) program. This indefinite delivery/indefinite quantity contract has a ceiling value of \$36.7 million and is for one base year and four option years. This work maintains CACI's support for Navy ERP systems and further expands its business in the engineering and logistics arenas.

NAVSUP's mission is to provide the Navy, Marine Corps, and joint and allied forces with products and services that deliver combat capability through logistics. The Navy's Single Supply Solution (SSS) is a new unified, secure information system that will provide total asset visibility from anywhere in the world in near real time. By tracking supply purchases and allocations throughout the entire Navy enterprise, it will enable the Navy to plan more efficiently for the purchase, maintenance, and deployment of assets.

On this contract, CACI will provide professional support services to ensure optimal implementation of the Single Supply Solution as well as an effective transition of logistics information from the Navy's existing supply and maintenance systems. CACI will also develop training materials and provide training to the end users of the new logistics system.

Bill Fairl, CACI's President of U.S. Operations, said, "CACI has an outstanding track record of partnering with the U.S. Navy in automating logistics and maintenance processes for cost-wise readiness. On the Single Supply Solution program, our proven enterprise-wide solutions will help the Navy standardize and integrate business processes, decrease lifecycle expenditures, and maintain readiness at the highest levels in order to ensure timelier, more cost-effective supply support for our nation's forces."

According to CACI President and Chief Executive Officer Paul Cofoni, "CACI is a leader in providing Enterprise Resource Planning solutions for the U.S. Navy, and we are proud to be selected once again to help keep the U.S. military equipped and ready to perform their vital missions. The Single Supply Solution contract is an integral part of our ongoing goal to provide services and solutions that bring the greatest value to protecting our homeland and defeating terrorism."

Celebrating our 50th year in business, CACI sustains an exceptional record of success by providing professional services and IT solutions needed to prevail in the areas of defense, intelligence, homeland security, and IT modernization and government transformation. We deliver enterprise IT and network services; data, information, and knowledge management services; business system solutions; logistics and material readiness; C4ISR solutions; cyber solutions; integrated security and intelligence solutions; and program management and SETA support services. CACI solutions help federal clients provide for national security, improve communications and collaboration, secure information systems and networks, enhance data collection and analysis, and increase efficiency and mission effectiveness. A member of the Fortune 1000 Largest Companies and the Russell 2000 index, CACI provides dynamic careers for approximately 14,300 employees working in over 120 offices in the U.S. and Europe.
