**First Quarter 2017 Business Developments**

- WTO trade case brought against China for providing illegal subsidies to its aluminum producers
- Filed antitrust lawsuit alleging utility serving Mt. Holly smelter is violating state and federal antitrust laws
- Ravenswood facility sale finalized, resulting in proceeds of \$14 million

Century Aluminum Company reported a net loss of \$15.1 million (\$0.17 per share) for the first quarter of 2017. Results were impacted by a \$14.0 million (\$0.16 per share) unrealized loss relating to LME forward sales. This result compares to a net loss of \$168.5 million (\$1.93 per share) for the fourth quarter of 2016, which included a \$152.2 million (\$1.75 per share) impairment charge related to Helguvik.

The first quarter of 2017 adjusted net loss was \$5.0 million (\$0.05 per share) compared to an adjusted net loss of \$11.5 million (\$0.12 per share) for the fourth quarter of 2016.

For the first quarter of 2017, Century reported adjusted EBITDA of \$22.2 million, up \$10.3 million from the fourth quarter of 2016. The increase was primarily attributable to higher aluminum prices, partially offset by higher raw material costs.

Sales for the first quarter of 2017 were \$365.8 million compared with \$339.8 million for the fourth quarter of 2016. Shipments of primary aluminum for the first quarter of 2017 were 186,395 tonnes compared with 183,210 tonnes shipped in the fourth quarter of 2016.

Net cash used in operating activities in the first quarter of 2017 was \$11.3 million. We received \$13.6 million in proceeds from the sale of our Ravenswood, W.V. facility. Our cash position at quarter end was \$125.9 million and we had \$99.5 million of revolver availability.

"All operations are stable and are performing well," commented Michael Bless, President and Chief Executive Officer.

"Conversion costs during the quarter were in line with expectations and remain so. Alumina pricing has, consistent with our expectations, shown a downward trend. Financial results should continue to strengthen in this market environment, given that the vast majority of our sales are based upon metal prices one to three months prior to the current month. Cash flow was impacted by a working capital adjustment related to changes in the commercial terms of a portion of our U.S. sales contracts, but was otherwise strong."

"Industry conditions remain mixed," continued Bless. "Our markets in the U.S. and Europe continue to be distorted by significant trade flows caused by the illegally subsidized excess capacity and production in China. This uneconomic capacity must be permanently removed in order to restore fair global trade conditions throughout the value chain in our sector. We are confident the U.S. and other governments will continue to insist that China take immediate steps to address the unsustainable structure of its aluminum industry. Demand, on the other hand, remains vibrant in our markets. Fair trading conditions, coupled with our company's market position in the U.S. and Europe, should produce an attractive environment for Century's shareholders."

### **Non-GAAP Financial Measures**

Adjusted net income (loss), adjusted earnings (loss) per share and adjusted EBITDA are non-GAAP financial measures that management uses to evaluate Century's financial performance. These non-GAAP financial measures facilitate comparisons of this period's results with prior periods on a consistent basis by excluding items that management does not believe are indicative of Century's ongoing operating performance and ability to generate cash. Management believes these non-GAAP financial measures enhance an overall understanding of Century's performance and our investors' ability to review Century's business from the same perspective as management. The table below, under the heading "Reconciliation of Non-GAAP Financial Measures," provides a reconciliation of each non-GAAP financial measure to the most directly comparable GAAP financial measure. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, Century's reported results prepared in accordance with GAAP. In addition, because not all companies use identical calculations, adjusted net income (loss), adjusted earnings (loss) per share and adjusted EBITDA included in this press release may not be comparable to similarly titled measures of other companies. Investors are encouraged to review the reconciliation in conjunction with the presentation of these non-GAAP financial measures.

### **Cautionary Statement**

This press release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are statements about future events and are based on our current expectations. These forward-looking statements may be identified by the words "believe," "expect," "hope," "target," "anticipate," "intend," "plan," "seek," "estimate," "potential," "project," "scheduled," "forecast" or words of similar meaning, or future or conditional verbs such as "will," "would," "should," "could," "might," or "may." Our forward-looking statements include, without limitation, statements with respect to: future global and local financial and economic conditions; our assessment of the aluminum market and aluminum prices (including premiums); the potential outcome of any trade claims to address excess capacity or unfair trade practices, our assessment of power pricing and our ability to successfully obtain and/or implement long-term competitive power arrangements for our operations and projects; our ability to procure alumina, carbon products and other raw materials and our assessment of pricing and costs and other terms relating thereto; the future operation or potential curtailment of our U.S. assets; the future financial

and operating performance of Century, its subsidiaries and its projects; future earnings, operating results and liquidity; our future business objectives, strategies and initiatives.

Where we express an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, our forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from future results expressed, projected or implied by those forward-looking statements. Important factors that could cause actual results and events to differ from those described in such forward-looking statements can be found in the risk factors and forward-looking statements cautionary language contained in our Annual Report on Form 10-K, quarterly reports on Form 10-Q and in other filings made with the Securities and Exchange Commission. Although we have attempted to identify those material factors that could cause actual results or events to differ from those described in such forward-looking statements, there may be other factors that could cause results or events to differ from those anticipated, estimated or intended. Many of these factors are beyond our ability to control or predict. Given these uncertainties, the reader is cautioned not to place undue reliance on our forward-looking statements. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events, or otherwise.
