

CDI Listed on InformationWeek 500

PHILADELPHIA, Sept 12, 2006 /PRNewswire-FirstCall via COMTEX News Network/ -- CDI Corp. (NYSE: CDI) today announced that it has been listed on the InformationWeek 500 list for the fifth year in a row. Top 2006 InformationWeek 500 companies will be revealed at a gala awards ceremony held during the InformationWeek 500 Conference in Rancho Mirage, Calif. from September 10-13.

For the past 18 years InformationWeek has identified and honored the nation's most innovative users of information technology with its annual listing. The list is unique among corporate rankings because it spotlights the power of innovation in information technology, rather than simply identifying the biggest IT spenders.

"The InformationWeek 500 honors today's leading companies who set the benchmark for business technology strategies and projects," said InformationWeek publishing director, Fritz Nelson. "The companies on our list are some of the most innovative users of technology."

"CDI maintains a lean headquarter operation," said Vince Squillacioti, Chief Information Officer of CDI. "We have built a business model to maximize returns on invested capital. Therefore, our IT investments and technologies focus on creating an environment that allows our talented people to lead the industry in productivity."
