

## CACI Awarded Prime Contract on \$1 Billion, Multiple-Award Program to Support Centers for Disease Control and Prevention

### New Work for CACI in Healthcare IT Field

Arlington, VA, October 19, 2010 - CACI International Inc ([NYSE:CACI](#)) announced today that it has been awarded a prime contract to support the Centers for Disease Control and Prevention's (CDC) Information Technology Infrastructure work under the overall CDC Information Management Services (CIMS) contract. The 10-year, multiple-award, indefinite delivery/indefinite quantity (IDIQ) contract for IT infrastructure work has a ceiling value of \$1 billion. The award represents new business for CACI and leverages its position in the growing healthcare IT field.

Founded in 1946, the CDC addresses the most vital issues affecting the public's health and has a workforce of over 10,000 federal employees and approximately 6,000 contract staff. The CIMS work covers information and data analysis, requirements analysis, the design and development of new systems, system security, modifications to existing systems, database administration, and user training.

CACI will provide support at the CDC's main campus in Atlanta as well as its offices worldwide. The award strengthens CACI's functional core competency in Enterprise IT and Network Services (EITN), drawing upon years of IT and network engineering as well as healthcare expertise. CACI's infrastructure support will help the CDC reach its goals of providing close to real-time gathering of health information, developing analytic tools for scientists, and enhancing public health and community collaboration.

Bill Fairl, CACI's President of U.S. Operations, said, "CACI has an excellent track record of improving efficiency, maintaining security, and reducing costs in IT infrastructure environments. Our support will play a pivotal role in helping the Centers for Disease Control continue to provide credible health information and better protect the health of the public."

Paul Cofoni, CACI's President and CEO, said, "CACI continues to execute on its strategic growth plan of aligning its capabilities with the nation's highest priorities, such as improving healthcare and enhancing government systems. The Centers for Disease Control is new to our family of clients and this contract is key to CACI's strategy of increasing our support to federal healthcare agencies. We look forward to offering the CDC proven solutions for its important mission."

CACI provides professional services and IT solutions needed for defense, intelligence, homeland security, and IT modernization and government transformation. We deliver enterprise IT and network services; data, information, and knowledge management services; business system solutions; logistics and material readiness; C4ISR integration services; cyber solutions; integrated security and intelligence solutions; and program management and SETA support services. CACI services and solutions help our federal clients provide for national security, improve communications and collaboration, secure the integrity of information systems and networks, enhance data collection and analysis, and increase efficiency and mission effectiveness. CACI is a member of the Fortune 1000 Largest Companies and the Russell 2000 index. CACI provides dynamic careers for approximately 12,900 employees working in over 120 offices in the U.S. and Europe.
