Century Aluminum Company reported net income of \$7.1 million for the second quarter of 2017. Results were favorably impacted by a \$6.1 million unrealized gain relating to LME forward sales. This result compares to a net loss of \$15.1 million for the first quarter of 2017, which included a \$14.0 million unrealized loss relating to LME forward sales.

The second quarter of 2017 adjusted net income was \$0.8 million compared to an adjusted net loss of \$5.0 million for the first quarter of 2017.

For the second quarter of 2017, Century reported adjusted EBITDA of \$34.0 million, up \$11.8 million from the first quarter of 2017. The increase was primarily attributable to higher aluminum prices, partially offset by higher alumina costs.

Sales for the second quarter of 2017 were \$388.8 million compared with \$365.8 million for the first quarter of 2017. Shipments of primary aluminum for the second quarter of 2017 were 182,829 tonnes compared with 186,395 tonnes shipped in the first quarter of 2017.

Net cash provided by operating activities in the second quarter of 2017 was \$14.4 million. Our cash position at quarter end was \$130.7 million and we had \$135.7 million of revolver availability.

"Our operations remain stable and are performing at expected levels of operating efficiency," commented Michael Bless, President and Chief Executive Officer. "Safety results generally improved, albeit not at the pace we demand. Profit conversion

on higher revenue was strong despite the predicted increase in alumina costs caused by our pricing mechanisms and inventory costing method; alumina unit costs will decrease in the third quarter. In contrast, we are seeing an increase in the prices of other key raw materials, and we expect this trend to continue for some time."

Bless continued, "General manufacturing and construction activity remains relatively robust in our markets, as does demand for our products. However, we continue to expect a global supply surplus in primary aluminum for the foreseeable future, produced by China's still surging and heavily subsidized uneconomic production. While recent closure announcements, if implemented, could portend a more economically justified approach, the trade data continue to show record exports of aluminum products from that country. Enforcement of global trade laws, in our strong opinion, is necessary to level the playing field and ensure that all producers live up to their international obligations. It is only through a market in which all parties compete according to the same rules, that fair conditions can be achieved. We are confident our operations would thrive in such an environment, and are greatly encouraged by the leadership of the Trump administration in demanding this result."

Non-GAAP Financial Measures

Adjusted net income (loss), adjusted earnings (loss) per share and adjusted EBITDA are non-GAAP financial measures that management uses to evaluate Century's financial performance. These non-GAAP financial measures facilitate comparisons of this period's results with prior periods on a consistent basis by excluding items that management does not believe are indicative of Century's ongoing operating performance and ability to generate cash. Management believes these non-GAAP financial measures enhance an overall understanding of Century's performance and our investors' ability to review Century's business from the same perspective as management. The tables below, under the heading "Reconciliation of Non-GAAP Financial Measures," provide a reconciliation of each non-GAAP financial measure to the most directly comparable GAAP financial measure. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, Century's reported results prepared in accordance with GAAP. In addition, because not all companies use identical calculations, adjusted net income (loss), adjusted earnings (loss) per share and adjusted EBITDA included in this press release may not be comparable to similarly titled measures of other companies. Investors are encouraged to review the reconciliation in conjunction with the presentation of these non-GAAP financial measures.

Cautionary Statement

This press release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are statements about future events and are based on our current expectations.
