Big Growth, Bigger Building for Collectors Universe

Newport Beach, California, Nov. 02, 2017 (GLOBE NEWSWIRE) -- (Newport Beach, California) - Due to continued success and growing demand, Collectors Universe (Nasdaq: CLCT) will relocate to a nearby, larger office building in order to streamline its authentication and grading operations.

During the month of November, the company will move to 1610 E. St Andrew Place, Suite 150, Santa Ana, California 92705, just a five-minute drive from its current location on Alton Parkway. The move comes as a result of increased demand and a steady, annual growth in business.

"We've seen tremendous growth over the last few years, and now it is time to expand our doors to meet that growth. In a move that will improve operational efficiency and better accommodate our increasing business, we are thrilled to announce our new office," said Collectors Universe CEO Joe Orlando.

The addresses for customer authentication and grading submissions are not affected and orders should continue to be submitted based on the address listed on the customer submission form. The only exception to this is for shipments sent via FedEx Ground. Any FedEx Ground packages shipped to arrive in November can be mailed to the current address of 1921 E. Alton Parkway, Suite 100, Santa Ana, California 92705. Only FedEx Ground packages scheduled to arrive in December should be shipped to the new address.

Non-grading and FedEx Ground packages will be received at the Alton Parkway location up to November 30, 2017.

Company phone numbers will remain the same during and after the move.

Collectors Universe, Inc. (Nasdaq: CLCT) is a publicly traded authentication and grading company that has certified over 66 million collectibles. The company has offices in the California, New Jersey, Paris, Hong Kong and Shanghai, and services coins, banknotes, trading cards, event tickets, autographs, professional model bats and gloves, photographs and memorabilia.
